COFFEE.

There was a very small showing on the local market this morning, and there was practically no change from the figures of yesterday.

Hay was the only thing that was affered in any quantity, and it showed a tendency to be slightly easier. The highest figure paid during the morning was \$15, while some loads of inferior quality went as low as \$14. There was a fair demand, owing to the approaching holiday, but the showing was not at all what had been expected. There were a few loads of oats, but they, too, were easy in price, \$1 20 being the top figure, while the majority the story of the story at unchanged prices to a decline of 5 points, in response to the partial decline of one-half franc at Havre, but ruled very steady on a scattering demand from local bulls, in the absence of important offerings. The early loss, which was shown only by one or two months, was recovered late in the day, the market closing steady. Net unchanged prices to a decline of 5 points, in response to the partial decline of 5 points, in response to the partial decline of 5 points, in response to the partial decline of 5 points, in response to the partial decline of 5 points, in response to the partial decline of 5 points, in response to the story at unchanged prices to a decline of 5 points, in response to a decl

George Ellis. formerly chief buyer frightened workmen closed the en-over the township. We will all be able to be calculated as a double sessions, the wholesale dismissand from the chambers of the dead. The telephone line is being extended at of the teachers was arbitrary and double sessions, the wholesale dismissand from the chambers of the dead. The telephone line is being extended at of the teachers was arbitrary and done without proper consideration, nor had any trustee the right to make and over the township. We will all be able to be considered to the chambers of the dead. The telephone line is being extended at of the teachers was arbitrary and done without proper consideration, nor had any trustee the right to make and over the township. Martin got a hint of this, and as he for the hydro-electric commission, entered the desk as a candidate, sure explaining the negotiations with the of which has been forgotten. service commenced Mr. Martin took last Dominion elections. out his tuning fork, struck it, raised it behalf of the hydro-electric commisto his ear, and with his full sonorous sion, and Mr. S. Johnston, for C. L. voice repeated the words as if trying De Muralt & Co. to catch the key. "Ke-aw, Ke-aw!" This was enough. The would-be trou- ANDREW THOMPSON bler of Israel arose, disappeared, and never again attempted to disturb the precentor.-Scottish American.

SOAP AND WATER FOR THE FACE Is Now a Regular Visitor at the Police In cities it is very difficult to keep the face clean, so many particles of who has been appearing more frequently in the rolice court than any for their fellow-countrymen, willing to for their fellow-countrymen, willing to air, and so much dirt from the streets, one else in town for drunkenness, was make exertions and sacrifices for the The face should be cleansed at once from these impurities; if not a crop of morning was not only charged with being drunk but with breaking the blackheads will soon be seen Women

to their faces. tradition arose and has been persisted or 21 days and for being drunk \$5 or in that water is not good for the face, and that soap is positively injurious. One cannot have a good complexion unless the face is kept absolutely clean. To do this the face has to be attacked street, and will move into it at the first with vigor. 'A soft cloth, or better yet, of the year. bits of eotton dipped in alcohol or cologne, and water, will remove dirt from the face after it has been scrubbed and supposed to be thoroughly cleansed. With bits of cotton, grease, such as cold cream, can be used, and will also cleanse the face and remove the smaller blackheads.-Family Doctor.

"THE OLD LADY WITH THE WHITE SHAWL'

Ellen Steiner Was Given Four Months in Jail by P. M. Love.

Ellen Steiner, "the old lady with the white shawl," who became a familiar figure in London during the summer

was fined \$1 or four months in jail this morning by Magistrate Love. I want to make sure that you will have a comfortable place where you well taken care of for the wintake you they have only to pay \$1." "I am very comfortable where I am," the Memorial Cruhch. said Mrs. Steiner, who has been at the jail for some weeks. "But some of with the funeral was that all the

WORK CAN PROCEED ON HYDRO TOWERS

The Work of Erecting Poles and Stringing Wires on Mrs. Felker's Farm May Go on.

Toronto, Dec. 31.—"I confess I did not feel any difficulty in dealing with not feel any difficulty in dealing with the case. I think that these defend- Under Auspices of the Sunday will be over 60 cases during the year. There were but 17 last year, and no ants have acted by direction from the commission down. They are not trespassers, and the action must be dismissed and the injunction dissolved with costs." This was the finding of Chief Justice Falconbridge, rendered resterday in the non-jury sittings, in the action brought by Mrs Louise J. Felker, of the township of Gainsboro, near St. Ann. against the F. H. Mc-Guigan Construction Company; C. L. DeMuralt & Co., and the Niagara and Ontario Construction Company, working under the direction of the provincial hydro-electric power commission, for an injunction restraining the defendants from erecting the hydro-elecric power transmission line across her

In rendering judgment, his lordship said in part:
"The question is a very narrow one. The facts are undisputed, and I have no hesitation in giving judgment now. There is no cause, so far as I can see, why I should reserve. It is all a question of construction of section 10 of the act of 1909. We have heard much about the jurisdiction of the Province of Ontario, and of complaints as to its exercise of power and authority. Within its own jurisdiction the province is supreme. Had the Legislature chosen to confiscate this property without offer of compensation, it would have been perfectly right in law, if not in morals."

"We hear much of the dangerous

hydro-electric comm?ission were au- right. Ex-dividend: Dominion Telegraph, 1½ thorized, in spite of the public works per cent; Imperial Loan, 3 per cent; Imperial Life, 6 per cent; Nipissing Mines, for the erection of the transmission act, to expropriate the right of way The contention of the plainiff was that under the latter act he Ligislaold, do, anyone else.

"CORK METAL."

exhibitions samples of a metal were tainment, including selections from helped me to repay in some small her well-known classical dances and measure the debt I owe to the teach which was said to be 40 per cent lighter than aluminum, and to have numerous other properties which should make it a rival of the latter.

arouse my interest, as a consequence of which I have submitted it to chemical analysis.

In appearance the metal resembles very strongly the alloys known as magnalium. The surface presents a lustreless whitish grey color, both sheets and bars showing the scorings and scratches so frequently found on badly-rolled or drawn aluminum. Careful analysis gave the following result Aluminum 0.04 per cent Iron 0.017 per cent Zine 0.48 per cent Sodium 0.21 per cent Magnesium99.30 per cent It will be seen therefore that essen-The funeral of Frank Edward John tially "cork metal" is nothing but magnesium to which a small amount of

CORRESPONDENCE.

School Board Affairs.

To the Editor of The Advertiser: In this, my last letter, I would like to review the points I have tried to make againt the recent action of the board of education.

*1. The cry of economy is a false one, used only as a vote catcher. Even 17, says: "As the purpose of this reorganization is not to reduce the taxes but to give the taxpayer value for his money, the new plan will enable the board to extend the benefits of kindergartens to districts now without them." And besides this, there is proof of wasteful extravagance in other de partments for which no one is held

responsible. The plan proposed is against the advice of those most experienced in the work and would undoubtedly lessen the efficiency of the kindergartens by reducing by one-third the training given to the child and handicapping the teachers in other ways. 3. The kindergartners have proved again and again that they are not seeking to get a whole day's pay for half a

day's work, but their sole desire is to

standard, and they have given freely of both their time and means to this 4. Whatever may be said in favor of double sessions, the wholesale dismiss-

paraging remarks about any teacher 5. In the re-engagement of the teach. ers, every principle of justice and grat. itude to those who have served the city long and faithfully was outraged few days with his sister, Mrs. Richard and personal influence substituted Those who are responsible things surely do not represent the in-Toronto to visit her sister, Mrs. telligent citizens of London.

May I add two more thoughts? The kindergarten belongs particularly Mr. Telford Dell, of Sarnia Business the workingman. It is where the children of the poorest have their young, minds developed along right lines where the chasm between home and child-is pleasantly bridged, and where they first receive that training in the amenities of life which their ofter overworked mothers cannot give them the Will the workingmen vote to impai the irow-the efficiency of their part of the ed ucational system, that the expens may be multiplied in the part to whic chickens are going, also hams, their children rarely attain—the Colle giate Institute? Again, the propos change is at best only experimental Why not try it as all experiments are tried, on a small scale, under competent supervision, before disorganizins

Finally, Mr. Editor, will you accept my most hearty thanks for the space AN INTERESTED PARENT.
