KILLED BY MANIAC.

LUND, B. C., Dec. 16.—Ralph Dango was killed early this morning by a builet fired by Alexander Johnson, a raving maniac, who descended on this little coast town, firing as he came. The inhabitants are terror-stricken, some having barricaded themselves in their homes; others fleefing to the hills. Well-armed and supplied with ammunition, Johnson at last accounts had barricaded himself in a house and was preparing to resist efforts at his capture.

COCHRANE, Ont., Dec. 16.—(By Canadian Press.)—The frozen body of a trapper, George Picard of Bingle, 30 miles east of here, was found in a muskeg six miles from Twin Falls camp yesterday and brought to this town last night.

Picard's Indian partner, Leo, notified the local police last Sunday that Picard had disappeared on Dec. 8.

Two policemen, Morin and Demos, returned with the Indian to search the bush.

Tracks were found which showed the bewildered man had traveled approximately 25 miles in circles and his general course lay away from the camp. Riffe, ammunition and snowshoes were lying beside the remains.

Better Butter

SILVERWOOD'S Carbonated Butter is not a new kind of butter. It is made exactly like the best butter you ever tasted-for that is what it is-superior butter.

Yet it is different-it does not lose its wonderfully delicious flavor and freshness like ordinary butter. The last ounce you use is as good as the first-Why?

By the time ordinary butter reaches you the air has begun to turn it rancid, just like air getting into a jar of preserves.

By a wonderfully new and simple patented process we churn our butter, not in air, but in an atmosphere a thousand times purer than air. Bacteria, the cause of spoiled food, cannot exist in it -so, that Silverwood's Carbonated Butter cannot and will not turn rancid.

Delicious! Try it!

You owe yourself this treat. No more spoiled butter is a privilege worth enjoying, isn't it? Be sure. Ask your grocer - insist upon Silverwood's Carbonated Butter and you will never use any other
