

## SHERIFF SHOT BY LYNCHERS.

### Mob Afterwards Hang a Negro Murderer.

## MURDER AT AUSTIN, TEX.

State Comptroller Shot Dead by a Discharged Employee, Who Commits Suicide — Killed by the "Foul Tip"—Gold From Alaska — Miscellaneous U. S. Despatches.

**MURDER AND SUICIDE.**  
Austin, Texas, June 30.—State Comptroller R. M. Love was assassinated in his office in the State Capitol to-day by W. G. Hill, a discharged employee. No cause for the deed is known. W. G. Hill, the assassin of Love, committed suicide immediately after the shooting of Love.

**AN ALABAMA LYNCHING.**  
Scottdale, Ala., June 30.—A mob of fifty persons marched from Larkinsville last night and took Andrew Diggs (colored) from jail here to the woods to be lynched. Diggs had been arrested for assaulting Miss Alma Smith, white, of Larkinsville, last Sunday night. Sheriff D. O. Austin resisted the mob until he was shot down and the keys taken from him. Diggs was hanged by the mob. He confessed his crime.

**A FATAL "FOUL TIP."**  
Coschocton, O., June 30.—Newton Van Horn, aged 17, while playing baseball, was instantly killed to-day by being hit by a "foul tip." His skull was fractured.

**WAS EVENTUALLY MURDERED.**  
Pittsburg, Pa., June 30.—Henry Sauerwald, aged 40, a laborer employed on the farm of Albert Willhouse, near Castle Clinton, Pa., was found dead early to-day in the house of his employer. His skull had been broken in with an axe, and his body was badly mutilated. There was evidence of a fierce struggle. Willhouse was arrested. It is alleged that the two quarreled over Mrs. Willhouse, who it is said, was compelled to leave the house.

**IS CHARGED WITH MURDER.**  
New York, June 30.—Valentine Wolak, 22 years old, a native of Prussia, was arraigned before U. S. Commissioner Shields to-day, charged with having murdered Joseph and Elizabeth Ackerman, near Rosenberg, Prussia, January 3. His examination was set for to-morrow.

**CONDITION OF COTTON.**  
Washington, June 30.—The weekly crop report says of cotton conditions: The condition of cotton is very generally improved throughout the belt, but continues late and is suffering for cultivation in the eastern districts, where low night temperatures have checked growth. Lice and rust have caused injury in North Carolina and Missouri, and in Texas boll weevils are spreading, and are more injurious. The crop is also suffering for cultivation in portions of Louisiana and central and northern Texas. Stomach and heat are generally needed, especially in the central and eastern districts.

**DECLARED INSOLVENT.**  
Newark, N. J., June 30.—Judge Kirkpatrick to-day announced that counsel representing complaining bondholders of the United States Shipbuilding Company, that he had read all the papers in the case, and had decided that the corporation is insolvent, and that its directors had failed to take proper steps to protect the bondholders and seemed to be without ability to raise funds. Therefore, in the interest of the bondholders, both those who appear here as complainants and all the others, I shall appoint receivers. I will hear counsel as to whom they desire to name," said the court.

**STEAMER BURNED.**  
Detroit, July 30.—The lumber steamer Thomas D. Simpson was burned and scuttled at the flats early to-day. The flames spread so rapidly that the crew barely escaped with their lives.

**BARRINGTON QUITE COOL.**  
St. Louis, June 30.—A. S. Smith, who was held yesterday by the police in connection with the murder of horseman James McCann, has been released. His home is in New York, and he will go there, returning here to testify when "Lord" Barrington is tried. Last night Coroner Koch swore out a new warrant, charging Barrington with the murder of McCann. Barrington's previous hearing will be held July 8. When asked if he did not fear being lynched, Barrington replied: "Not a bit of it. I'm a British subject, and I expect to be legally tried on the charges against me. The sheriff has assured me that I will be well protected." The pond in the abandoned stone quarry wherein the

## LINEMAN KILLED BY LIVE WIRE.

An Interesting Legal Point — Large Iron Deposits in Northern Ontario — Minor Canadian Telegrams.

**DEATH OF ALEX. CAVEN.**  
Stratford, June 30.—Alex. Caven, collector of inland revenue at this port, died early this morning. Mr. Caven had been failing for a few weeks past, but the immediate cause of death was cancer of the stomach. Mr. Caven was born near Picton, Ont., and was 67 years of age. He came to Stratford in 1856, and for some time afterward he engaged in mercantile pursuits, and entered the civil service 25 years ago, during most of the time since when he had been collector of inland revenue. Mr. Caven leaves two daughters, Mrs. H. B. Parsons, of Hamilton, and Miss Maud, at home. The funeral takes place on Thursday afternoon.

**MUTILATED BY TRAMPS.**  
Parry Sound, June 30.—A letter received from Geo. Copeland, J. P., of Sprucedale, by Crown Attorney Haight, states that yesterday, while a deaf and dumb youth of 20, named Nolan, who lives near Fern Glen, a few miles south of Sprucedale, was after the cows, he was set upon by two tramps who beat and mutilated him severely, mutilated him with a knife in such a manner that the doctor entertains no hope of his recovery. No arrests as yet have been made. The men having made off supposedly in the direction of Parry Sound.

**KILLED BY LIVE WIRE.**  
Jordan, June 30.—Gordon Foster, a line-man employed by Woodstock, Hamilton, looking after the Caledonia Power Co., of Hamilton, in this section, was instantly killed this morning by coming into contact with a live wire. Foster was working on the mountain line, two miles south of Jordan, cutting lines from trees which projected into the wires. He lost his balance and fell on a live wire. His weight broke the wire, and he fell. Foster was 40 years of age, and leaves a wife and six small children, who live near Jordan. He then started to repair the wire, over which a heavy current was passing, and made contact through his body to the live wire.

**A NOTABLE INCREASE.**  
Toronto, June 30.—The strike in the building trade which began May 1st, has not apparently affected building in June, permits having been issued this month for \$574,000 worth of buildings, as against \$400,000 for May. The figures for six months are: 1903, \$2,214,000; 1902, \$1,901,000.

**JUDGMENT WAS RESERVED.**  
Toronto, June 30.—The right of a newspaper to accept advertising regarding strikes is involved in the case of John Joseph, a carriage maker, vs. the Globe-Printing Company, heard by Judge MacMahon to-day. Dixon seeks to restrain the publication of an advertisement in the Globe, claiming a strike on the part of the Globe-Printing Company.

**IRON DEPOSITS.**  
Toronto, June 30.—The exploration party which went out under J. M. Bell, of Amherst, to prospect for iron, report finding large iron deposits on the Opasapika River, on the Hudson Bay slope of Northern Ontario.

**SUDDEN DEATH.**  
Allanburg, June 30.—Peter Upper, well known in the district, died suddenly while at work on the farm of Walter Upper, reeve of the township. He was engaged in cutting some hay, and fell from the mower, expiring almost immediately. Mr. Upper was 58 years of age, and leaves a widow and one son. He at the last assizes, held at St. Catharines, secured \$2,000 damages for the loss of his wife's affection.

**FOUND DEAD ON THE TRACK.**  
Montmagny, Q., June 30.—Samuel Borneau, aged 58 years, was found dead on the track west of Montmagny Station, this morning. Coroner Gosselin is holding an inquest.

**CUSTOMS RETURNS.**  
Ottawa, June 30.—The customs revenue of Canada for the fiscal year which closes to-day has been \$36,619,653, an increase of \$4,568,568 over last year, and much the largest in the country's history. For the month of June alone the collections have been \$3,746,885, an increase of \$392,471.

**FLAGSHIP AT MONTREAL.**  
Halifax, June 30.—Admiral Sir Archibald Douglas will visit Montreal with his flagship in the latter part of July.

**BARN RAISING ACCIDENT.**  
Orangeville, June 30.—A serious accident occurred at a barn raising three miles north of Mono Mills, near here, last night, when Wm. Atkinson and Joseph Haffey were injured. The latter was on top of the north side of the barn and was just getting the plate into place when it fell, Atkinson and Haffey falling 28 feet. Haffey had his hip joint broken, and several ribs fractured, and sustained some serious internal injuries. One of Atkinson's arms was crushed to a jelly, and will have to be amputated. Doctors dressed the wounds of the injured men. The accident was not due to the excitement incident to the race, as that feature was over. There were about 100 people present, and the occurrence precluded the carrying out of the usual festivities.

**ACCIDENTAL DEATH.**  
Montmagny, Q., June 30.—The verdict of the jury at the coroner's inquest held to-day on the body of Samuel Borneau, found dead on the railway track this morning, was "accidental death." It is supposed that the man was struck by some train during the night.

**THE MURDERER BUTTS.**  
Napanee, June 30.—There is no change in the condition of the murderer, but this. He talks on religion all the time, and when alone prays incessantly. Parties who knew Butts showed no signs of insanity until recently. Religious meetings were held in the neighborhood recently, and he attended these, and immediately after he started out into the fields, praying and preaching. Butts has been quiet since his incarceration, but the sheriff deemed it advisable to put on a night watch to prevent any unforeseen act. He eats and sleeps in his usual way. Butts is a man of about five feet six inches tall, and rather stoutly built, and his body appears to be that of a healthy man.

(This space devoted to Men's Clothing.)

## THE COOLEST CLOTHING

### SUMMER SUITS & DUCK PANTS.

A man doesn't look cool, and he cannot feel very cool and comfortable if he isn't wearing summer clothes—that sure.

To look and feel cool doesn't cost much either, not half what the other kind does—that's sure.

None can clothe you cheaper and better than Chapman's—that's sure.

A BRITISH TRAINING SHIP.

Experiences of An Hour on Board the President.

Yesterday (writes a representative of the London News under date of May 26) I took an omnibus from Fleet street to the West India Docks for the purpose of looking over the new Royal Naval Reserve drill ship, the President, late Gamet. I found her moored to the wharf at the extreme end of the South Dock. Sending my card on board, I was courteously invited by Lieut. Morrison, the officer in charge, to cross the gangway and have a look around for myself.

The new drill ship was hardly fit for the reception of visitors as she is not yet out of the hands of those who are fitting her up for her new duties, and it was therefore an act of great courtesy on the part of Lieut. Morrison to allow a journalist to set foot on her decks, for your seaman does not love a landsman near his craft when all is not spick and span. Before I went on board I had a ramble along the wharf, and this gave me ample opportunity to note not only the new drill ship, but the old one, which was moored close up. The contrast in make and shape was very great. The old ship, built some time in 1827, looked more like a clumsy tub than a smart ship of war, yet in her day she was supposed to be a perfect model of all that a warship should be. The new drill ship was built in 1879, partly of wood and partly of iron. She is known to naval men as a composite vessel, and at the time of her launching was supposed to be a masterpiece. But compared with one of the latest products of our dockyards she looks like a nightmare of the deep, comparing badly in appearance with the latter-day products of our Majesty's navy. One might as well compare an ancient Queen Bess with a more modern Mauser.

The new President (she has taken the name of the ship she superseded) has been fitted up with all the latest guns. These look strangely light and airy in comparison with the general clumsiness of her make and shape. Her armament is not for use against an enemy, but for drilling purposes only, and the hour I spent on board plainly demonstrated that this is to be no mere hotbed for idlers, but a home for workers. She is a three-decker, comfortably housed in, and upon all her decks the business of her calling was being carried out in a thorough and workmanlike manner. Old salts from the Naval Reserve, with seamy, battered faces, were moving around with mere youngsters who had only just joined. I stood alongside and saw half a dozen young fellows sign on, and saw them a little later come forward with their new uniforms, but it takes something more than a uniform to make a man-of-war's-man.

On one deck an officer was drilling a number of smart-looking fellows in the use of handling of revolvers. It was a treat to hear him give his orders. No bullying, no brow beating, no shouting, yet every word fell from his lips clear and clear. He spoke like a man who knew his business and meant the others to know theirs before he had done with them. On another deck an officer in charge of a squad of men was instructing them in the use of a gun similar in every detail to that used by the British Brigade at the Agricultural Hall during the tournament, a sprinkling of old "salts" mingling with the new fellows. The ship is fitted with two 4-inch, two 4.7, two 5, and two 6-inch guns. Two Maxims and one five-barreled Nordenfled, besides the gun first mentioned, rifles, bayonet, and all the usual small arms are on hand. The discipline is perfect, the appointments are good, and the officers are men who have for the most part worked their way upward step by step by sheer merit. Judging from the manner the young fellows were hanging around the wharf waiting to get an opportunity to glean information from the newly joined men, it seemed safe to argue that the President is in for a successful career, and it will be a pity if this is not the case, as the young men in the vicinity of the West India Docks will gain far more in manners, appearance, physique, and morals than by following the usual life of the place.

Mr. John Mattinson has returned from an extended trip to the Northwest, during the course of which he was as far west as Edmonton. He reports that times were never better in that portion of the country than to-day, money being exceedingly plentiful.

**PAID DEED FOR HIS WHISTLE.**  
Quebec, June 30.—At a meeting of the Quebec harbor commissioners the case against the SS. Transit for excessive whistling was proceeded with. After the charge had been read, the agent of the vessel, and letters were submitted showing that there had been extenuating circumstances. In consideration of this being the first offence, and the circumstances shown, in place of the full \$100 and costs, a fine of \$50 was inflicted. The case against the SS. Devona for a similar offence was postponed until the following Monday.

**HALF-YEARLY DIVIDEND.**  
Montreal, June 30.—The directors of the Dominion Steel Company to-day declared the half-yearly dividend of 2½ per cent. on the paid-up capital of \$1,000,000. No action was taken regarding a new bond issue.

**SHOT HIS SISTER DEAD.**  
Halifax, N. S., June 30.—By the accidental discharge of a gun to-day, Morse Balcorn, of Laurenceville, shot his sister Annie, aged 25 years of age. Balcorn had loaded the gun to shoot crows, and in passing into the kitchen the weapon was discharged, and the charge entered the sister's back, causing instant death. His wife, who was standing near, had a narrow escape.

**WILL "SCRAPS" BE PERMITTED AT WINDSOR?**  
Windsor, June 30.—Manager Kinney, of the Athletic Club, which gives its first show at the Windsor rink on to-day, is getting a little getting that place in shape for the crowd. He will be able to seat three thousand, and the rink will be pitched in the centre of the rink.

**IF YOU STAND ALL DAY,**  
Feet Get Tired, Sore and Swollen. Try Foot Elm in Your Shoes, and All Your Foot Troubles Will Be At An End.

People who are on their feet a good deal on play out before the day is done. Their feet get tired and swollen, ache and burn, so that work becomes a veritable burden.

To relieve all these troubles of the feet there is nothing equal to Foot Elm. It imparts a cool, restful feeling to the feet, and enables you to stand all day without your feet aching or playing out.

Foot Elm is the original remedy for the feet. Be sure you get it. Price, 25 cents, at druggists or by mail. D. Stott & Co., Bramanville, Ont.

**A BULLET IN HIS LEG.**  
Ottawa Youth the Victim of a "Didn't Know" Revolver.

Ottawa, June 30.—One of the unfortunate "didn't know it was loaded" accidents disturbed the serenity of James street about 7 o'clock and 15-year-old William Holbrook has the ball of a 32-calibre revolver in his thigh. The boy, who lives on Fourth avenue, had gone to see his uncle, Amos Smith, 338 James street, to borrow a revolver, which he wanted to take with him on a camping trip. The uncle was explaining the mechanism of the pistol to his nephew, when the weapon was discharged, and the ball entered the front of young Holbrook's right thigh. The boy ran into the house, and a doctor was summoned, who found the coroner's inquest in a slanting direction toward the knee. It is probable that a stiff leg will be the most serious consequence of the accident.

**BRITISH REVENUE.**  
Returns for the Past Quarter Show a Decrease.

London, June 30.—The revenue returns for the quarter ending June 30, were \$172,054,575—a decrease of \$2,429,840 compared with the corresponding period in 1902. The chief items showing decreases are customs, \$2,840,000, and post office and telegraph, \$450,000. The principal decreases were excise, \$1,550,000, and property and income tax, \$1,950,000.
