ELECTION CARDS.

To the Electors of Victoria City and District.

GENTLEMEN-As promised in my reply to your magnificent requisition asking me to stand for re-election as one of your representatives in the D minion House of Commons, I now lay before you my views on the main questions of the day affecting this district and the Dominion. I will first say that I come before you as a supporter of Sir John A. Macdonald and his party. I do so be ause I believe him to be by far the ablest statesman Canada has, and that the policy he is following is the right one, and tha only one that can raise Canada to the high the only one that can raise Canada to the high position amongst nations which she is bound to take if properly governed. Since being a member of the House of Com-mons I have seen that it is utterly useless being

an Independent. So long as the Government of the country is carried on on party lines, so "In the time of Catherine our family estates were of the largest held by the nobility. My mother was a direct descendant of the Vasa dynasty. I never know her, as she died when I was born. You see that on my mother's side I am of royal lines.

know her, as she died when I was born. You see that on my mother's side I am of royal lineage, and on my father's side I descended from the proudest of Russian aristocracy. My father was a proud man, moreose and stern in the extreme. The soldiers in their summer camp at Visby, whom he commanded, would often be flogged by his orders for some trifling offense.

There are of course eccadors when minor questions affecting a particular district or province come up, and on which a member feels that he must vote against his party for the good of his constituents, but on all stretly party questions, affecting the Dominion as a whole, a member must be true to his party.

I hold that a man should make up his mind before entering political life as to which party offense. them. If every man was to consider himsel

ningholm. I was the especial favorite decidedly opposed to unrestric'ed reciprocity of Princess Eugenie. I was constantly her companion; She loved me and spoke again become a slaughter market for the overtone as I think my mother would have thereby many of our now thriving manufa tories and industries would be hopele sly ruined, carrying distress and poverty to thou-sands of our now happy and prosperous mechanics and artisans.

I deprecate the conduct of the leaders of the Liberal party in lowering the dignity o'Canada by begaing for reciprocity from the United States, as they have been doing lately Let the Amer cans first show their willingness
to meet us on a fair basis; and, if they do that 'Ah. my dear, this love of Carl's will give you trouble some day.' I smiled at her, but thought nothing of it. But one yet, there is no authority to show that the day at Drottningholm Carl told me that have ever shown the elightest disposition to he would at once speak to my father. I have ever shown the elightest disposition to have that, but I said: 'Yes, do so,' and have ever shown the elightest disposition to open the question at all. Unrestricted to the went away happy. Poor Carl! I don't sarily mean discrimination in tariff against know what passed between him and my Eagland. This the Mother Country would never stand, and still continue to give us the benefit of her protection.

We must then either abandon the project alto g-ther, or throw ourselves into the arms of Uncle Sam, as we are not strong enough to protect ourselves. Are you ready to do this you? Well, well, I'll soon stop that, and then he began to tell me how poor Carl was, that he wanted simply my money, that he was a drinking man, a bad man. Oh! how that night comes back to me.

"I never said a word in answer; "I never said a word in answer;" "I never said a word in answer; "I never said a word in answer;" "I never said a word in answer; "I never said a word in answer;" "I never said a word in answer;" "I never said a word in answer; "I never said a word in answer;" "I never said a word in a simply stood there trembling from head and energy and enterprise build up in time a to foot. At length my father stopped nation just as great, just as powerful, and

I am very much dissatisfied with the sm amount of money expended by the Dominio dovernment on Public Works in British columbia and more particularly in Victories Seing that this city alone pays considerably more than one million dollars per annum into he Dominion Treasury, I think no one car deny that we should get a great deal more in return than we do.

I have endeavored in the past to remedy this If, however, I am again honored with your con dence I shall continue even more strenuously than ever to urge upon the Government the necessity of placing larger sums upon the esti

Amongst the many improvements urgently required I may mention a new Post Office and Custom House. These are badly needed owing

I shall, if elected, give my hearty support to the members for Nanaimo and New Westmin minster Districts in any endeavor they may make to have more lights, beacons and buoy

I shall also continue to urge upon the Govern ment the paramount necessity of their inserting a clause in any charter given to any subsid zed line of steamers running either to China or Australia, making it imperative that they cal at Victoria on every trip.

I shall again bring to the notice of the Gov ernment the necessity of increasing the pay of some of the civil servants in this Province. It is manifestly unfair to pay "Little do the people who give me a the same salaries here that they do in Eastern Canada, where living is so very once I was a belle of the old world's much cheaper. It is, to my mind, offering a nobility; that I danced with Kings, and that the blood of a Vasa is running in my yeins."

When men are hard up they will take almost anything in order to get food for their families, but that is no reaso why the Public Treasury should benefit by

> I am in favor of a subsidy being granted l the Dominion to the Victoria, Saanich and New Westminster Railway Co., and shall, if elected continue to urge the Government to make substantial grant for that purpose.

The Chinese question is one of grav ment. I shall use my best endeavor charters granted to companies who are as sisted by sub-sidies either of land or money from the Dominion Governm ent. If the prese reased tax.

Believing that the Victoria Trades and Labor Council is composed of men capable of taking a dispassionate view of the subject, and who have a thoroughly practical knowledge of the question, and also that they directly rep resent the great body of men who are most a fected by this class of labor. I shall on all occ. very largely guided by their wishes in regard to this subject.

The time has arrived in my opinion when the Dominion Government should be urged to assist a building another dry dock at Esquimult. By far the best place for a new dock is alongside the present one. It can be built cheaper than anywhere else, and can be run more economically than elsewhere, as th same staff and same engines and pumps nov

used for the present dock could be utilized for he new one. I shall use my best efforts to have this matter favorably reported upon. In conclusion, allow me to say that if you decide to again place me in the proud position of one of your representatives, I shall, on all occasions, both in and out of the House of Commons, endeavor toact in such a manner as to reflect credit on the constitutions, the city and district which I shall have the honor to represent.

I have the honor to be, gentleme Your obedient servant, E. G. PRIOR

To the Electors of Victoria City District:

GENTLEMEN—At the request of a large number of citizens, I again offer myself as a candidate to represent you in the Dominion

One of the most important questions to be dealt with by the new Parliament will un-doubtedly be "Our Trade Relations with the United States," and as nothing has taken place in their legis'ation to make me believe place in their legis atton to make me believe the Protec ive Policy of their Government will be abandoned, nor has any circumstances arisen in the Dominion of Canada which make it necessary or prudent to abandon or disturb in any material way, or to any great extent, the reasonable system of protection to our industries, which the country has time and again declared for, and under which she has prospered and is prospering. I believe the policy of the Conservative party to be the one best calculated to promote the prosperity of the Dominion.

Such being my conviction, I shall give them my support, reserving to myself the right to op-pose them on any measures that I may con-sider not in the interest of my constituency or

Province,
I do not consider that protection to our industries is incompatible with a reasonable measure of reciprocal trade with the United States, by which we might exchange many of our natural products with mutual advantage; and in any arrangements proposed, with that end in view, I would strongly urge in the interest of this Province, that Lumber, Coal, Fish, Fish products, etc., be included.

HARBOR IMPROVEMENT I will also press upon the Government by every m ans in my power the urgent necessity f a much larger annual expenditure for dredge g the inner harbor, and that immediate steps to taken to deepen the approach to the outer sarbor, so that the largest steame a coming to out coast may have facilities for entering and landing their freight and passengers with safety

A Last session I brought to the attention of the Government the inadequacy of the present public buildings for conducting the fast increasing business of the Port, and that they were alike discreditable to the city and the jovernment. I also urged the matter upon the sinisters who visited us last summer, who propose, and that they would support it with all heir influence. I have no doubt that in the near future we will have both a Post Office and 'ustom House that will be an ornament to the sity and in keeping with the large revenue we contribute to the Dominion Treasury.

BEACONS AND BOUYS. I will urge the construction of Light Houses and Bonys at all points necessary to the safe

I would also advocate that all steamers subidized by the Dominion Government shall all at the port of Victoria, both on their in-ward and outward trips, to land mails, pasengers and freight.

I will do all in my power to preserve the ghts of our citizens in the Behring's Sea. If you do me the honor to return me as your epresentative, you may rely upon me, both in the House and out of it, to use my best efforts in the interest of this Province, and this Dis-

rict in particular. I have the honor to be, gentlemen. Your obedient servant. THOMAS EARLE
