INFLUX OF JAPANESE

Washington, April 9.—Information has reached the immigration bureau of the department of commerce and labor that hundreds of Japanese have arrived in Mexico, destined for the United States. Many of them are in straitened circumstances. They have no intention of remaining in Mexico, but desire to come to the United States. They expect to obtain employment on the railroads.

In every instance the immigrants have passports issued to them by the Japanese government to Mexico. Under the circumstances the Japanese cannot be admitted legally to this country, but scores are being smuggled across the border.

The department is also informed that many Japanese are leaving Honolulu. They are taking passage to San Francisco, bearing passports to British Columbia. From San Francisco they go to Vancouver. It is known that they intend to make their way across the northern border to the United States.

What a Joy to Feel Well

Do you know what it is to feel well—to feel young, hearty and vigorous—to enjoy work and to look forward with hope to the future? This is the way you will feel if you revitalize your wasted and depleted nervous system by the use of Dr. Chase's Nerve Food. Not in any miraculous way, but when your system has been gradually built up by this great restorative treatment.

MEMBER FOR DELTA ON BUDGET SPEECH

John Oliver Attacks the Financial Policy of McBride Gov. on Budget Speech

PREMIER REPLIES TO ARGUMENT

Denies the Charge of Discrimination Against Constituencies Represented in House by Liberals

An attack on the financial policy of the provincial government, as outlined in the budget speech made by Finance Minister Taitow last Thursday, was met by a reply from Premier McBride on Monday afternoon, sitting on the floor of the legislature. Mr. Oliver criticized the government on the ground that the \$300,000 which was set aside for the surplus had been expended without compliance with the usual requirements of the customary formal procedure of first bringing the matter before the assembly. He also accused the administration of discriminating against constituencies represented by those in opposition in the matter of appropriations for public works in those sections. The premier's replies dealt with both these points in detail, rebutting every accusation and showing that the government was entering into clear and exhaustive explanations of the policy of the government in relation to the revenue of the country.

Members Photographed
Before the opening of the proceedings, members of the legislature were photographed by a group of photographers in the parliament buildings in order that their photographs might be taken. This was done in response to an intelligent insight of what had been done by the government in relation to the house on Friday.

Prayers were read by Rev. Baugh Allen.

Petition Presented
H. F. Behnken presented a petition asking for an amendment to the Supreme Court Act of 1901. On motion it was received.

The tenth report of the committee on private bills and petitions was submitted by the chairman, Mr. Bowser, as follows: "That the Standing Orders, No. 13, Pacific Northern and Omnica, Railway company have not been complied with."

Opening of Debate
On the formal motion, "That the speaker do now leave the chair," being put, a debate was opened which lasted throughout the afternoon.

Mr. Oliver regretted that he was unable to congratulate the speaker on his speech, but he was glad to see that the speaker had been able to get an intelligent insight of what had been done by the government in relation to the house on Friday.

In his opinion the estimates and expenditures were largely a matter of guess work. There was a doubt, he said, as to whether the government was due to industrial expansion. That assertion he was inclined to question.

When the statement was made that the surplus, which had been estimated at \$300,000, had been expended, he said that the government was due to industrial expansion. That assertion he was inclined to question.

His criticism of the government's policy in relation to the surplus, which had been estimated at \$300,000, had been expended, he said that the government was due to industrial expansion. That assertion he was inclined to question.

COCOA

A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold.

Sold by Grocers and Storekeepers in 1-lb. and 1-lb. Tins.

The honorable member for Delta. He stated that the figure mentioned had been out from the public debt as he had pointed out in the budget address.

Mr. Oliver, after a brief reply to the finance minister's assertion, went on to say that the minister had remarked that about \$300,000 more money was set aside for public works than was the case heretofore. An investigation showed him that the actual amount which it was intended to vote for that purpose was \$380,000, some \$100,000 more than what was mentioned.

There was one thing, however, that he could congratulate the finance minister and the government generally on, and that was their interest in the forests of the province. He was heartily in accord with the action which might be taken to protect the native timber from the ravages of fire. Having been in the province for some thirty years, in the course of that period he had visited the most of the sections of British Columbia. He had seen the original growth, Douglas fir, the second growth, spruce, fir or Balsam fir, a timber not worth 50 per cent, from a commercial standpoint, of the first Douglas fir.

We are spending \$5,000.00 this month to explain what the word "Constipation" means.

Constipation means NON-ACTION OF THE BOWELS. If the liver is healthy, it pours enough bile into the intestines to make the bowels move. Then, too, the bowels discharge waste matter from the body by a peculiar snake-like movement. This requires strong muscles.

When the bowel muscles are weak—when there is not sufficient bile—the bowels do not move for two, three, sometimes four and five days.

This non-action of the bowels is Constipation. Waste matter, which should leave the body, is taken up by the blood, and carried to the kidneys and skin. These organs—in a vain endeavor to throw off the poisons—are overworked. The poisoned blood, in turn, irritates the nerves, causing Headaches—Backaches—Neuralgia.

The weakened kidneys cannot rid the system of urea, which changes into uric acid, causing Rheumatism, Sciatica and Lumbago. It is useless to try to cure Constipation with calomel, cascara, senna, strong purgative pills and vile-tasting mineral waters. They simply force the bowels to act by irritating the delicate membranes. Their action weakens the muscles and really does more harm than good.

"FRUIT-A-TIVES" ACT ON THE LIVER—stimulate the glands—and so regulate the action of the liver that it will excrete sufficient bile to move the bowels in the normal, natural way every day.

Nothing else in the world will so surely and permanently cure Constipation. "FRUIT-A-TIVES" are made of fruit juices, intensified, with the most valuable tonics and antiseptics added. Cure yourself of Constipation by taking these wonderful liver tablets. 50c. a box. Sent by mail if your druggist has none.
