## THIEF ARRESTED AT DALHOUSIE

Took Money From Boarders  
at Lodging House  
Skipped

PROMPT ARREST.

DALHOUSIE, Oct. 11.—Another robbery took place here today to be added to the many cases of this kind we have had this year. Several juveniles have been caught stealing and have been allowed to go with a reprimand.

James Campbell, a sailor, who hails from Liverpool, England, was arrested today at Dalhousie Junction by Police man Seely, charged with stealing money from three boarders at Lure's boarding house Dalhousie. When the parties missed their money, they suspected Campbell. The Police man was notified and upon search it was found that the suspected party had taken the forenoon train for Campbellton. Police man Seely hurried with a team to the Junction, and on the freight was two hours late, he found his man waiting. After arresting him, he found his man waiting. After arresting him, he found his man waiting. After arresting him, he found his man waiting.

WASHINGTON, Oct. 7.—In calculating the size of a national army, it is hardly possible to get beyond approximate figures; hence a calculation of the strength of the Japanese army just produced must be received on that basis, but without any suspicion that it wanders far from the truth. Indeed, the authority responsible for the statistics vouches that the actual numbers are in excess of those given. Taking the figures as they are presented it would appear the number of men actually under arms, or in other words, serving with these colors, in Japan, is:

Infantry.....	139,960
Artillery.....	11,750
Engineers.....	10,400
Communications.....	3,240
Heavy artillery.....	5,600
Mounted artillery.....	1,630
Communications troops.....	2,900
Total.....	184,500

This is the military strength on a peace footing, being more than double what it was when the Russo-Japanese war broke out. On a war footing the army is put at 1,214,000, exclusive of 10,000 troops serving in Formosa; mesa; 15,000 officers and non-commissioned officers serving with the colors, and a very large number of officers and non-commissioned officers whose names are borne on the reserves.

WATER AND SEWERAGE SERVICE  
All who have not obtained water and sewerage service for their premises had better do so once, as these services cannot be procured between the first day of December and the first day of May, without the special authority of the Town Council, as set forth in the Town By-Laws. Mr. Wm. J. Christie, plumber, is now doing this work. Application must be made however, to the Town Treasurer for a permit before commencing installation.

A LATE LAYER  
Mr. John Annington of Broadlands, possesses a goose with a flock of goslings and on Saturday last the goslings commenced laying for another flock. Mr. Patrick Smith, who is eighty years of age, says he never heard of a goose laying eggs in the fall of the year.

## SAFE-BREAKERS HOTLY PURSUED BY POLICE

One Caught by Surprise Has Already  
Made a Confession to Sheriff  
Wright

OTTAWA, Oct. 8.—In a wild gun fight at North Wakenoid shortly before one o'clock yesterday morning, with four men believed to be the gang which blew the safe and burglarized the post office and store of Joshua Elard at Wright, Quebec, early Monday morning a posse of Dominion police officers, constables Groulx, Mar and Foster and C. P. R. station agent Mitchell, captured one of the party, a young fellow giving his name as Thos. Gorman, aged 26, of Toronto. He was lodged in a cell at Hull late yesterday.

The brush with the suspects took place on the railway tracks near the station, where the constables, learning that the men were seen heading south, were going in wait. The posse was taken by surprise and Gorman was the first pounce upon, officer Foster covering him before he could make a move.

The others opened a hot fire from revolvers and dashed down the tracks pursued by Groulx, Mitchell and Mar. Gorman, who returned the fire as they ran, darkness, however, aided the fugitives and they made good their escape.

On Gorman was found evidence which practically establishes the fact that the men are the hunted safe-breakers. His pocket contained dynamite fuses and caps, about \$50 in cash and a quantity of stamps. Part of the post office loot consisted of stamps Gorman confessed to Sheriff Wright yesterday that he was present at the safe blowing.

The constables resumed the hunt at daylight and assistance was summoned from Ottawa, Sheriff Wright and a couple of Dominion Police going up the morning train. Near Wakenoid the three fugitives were seen again by two boys. They disappeared into the bush when seen and two parties of Dominion Police have conveyed at that point in hot pursuit.

Up 10<sup>th</sup> midnight, eight Dominion Police assisted by a posse from Hull under Sheriff Wright failed to capture the three other members of the gang who escaped from officers. Every road and exit from the district around Wakenoid where the men were pursued is being guarded and it is completely expected that all three will be rounded up soon.

**\$100 REWARD, \$100.**  
The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for full testimonials. Address F. J. CHENEY & CO., Toledo, O.

## WRECK ENQUIRY IS ADJOURNED

Trainmen and Railway Officials  
Gave Evidence at  
Opening Session.

ENQUIRY PRIVATE.

MONCTON, Oct. 11.—The investigation into the cause of the I. C. R. wreck at Nash Creek on Wednesday morning last, was commenced in the office of Mr. F. P. Brady, I. C. R. General Superintendent, this morning and continued until noon when adjournment was made until two o'clock when further adjournment was made until evidence could be procured from Fireman Wm. Cook and Brakeman J. E. Murray, the three injured trainmen.

The witnesses examined this morning were as follows:—Conductor John H. Thompson, Fireman Hiram Smith and Brakeman Walter McNeill, who were the crew of the special freight train, I. C. R. engine No. 1, Master of Charles, C. P. Brown, agent at Campbellton; J. S. Mitten, operator at Campbellton; R. S. Henderson, dispatcher at Newmarket; Ben McNutt and A. Fox, call boys at Campbellton; C. H. Ingram, dispatcher at Campbellton; R. Howe, night foreman at Campbellton.

Those examined this afternoon were Conductor Angus McCallan, who had charge of the Maritime express, and Brakeman Alex. Cameron and John J. Montgomery, crew of the maritime; and Mr. H. H. Bray, chief dispatcher at Campbellton. The enquiry was of a private nature and the evidence could not be secured.

**SULTAN'S ROOM WERE  
MEAN AND SHABBY**  
LONDON, Oct. 9.—A gentleman well known in business circles in Constantinople, who has just had the principal work to do in connection with the throwing open of the Bosphorus to the public, has sent to the Cabinet a most interesting description of the disposed sultan's private apartments.

With a few exceptions, he says, the private apartments contain nothing of value; the general idea of the furniture was that it was not only poor, but in exceedingly bad taste.

Adjoining the bathroom is a small room in which Abdul Hamid worked as a carpenter, and judging from the number of tools and their discolored handles, he must have used the room very often. He seems to have been particularly fond of inlaid work—inlaid of various colored woods and pearls—and some five or six panels in the study are said to be his work. They look like it. The work is bad and the mixture of colored words quite vulgar. The workmanship, however, is neat and accurate.

In another room were a few hundred boxes of shirts and vests of all kinds, and some of the shirts were very fine. A case of very fine rifles and revolvers and some specimens of oriental work, in which were also three bullet-proof waistcoats.

The writer's conclusion is that, on the whole, interesting as the visit was, I came away with a feeling that the whole thing was mean; the windows not properly painted; one of the carpets worn and stained; the furniture of the outer buildings, where guests were received, the furniture was worthy of the reputation the Yildia had; but his quarters were almost to an extreme, I think the powers that be are right in letting folk see the whole place. It has been a sink of iniquity, and a large hole in the pocket of his own quarters, the park, the poultry yard and the gardens, all show the same decay.

**NEWCASTLE BRIDE  
LEFT A WIDOW**

A collection will be taken up at the close of the lecture to help defray Mr. Boyd's travelling expenses.

**COLORED EVIDENCE**  
The Tribune accuses the Graphic of coloring the evidence as given at the police investigation. As yet we have published only a quotation or two to prove that even Thompson did not swear that Chief Crawford was drunk. As far as we are concerned we have no interest in this matter other than to publish the facts as they are, and after we are confident that the committee in charge will carefully weigh the evidence and give their decision accordingly. **SLAUGHTER OF INFANTS  
A TRADE IN TORONTO**  
Mrs. Turner Guilty of Child Murder—  
Jury Suggests Home for  
Foundlings

TORONTO, Oct. 9.—Guilty of child murder was the verdict this morning of the coroner's jury in the trial of Mrs. Mabel Turner in the death of the Authors child. In summing up the coroner referred to the awful tragedy of child murder. There were a very large number of children murdered last year in the city. Someone must be making a trade of killing illegitimate children. The accused was likely one, but there must be others. The jury also recommended a home for foundlings.

There was a large attendance of creditors at Mann & Baxter held at Murray's Hall yesterday afternoon and the matter was fully discussed.

An offer of twenty five cents on the dollar was made, and the creditors seemed disposed to accept same, and the firm was given four days to raise the necessary amount. The liabilities as far as ascertained amount to about \$20,000, with assets of nominally \$9,000.

If Messrs. Mann & Baxter are not able to pay twenty five cents on the dollar the assignee was instructed to proceed with the disposal of the estate as the law directs.

Robt. St. Onge and Ed. Alexander were appointed inspectors.

**DALHOUSIE**  
DALHOUSIE, Oct. 11.—The Bazaar that was to have taken place last week was postponed till Tuesday of this week. The delay gave the ladies more time to prepare for what is expected to be the most interesting bazaar ever held in the shire town.

The Curling rink has been tastefully decorated for the evening.

The Chatham orchestra will furnish music during the last nights of the bazaar, Wednesday and Thursday evening.

Besides a great variety of attractions there will be dancing the two last nights.

On account of the closing of the stores on Wednesday evening, 11th inst. it is proposed to make the bazaar especially attractive and a very good time may be expected.

Information received from the committee in charge from Mr. John M. Lyons, general passenger agent, I. C. R. Moncton goes to show that the agent at Campbellton and other I. C. R. points have instructions to issue excursion return tickets at first class one way fare for parties of ten or more who will attend the bazaar. All are cordially invited.

## MONEY LOSS BY I. C. R. WRECK PLACED AT \$30,000

Last Words of Engineer Who Was  
Killed

MONCTON, Oct. 9.—A rough estimate of the financial loss caused by Wednesday's disaster at Nash Creek when the maritime express crashed head-on into the freight train, puts it at \$30,000. Both locomotives were shattered almost to scrap iron but there still remains a foundation of pairs. The baggage and mail were "practically" demoralized. In addition there was loss of damage to the roadbed and other incidents.

The baggage department has been kept busy since the wreck endeavoring to locate missing trunks and contents. The baggage car was well-filled and only seven trunks escaped. These were especially made, and were the property of English passengers. General Baggage Agent Allen has been at the scene of the wreck until yesterday and much of the baggage has been straightened out, but there is still a considerable quantity of unclaimed freight. While working about the debris, Agent Allen picked up a torn letter and examining it found it contained a money order for nearly a hundred dollars. It was forwarded to its destination in New Brunswick.

"Right on the dot" were the last words uttered by John Morton, the unfortunate engineer killed in the wreck. The express had just passed Jacques River and the time was 2:40, being the time the train was due to pass there, and as Engineer Morton glanced at his watch and called out the above words.

Oriental Superintendent Brady, interviewed this morning, said there was no foundation for the report of the I. C. R. officials were anxious that an inquiry should be held. He said the matter of holding an inquiry was in the hands of the coroner, and that the I. C. R. had nothing to do with it.

**OBITUARY**  
Though not unexpected, announcement of the death of Mrs. Jas. P. Jardine which made Friday evening last, caused much regret among all classes. Her bright and cheerful disposition and pleasing personality endeared her to both young and old and much sympathy was manifested for her illness which lasted for several months. The deceased was in her 31st year and devoted her life to the care of her husband and mother, a devoted husband and six small children, three daughters and three sons, John, Arnold, Horace, Jean, Irene and Joseph, six months of age, at present being cared for by Mrs. John Glicker, a sister of the deceased. To the grief stricken family the sympathy of the entire community is extended in this their sore bereavement. The late Mrs. Jardine was formerly a Miss Allingham, and in this family leave to mourn the loss of a kind and affectionate sister, two brothers Edward and Fred, and one sister, Mrs. John Glicker, all of this town.

The funeral was held yesterday afternoon and was very largely attended. Interment being in the Rural Cemetery. The pall bearers were Wm. Torstion, John White, Ed. Leclerc, F. E. Shephard, Fred Campbell and Harry Wilson. The services at the house and grave were conducted by Dr. Carr assisted by Rev. Mr. Coleman.

**TYPHOID FEVER**  
A number of new cases of typhoid fever have been taken to the hospital during the past few days. Most of these cases have come from outside the town limits.

The Railway revenue shows an increase of \$1,000,000 and there is a gain of \$50,000 in the postal revenue.
