gains successfully treated at the ONTABRO PUL-MONARY INSTITUTE, No. 135 Church street Opposite the Metropolitan church, Toronto, Ont, M. HILTON WILLIAMS, M. D., M. C. P. S. O., Proprietor and General Consulting Physician. John Baxter, M. D., M. R. C. P. S. E., Assistant Consulting Physician. Prof P. W. Stewart, Secretary Treasurer and General Correspondent.

calomel, burning, leeching, morphine, iodine and digitalis, have in each new patient awakened fresh hopes of recovery, hopes, alsa, to be blighted as were three in the hearts of patients who hoped and ed while using the remedies.

More effectual remedies than those which generally prevail are called for, and it is to this end and the belief that scientific investigation in one class of complaints will be more certain to attain success in this direction, than by occasional research and observation, while the mind is divided by general practice, that led to the establishment of the Outario Pulmonsry Institute in this city during the year 1881, an institution which does afford the best possible treatment of this class of diseases.

By the permanent establishment of such an institute, invalids can at all times consult the doctor personally—being an advantage that will readily be seen and appreciated by all.

Earnest and persevering investigation and fruitfu experiments with different remedial agents have within a few years been made by imen of eminent scientific attainments, which have been attended with the most gratifying success. By careful research in the paths—opened by these ploneers, and by independent investigation through our system of practice, wa have obtained results well worthy of public attention, and our course of practice has elicited the attention of many of the best physicians of the day, as well as drawn upon us the gratifude of very many persons—rescued from disease—and death.

The mode of administering remedies by the sys-

most reasonable of any ever adopted, and most satis-factory in its results.

Invalids who have failed to derive benefit from medical treatment, and who have made fruitlees trials of nostrums of the day, will find in this prac-tice abundant reason for hope, as numerons in-tances have been reported even of the entire resto-ation to health of parties in this city and vicinity the have made thorough trial of the remedies, al-lough they had previously been pronounced in an ivanced stage of consumption.

Its particular efficiency is especially noticeable in the particular efficiency is especially noticeable in
