

## EQUAL PRIVILEGES FOR ALL IS AIM OF ORANGE ORDER, DECLARES GRAND MASTER

Head of Ontario West, Addressing Local Orange Order, Declares Every Orangeman Must Be Active Worker In Protestant Church Before Civil and Religious Liberty Can Be Achieved.

"Every man and woman who is a member of the Orange Order should join some Protestant church and work earnestly for it and in its interests. Until the time comes when every Orangeman is an active, hard working, energetic member of a Protestant church the order will never succeed in attaining the full measure of the great principles for which it stands, complete civil and religious liberty. There are no doubt movements afoot to-day to infringe on these two liberties of Canada however much we may overlook them, and if we are to hand down to our children all the things we hold so dear in our own generation it can only be done by the self-sacrificing hard work and courage of the members of the order to-day and now."

This was the summing up of a forceful address given last night in Ulster Hall by Bro. W. L. Lawrence, of Sault Ste. Marie, grand master of Ontario West, speaking to an audience of more than 300 Orangemen and women. In the course of his speech, which came as the culmination to an evening in which candidates were initiated to the order, and which preceded a dinner and reception to the grand master, Bro. Lawrence, urged greater watchfulness on the part of members in behalf of the objects of the order, and stressed the need for renewed efforts to protect "these liberties for which our fathers fought, and for which we must fight every bit as valiantly and courageously if we are to be worthy of the children who will follow in our footsteps as Canadians and loyal members of the British Empire."

In part, Mr. Lawrence said, "It is essential that we all understand quite clearly for what the Orange Association stands and what it does not mean. One thing, it does not mean a practical demonstration of that 'Jingoism' 'To it' with the pope. I do not know where that suggestion originated, but I want to say emphatically as I can that it is not Jingoism. It is a typical Jingoism in which we have no part or parcel."

"What we do stand for is civil and religious liberty, equal privileges to all and special privileges to none. There could be no finer creed than that for any association to own, live up to, and fight for. Never was there any crusade which had as its rallying cry as noble a challenge as this motto of ours in the Orange Association."

"Another thing I would like to impress upon you, our order does not oppose any religion. Every man in the world is free to worship his God as he thinks fit, but he is not free to try to destroy our religion and our way of worshipping our God. We are not seeking the destruction of that Roman Catholic Church, but we are definitely opposing it in any attempt it may make to destroy our religion or our civil liberty."

"For these rights we enter politics, although we are not a political body, because there is no other way of protecting these rights. In the past the Orange Order has defeated both political parties in Canada because they were opposed to complete civil rights, and we will do it again if the need should arise. There is a general tendency to-day to compromise on every question, including the religious ones. One of the real needs is to know definitely where each body stands."

**MARRIAGE QUESTION.**  
The speaker referred to the marriage question in Canada as "still a matter of great moment to all of us, and one demanding the greatest care and watchfulness." He reminded his hearers that the order had fought the battle against the "No Temere" decree in Canada, out-

added that "the Roman Catholic Church is still busy declaring that the principals in mixed marriages are not regularly married and that their children are not legitimate."

"Legislation has recently been passed in New Zealand and in New South Wales, Australia," he said, "instituting a \$500 fine for any person who declares any person legally married by the civil law to be not properly and lawfully married. It required a great deal of work to get this legislation on the statute books, but it is there now and it is the kind of legislation we should have in Canada."

"The chief danger to civil liberties in Canada to-day is the claim of the pope in Rome to have temporal sovereignty over all lands and in all countries. For this reason and because this claim is still made members of the association need to be vigilant and on the alert to protect its principles."

"I have been speaking of the Roman Catholic Church as wishing to attack our civil liberties, but the Orange Order will oppose with all its might any movement anywhere that threatens our religious and civil liberty, no matter its source or inspiration. We do not seek the destruction of any church, body, or person. What we are determined to do is defend our rights as Protestants and Canadians, and that we shall do as long as the Orange Order exists."

**PREDICTS PURE WATER IN RIVERS**  
Filtration By Streams Themselves To Remove Disease Danger

**FOOD IN WATER OF LAKES**  
Discoveries Described At U. S. Academy of Science

MADISON, Wis., Nov. 11. — (Associated Press.) Dr. D. H. Scott, of the University of Wisconsin, told of recent investigations made by him and Dr. C. T. J. in the organic contents of Wisconsin lakes, including Lake Michigan, in which the field is being opened to a possible discovery of a new food supply for animal life in waters. Dr. Scott, scientist, of Washington, D. C., in discussing Dr. Birge's paper, saw a possible vitamin supply in vegetation in water from the fact that it has been found that oil from cod contains a vitamin of one of the recognized classes.

That river water might in the future be drunk with impunity was a forecast by Philip B. Hadley, of Michigan, who has made extensive investigation near Ann Arbor in the Huron River. This might come about, he said, when rivers are filtered by action of the rivers themselves rather than by artificial purification.

**SERIES OF DANCES.**—Opening a series of dances that in former years have had a wide popularity, the first regimental dance of the Royal Canadian Regiment will be held to-night at Wolsley Barracks, when officers and men, with their ladies, will make the season's initial bow to Lady Terpsichore. The dance opens at 8 o'clock and will be held forthrightly throughout the coming winter. Music will be provided by the R. C. R. orchestra.

**RESERVISTS IN READINESS.**—CAIRO, Egypt, Nov. 11.—Turkish reservists on the Bagdad Railway, in Northern Syria, have received orders from Ankara to hold themselves in readiness for a call to the colors.

## WOULD CONSIDER STAFF CHANGES

Trustees To Deal With Motion of Trustee Mrs. Hunt.

**WILL PROBE SALARIES**  
Secondary School Schedule Termed Out of Proportion.

In addition to the salary question which is to come up for consideration at the regular monthly meeting of the Board of Education this afternoon, the notice of motion introduced by Trustee Mrs. Hunt at the last meeting will be dealt with. This motion provides for the placing of all proposed appointments or dismissals before the executive committee before they are brought to the regular board. It is an important move and one that will likely provoke considerable discussion.

The salary question, however, is one of the uppermost problems just at the present moment. The proposal to question certain increases made by the Technical School committee may lead to a revision, or at least an investigation of all salaries paid in the city's high schools.

It is pointed out that with only 193 days of work in the school year, the salaries are outrageously high in comparison with those paid in the public schools. The acquisition of a B.A. degree in the public school will, in some cases, bring a teacher up to his or her maximum salary of \$2,000 or \$2,100. A commercial or other technical teacher in high school standing will, however, jump immediately to \$2,600 or \$2,800 upon the acquisition of such a degree, while the actual training incurred may be greater in the public than in the secondary school case.

Incidentally the schedule of wages paid in London is governed entirely by the Board of Education. It was set by a group of trustees selected by the board some years ago, when living costs were at a peak, and there are those who believe a revision is overdue.

**ABANDONED NEW YORK CAR HELD BY POLICE**

An American automobile, bearing a New York State license, found abandoned in East London, is being held at police headquarters awaiting a claimant. Residents in the vicinity where the car was left notified the police after the vehicle had been parked there for a day.

It has been ascertained that the man who left the automobile in the city told nearby residents that he would return for it in a few hours, but he failed to do so. It is the intention of the police to hold the car until a claimant appears and in the meantime steps will be taken to find the owner.

**WALKED ON FLOWER BED**

Who made a parade ground out of the flower bed at the Public Utilities building corner on Dundas street? This is the question that officials of the commission would like to have answered. The man apparently was intoxicated, for those who have examined the footprints declare that no man in his right senses would behave in such a manner. He apparently stepped over the small wire fence surrounding the flower bed and then proceeded to tramp the earth down by walking backwards.

**ANTHONY JONES KILLED**

Mrs. Levi Jenkins, 411 Hill street, has received a telegram from friends in Cove, California, stating that her nephew, Anthony Jones, whose parents formerly resided in London, had been killed there. No details of the accident were given.

**ASKS FOR VOLUNTEERS.**

The committee in charge of the Poppy Day, James Gray, R. J. Dowler and B. C. McLean, are asking for more young women to volunteer to sell poppies on Saturday. Those desiring to aid should call any of the committee or Secretary Wood, of the Chamber of Commerce.

## FRENCH POLITICS IN CHAOTIC STATE

Situation Unparalleled In Parliamentary Annals.

**WILL PROBE SALARIES**  
RIFT IN LEFT MENED

Another Plan As Compromise Is Now Indicated.

PARIS, Nov. 11.—The political situation in France has reached a state of confusion and chaos, to use an expression used by M. Cazals, leader of the radical group in the Chamber of Deputies, unparalleled in Parliamentary annals and such that the most experienced political observers are at a loss to gauge the final outcome.

The latest development in the situation is that the coalition of left groups has mended the rift between them, or at least drawn the edges together. This was accomplished at a series of meetings and consultations which lasted until past midnight last night. Delegates of the four groups forming the coalition agreed to draw up another plan which will be a compromise between the government's financial plan and the plans put forward by the Socialists and Louis Loucheur. This new plan is to be submitted to Premier Painlevé as soon as it can be made ready.

**STANDS BY GUNS.**

M. Painlevé, in the opinion expressed in political circles, will stand by his original resolve to appeal to the Chamber to decide upon the question of acceptability or rejection of his program for ending the financial chaos in France. His bill for financial restoration will be placed before the Chamber tomorrow and leave the issue squarely before the deputies for settlement. He has asserted that it is his purpose to make no retreat.

Meanwhile, current opinion favoring the formation of a "concentration majority" is visibly growing among the radicals. The fact that this probably would entail another ministerial crisis does not deter advocates of this principle who are quite in keeping with the traditions of French politics.

Dissolution of Parliament also is being talked about, but this, although provided for by the constitution, is a method contrary to all the usages of Parliament, having been employed only once since the republic was founded. It will be considered only as a desperate last resort.

## FAILED TO DETACH STUBS OF BALLOT

Votes For Liberal Candidate Are Rejected.

**IN LAURIER-OUTREMENT**

Losses Recompensed, However, By Addition of Votes.

MONTREAL, Nov. 11.—Because a returning officer had failed to detach the stubs from each ballot after it had been marked by the elector, the vote of an entire poll in Laurier-Outremont, comprising 33 ballots, all registered in favor of J. A. Mercier, Liberal candidate, was rejected by the court which assembled yesterday to grant a recount in that constituency on the behalf of Hon. Rodolphe Monty, the unsuccessful Conservative standard bearer.

Mr. Mercier's loss, however, was more than recompensed by the addition to his count of several ballots that had previously been rejected by deputy returning officers.

Yesterday 70 boxes were examined by the court and there still remain 122 polls to be investigated.

## With the Approach of Christmas

We Think of

### Private Greeting Cards

It shows forethought to have your name on your Greeting Cards for Christmas. If you order now you will be sure of getting just what you want and you will have time to buy. Three of the best books to choose from. Prices ..... \$2.35 dozen

About 1/2 Price  
THIRD FLOOR

### PROBE ABUSES OF THE DOLE SYSTEM

To Engage Attention of Commission of Inquiry.

**UNDER LABOR DEPARTMENT**  
Members of Late Labor Government On Board.

LONDON, Nov. 11.—(Canadian Press Cable)—Abuses in connection with the so-called dole are likely to engage considerable attention at the hands of a commission of inquiry set up by the department of labor to investigate the desirability of making changes in the unemployment insurance scheme.

Lord Blanesburg, a lord justice of appeal from 1919 to 1923, will preside over the committee of inquiry, which includes representatives of capital, labor, finance and local governments. The personnel includes: Frank Hodges, former Labor M. P. and civil lord of the admiralty in the late Labor Government; Viscountess Milner, widow of Viscount Milner, who died last May, and Miss Margaret Bondfield, ex-M. P., undersecretary to the minister of labor in the Ramsey MacDonald administration.

**FLOODS IN FRANCE**

Several Hamlets and Farms Are Already Isolated.  
PARIS, Nov. 11. — The sudden arrival of winter has surprised everyone in France. Reports of floods and even snowstorms in the provinces are coming in and at Paris the Seine River is steadily rising.

For a distance of more than six miles water covers the fields around Boulogne. In the Hasebroeck district the roads are flooded to a depth of 18 inches and many motor cars are marooned in banks of mud. Several hamlets and farms are isolated.

The Marne is beginning to overflow between Chalons and Epernay. The Yonne River is about at flood level at one point and the Cher River is flooding rye lands to a considerable extent.

**PLOT TO MAKE GERMAN CROWN PRINCE KING FAILS**

LONDON, Nov. 12.—What is alleged to have been a plot to enthroned the former German crown prince as king of East Prussia has been frustrated, according to a dispatch by the arrest at Wallenstein of 20 monarchist youths and the seizure of a quantity of arms.

### FEDERAL MEMBER-ELECT GUILTY OF MISCONDUCT

FREDERICTON, N. B., Nov. 11.—William B. Hanson, K. C., member-elect for North Sunbury, has been found guilty by the council of the New Brunswick Bar of charges of professional misconduct preferred against him by Dr. T. Carleton Allen, K. C., registrar of the court, who complained that he had been induced by the accused to issue a decretal order purporting to have been made by Hon. Mr. Justice White in the matter of the Nevins infant's estate, a Sunbury County estate in the chancery division. Knowing that it was not the decretal order made by the judge, and that the accused attempted to use and pervert the said decretal order, knowing that it was not the decretal order made by Judge White.

### 35,000 EXERCISE BOOKS USED BY PUPILS IN YEAR

A total of 35,000 exercise books and 45,000 workbooks, besides thousands of sheets of exercise papers and other material have been used in the city's public schools during the year that is now drawing to a close. Incidentally, Inspector-Administrator G. A. Wearable stated to-day that there is no need for a youngster to purchase pencils, exercise books or other articles for use in school. These are all supplied by the Board of Education, and he makes this announcement for the benefit of parents who are frequently called upon to supply funds to a youngster for the alleged purchase of such supplies.

### NO REASON GIVEN FOR REPLACING TURNKEY

ST. THOMAS, Nov. 11.—The services of Colin McGregor as turnkey of the Elgin county jail have been dispensed with. His place has been taken by Peter C. Newell, of Springfield. No reasons are given for the change, which is causing some criticism here.

### WHEAT POOL HITS PRIVATE EXPORT

Winnipeg Exchange Protests Selling Below Market

**LARGE SHIPMENTS ABROAD**  
Pool Management In Control of Huge Grain Stocks

BY G. C. PORTER  
Free Press Special Correspondent.

WINNIPEG, Nov. 11.—Pool activities in supplying old country millers with large stocks have brought out protests from many local exporting firms that huge quantities are being marketed below price levels. Pool officials continue to get cargo orders and, they claim, readily at a price that shows their patrons a reasonable profit.

### PLAN FARM COLONY FOR FEEBLE-MINDED

TORONTO, Nov. 11.—Dr. F. J. Conboy, chairman of the Social Service Council of Ontario committee on the problem of the feeble-minded, announced to-day at a luncheon that legislation will be submitted at the next session of the Ontario Legislature to make possible the establishment of a farm colony training school for the feeble minded of the province. Dr. Conboy added that different interests, city and provincial, were co-operating zealously to see their ambition realized on behalf of the handicapped children.

### FEAR EYESIGHT MAY BE IMPAIRED BY WOUND

ST. THOMAS, Nov. 11. — Optimistic reports given this morning regarding the condition of Police Sergeant Geddes, who suffered serious injuries last night while placing under arrest Nathaniel Ryan, a negro, are not upheld this evening. The hemorrhage of the eye has been stopped, but complications prompt attending physicians to report there is a danger that the sight of the eye may be impaired by the injuries. It will be two or three days before any definite report can be given out.

### TO ENFORCE PAYMENT OF HYDRO ACCOUNTS

Gait Commission to Cut Off Service If Not Paid.  
GALT, Nov. 11.—The Public Utilities Commission, at its meeting to-day, decided to rigidly enforce the payment of all hydro accounts. Bills are rendered here every two months, and if they are not paid within 15 days after the time limit the services will be cut off. Another important decision was that the commission would abide by the ruling of the Ontario board that all rural customers, even those just outside the city limits, who are served with hydro from Galt will have to pay the rural rates. One hundred have been enjoying city rates and after December 1 will have to pay the larger amount.

### CAR GRAZING BY TRAIN

While driving along Kerr street this morning F. Hunt, Lowell street, had a miraculous escape when his auto was grazed by a shunting freight train.

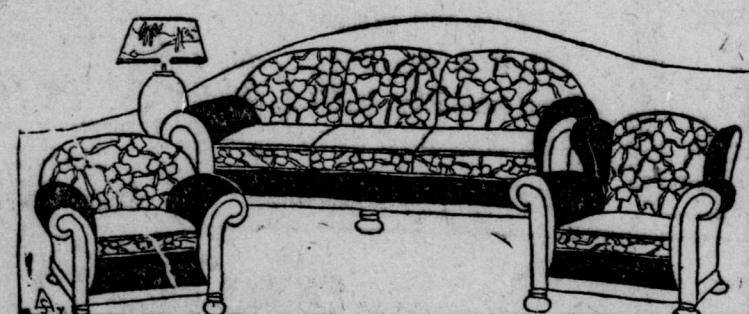

### PUPILS COMMEMORATE SIGNING OF ARMISTICE

ST. THOMAS, Nov. 11. — Armistice Day was fittingly observed in St. Thomas. Service for pupils of the city schools was conducted in churches throughout the city, while business colleges of the city attended services conducted in the Tivoli Theater. The Auxiliary Chapter, I. O. O. F., representing the members of that order in St. city, placed a memorial wreath on the soldiers' monument at South Park Cemetery. A wreath was also placed on the monument by the executive of the Red Cross.
