TORONTO.

Toronto Junction, Aug. 12.—This morning's market at the Union stockyards was a little draggy, chiefly on account of the large run. The run consisted of 100 carloads, containing 2,125 cattle, 265 sheep, 13 hogs, 47 calves and 1 horse.

Export cattle were off a little in price; they brought from \$5 to \$5.50 per cwt., although one load of choice animals brought a few cents more.

Butcher cattle held their prices well in the better grades, while common butchers were very slow at sale; the better grades brought from \$4 to \$4.50, while common cattle came low, at about \$2 to \$4.50.

BRITISH CATTLE MARKETS.

Liverpool, Aug. 12.—John Rogers & Co. report Canadian steers, 12c; States, 12½c; ranchers, 11½c; cows, 11c; bulls, 10c; trade slow and market weak.

Glasgow, Aug. 12.—Edward Watson & Ritchie report 1,138 cattle on offer; trade slower and prices weak; top quality, 12c to 12½c; secondary, 11½c to 12¼c; ranchers, 10½c to 11½c; bulls, 10c to 11c per lb.

OBITUARY.

DIED.—In Enniskillen, on August 6th, 1907, Isabella, beloved wife of Thomas Hall, in her 57th year. Deceased was in failing health for some years dying of valvular disease of heart. Although death did not come unexpectedly yet it was a great shock to her friends. Deceased was born in Scotland coming to Haldimand Co., living there for a number of years when she was married to Thomas Hall, moving to Enniskillen where she has since resided. Her funeral took place from the family residence to the Wyoming cemetery, the funeral service being conducted by the Rev. Mr. Wallace, pastor of the 10th line Presbyterian church, where she had been a member for years. She leaves to mourn her loss a sorrowing husband, one daughter and three sons, namely: Mrs. William Rundle, Brooke; John, of Enniskillen, and Proctor and Robert at home. They have the deepest sympathy of the community in their sad affliction.—Com.

A little black-and-tan canine belonging to Smith McBryan, of the second con., Bosanquet, took possession of a woodchuck's burrow last week and brought in to the world a litter of little black-and-tans.

JUNIOR MATRICULATION EXAMS

Extract from the calendar of the University of Toronto, 1906-07, regarding matriculation: "The pass standard in each subject is 33 per cent. of the marks assigned thereto."

The following list contains the names of two classes of candidates: (1) Those who have written upon and fulfilled the requirements of the University of Toronto in a sufficient number of subjects for full matriculation. (2) Those who have written upon one or more subjects or papers, as the case may be, and have fulfilled the requirements therein. It follows that all who have made 33 per cent. upon which they wrote are here reported.

The certificates containing the marks will be sent to the principals of the high schools, and the inspectors, just as in past years. Candidates will apply to these officials, not to the department, for their reports in detail.

The examiners report that no one subject may be considered as having caused the failure of a greater proportion of candidates than another.

The result of the junior teachers' examinations will appear on Wednesday.

LAMBTON.

Wheatley, E. G. Winlow, W. H. Woods.

JUNIOR TEACHERS' EXAMS.

Toronto, August 13.—Below are given the results of recent junior teachers' examinations, qualifies for entrance to the model or normal school, and is the academic test of fitness to take up the work of a public school teacher.

The requirements are 40 per cent. on each paper and 60 per cent. of the total number of marks. This higher standard has caused a larger number of failures than when the requirement was 50 per cent., but the results as a whole are satisfactory.

Weatherill, part 2.

WISE PARENTS.

Guard Their Children's Health by Giving Them Dr. Williams' Pink Pills.

The health of the growing boy or girl should be carefully guarded. During the growing time there is a danger of the blood becoming poisoned and the health seriously impaired. The blood should be kept pure and the child will grow strong, healthy and active. Dr. Williams' Pink Pills are an ideal tonic for the young. They never fail to bring color to the pale cheeks and strength to the growing body. To a reporter of L'Avenir du Nord, Mr. Jos. Provost, of St. Canute, Que., tells how these pills saved his daughter Marie from a life of misery. He says: "A year ago my daughter, a girl of thirteen, was very weak. She was so ill that I feared she was going into consumption. Though I tried remedy after remedy she remained in this weak state for several months and I began to think she never would get better. I read of the good Dr. Williams' Pink Pills had been in a case of anaemia, so got some for her. Soon she began to improve; her appetite returned; she grew strong; color came into her cheeks and today she is as healthy as any young girl could be. I firmly believe Dr. Williams' Pink Pills saved her life."

Dr. Williams' Pink Pills are equally as successful in bringing those of mature age back to health as they are in building up the young. They make pure, red blood—that is why they banish anaemia, rheumatism, St. Vitus Dance, heart palpitation, indigestion and the secret ills of girlhood and womanhood. But you must get the genuine bearing the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around each box. All other so-called Pink Pills are imitations. If your medicine dealer does not keep the genuine pills they will be sent at 50 cents a box or six boxes for \$2.50 from 'The Dr. Williams' Medicine Co., Brockville, Ont.

On appeal to the County Judge, the business assessment of the Petrolia Electric Light Company was reduced to \$450 from \$4,000.

Flour Blending.

For years the farmers of Ontario have heard of the phenomenal production of the Western wheat fields, and have resolutely accepted the much advertised superiority of Western flour as a conclusive fact. All over Ontario the demand for Ontario wheat has fallen off, with a consequent lowering of the price paid to the farmer for his grain. In addition, bran and shorts have become so expensive as to seriously reduce the margin of profit for the dairyman and stockman.

Now, the most practical discovery of the last decade, the one most far-reaching in its results to Ontario farmers, is that known as "flour blending." Western flour has been popular in Ontario on account of its large percentage of gluten or "strength," which chemists call proteid, although the western product lacks both flavor and color. Flour made from Ontario winter wheat is not so "strong," but has a peculiarly attractive flavor. When a little Western wheat is added to the Ontario product, the percentage of gluten is increased, and all the flavor retained.

The practical results of the discovery are certainly noteworthy. Ontario millers who have made a specialty of the new flour have driven out Western flour from the Maritime provinces. They have been compelled in some instances to double their already extensive plants, and have created such a demand in Toronto that the most popular loaf sold today in that city is made of Ontario blended flour.

What is true of Nova Scotia and New Brunswick, where an unprejudiced public have decided in favor of the blended flour of Old Ontario, ought to appeal to Ontario farmers generally. Buying Manitoba flour is financial folly, when the purchase of the Ontario product gives better bread, and helps to create a demand for Ontario wheat. When people all over Ontario realize this fact, the farmers of Ontario will not only be the gainers of several millions of dollars, but will find that the cost of bran and shorts will drop to the normal figures of ten to fifteen dollars a ton. And, surely, the Ontario farmers should be the first to set the good example, by buying only the flour made largely from Ontario wheat.

Farm Hands Needed.

Winnipeg, Man., Aug. 13.—Farmers in Manitoba are finding it difficult to secure farm help, and now harvesting time is so close the situation is becoming somewhat serious. Farm laborers are scarce this year. Notwithstanding the stream of immigrants that have been pouring into the west from all parts of the world. The scarcity is a difficult matter to explain, as within the last few years wages have almost doubled and the average wage now paid by farmers is about \$25 to \$35 per month.

Single young men who would board with the farmer's family are most in demand. This is the class that is difficult to secure.

The newly arrived immigrant does not make a satisfactory farm hand because when he gets acquainted with the science of farming he is in a position to take up land for himself. The question of supplying the necessary help for seed time and harvest is getting very important and difficult to handle.

Worked Farm Help.

Toronto, August 12.—Geo. E. Burns, a young man who hails from Uncle Sam's domain, appeared before Magistrate Denison to-day on a charge of vagrancy and was remanded for a week. Burns was arrested on Saturday night by Detectives Tipton and Twigg at a downtown hotel. He is alleged to have been operating a fraudulent employment agency. He admitted to the police that he inserted advertisements in several papers in Canada and the United States for harvesters for Winnipeg and the surrounding territory, offering as an inducement to applicants to advance their fares on the payment of a fee of \$1. This morning, Detective Twigg collected the young man's mail at the hotel and post office, and secured some fifteen letters from applicants in different parts of Canada and the United States. Bail was fixed at \$300, which he failed to furnish.
