

these districts that pruning, cultivation and spraying are necessary to produce healthy trees, and good first-class fruit. All these Associations in our Province are in their infancy and have a lot to learn.

Competition may be the life of trade, but more often it is the death of somebody's business. On the other hand Cooperation is the life of a community. Some city people say that the Associations will make the cost of living higher. I don't think so. They will get better goods and more value for their money. There is too great a difference between what the farmer receives and what the consumer in the city has to pay for farm products.

This is an age of progress. We have left behind to a large extent the use of the sickle, scythe, and flail. I would like to bring before you a few primary needs in which farmers could cooperate to advantage. Neighbors could cooperate in de-

# HIGH GRADE SEEDS

## NEW TOMATO LISTER'S "PROLIFIC IMPROVED"

A most remarkable variety, forces earlier, and without doubt the most prolific Tomato ever offered. The plant is of a sturdy habit, very closely jointed and producing enormous bunches, averaging 25 fruits, but as many as 40 are quite common, while for its free setting and fruiting qualities there is no variety to equal it. The fruit is of medium size, round and firm, skin a beautiful & glossy scarlet, while the flavor is exquisite.

This is the variety and the selection that enabled Mr. W. N. Craig, of Langwater Garden, Boston, Mass., to stagger Bostonians and the States in general, at the great Horticultural Exhibition held in Boston, on June 2nd, 1912, with an exhibit of this variety in fruit and bunch, gaining the coveted honor of a First-Class Certificate, the first for high 29 years granted for a commercial sort.

This selection is now being offered for the first time, Pkt. 25c.

You should plant in your garden, SELECTED SEEDS, the best the world affords of the desired varieties.

## Put the "KICK" in the Eggs

If you want big hatches of husky chicks, the kind that live and grow. Infertile eggs and small hatches of weak chicks are the rule when the breeding stock is in poor condition, weak and run-down.

### Pratt's Poultry Regulator

will quickly correct this condition in your flock because it acts directly on the digestive and reproductive organs, strengthening them, toning them up, invigorating them. 25c, 50c, \$1; 25-lb. Pail, \$2.50; 100-lb. Bags, \$9. After the chicks are hatched you should raise them all.

### Pratt's White Diarrhea Remedy

controls bowel troubles. Use it for all broods as a preventive.

### Pratt's Baby Chick Food

makes chicks grow at an astonishing rate, with big bones, plenty of muscle and unbounded strength and vigor. You can rely upon this scientific food mixture to carry through the critical period all worth-while chicks, and give them that favorable start upon which future profits depend. In boxes and bags, 25c up. "Your money back if it fails."
