Railway Apparatus

The superior self-evident merits of our apparatus are acknowledged by novice, practical man and expert, and our apparatus is always given the preference. The superiority of our apparatus has forced our largest competitors to reduce their selling price 50% in two years, and to manufacture and offer for sale details pertaining to our various systems because they are essentials demanded by the purchaser when buying cheaper apparatus.

Among the roads using our apparatus are the Vancouver & Westminster Tramway Co.; Winnipeg Street Ry. Co.; Sandwich, Windsor & Amherstburg St. Ry. Co.; London St. Ry. Co.; Hamilton, Grimsby & Beamsville Electric Ry. Co.; Hamilton St. Ry. Co.; Berlin & Waterloo St. Ry. Co.; Galt, Preston & Hespeler St. Ry.; Toronto Suburban St. Ry.; Oshawa Electric Ry.; Peterboro & Ashburnham Ry. Co.; Montreal Street Ry. Co.; Park & Island Street Ry. Co., Montreal; St. John St. Ry. Co.; Ottawa Electric Ry. Co.; Toronto St. Ry. Co.

Lighting and Power Transmission Apparatus

From the fact that we manufacture Direct-Current Apparatus of the standard voltages, and Alternating Apparatus, including Generators, Motors and Transformers for single-phase, two-phase or three-phase systems, we are prepared to recommend and furnish without prejudice that system which from our experience seems best suited to the condition of the plant under consideration.

In the development of polyphase systems we have led; others have followed.
The quality of our apparatus justifies a fair margin of profit.
