

How Much Can I Make Out of My Cows ?

Well, now: that can be answered in just one way: "as much as you can use the U. S. Cream Separator." Here's an illustration of the possibilities within reach of any dairymen, for it is not infrequently the case that the U. S. makes double what you could get out of your milk in other ways without a U. S.

We had a _____ separator and from 12 cows we made 86 pounds of butter. The next week we used a No. 6 U. S. Separator and made 74 pounds from the same cows, in the same pasture, without any extra feed. That is certainly a record-breaker. We made \$10.45 the first week after using the machine. We are very much pleased with it and could not get along without it now. We have used our U. S. three years.

Raymond, Nebr., Nov. 9, 1906.

BEFORE

These two
tubs of
butter
were made
from the
same
quantity
of milk from
the same cows

Holds
World's
Record

How?
Because the
U. S.
SEPARATOR
skims out
all the
cream

AFTER

You've got to get ALL the cream out of your milk to get ALL your money out, and the U. S. Cream Separator Skims out ALL the cream. The U. S. holds the World's Record for clean skimming. It makes and saves money for you twice every day in the year.

The U. S. Cream Separator is simplest—has fewest parts—easiest to clean—easy running—lasts longer—AND SKIMS CLEANER.

Write for free copy of large illustrated book telling—and showing—just why the U. S. is such a steady, easy, money-maker for every farmer and dairyman. Ask for No. 143, please.
