The Company guarantee to return to each purchaser at least, treble the value for his money.

HOW CAN THIS BE ACCOMPLISHED?

Is a question many will doubtless ask themselves and forcing this we offer the following lucid explanation.

The trade assignee, anxious to dispose of and realize on the entire stock of the bankrupts in one sale, accepted our offer of \$200,000 cash for the lot; after advertising same for sale for one month and not receiving a single offer, which in the present depression of business and almost total stagnation of trade is not to be wondered at, notwithstanding that our offer was one-third less than the actual cost of the manufacture of the Pocket Books. The assignee having to at once realize the effects of the bankrupts, in the interests of the creditors he had no alternative but to accept this offer and sell us the lot at our own per cent, thereby enabling us to

DISTRIBUTE IN PRIZES \$100,000

Amongst the purchasers, and at the same time retain a liberal marginal profit for ourselves; thus you obtain fully as much value for the amount you forward as and it depends on your luck what amount you gain of the

but a *bona-fide* business system founded on a true financial basis which enables the Company to convert into money an otherwise surplus stock, and this to with a good profit to both the purchasers and themselves, effecting a speedy clearance stock which, in the present dull times, is the great desiderata that in no other way can be successfully attained.
