

The last report from the Atlin end, on May 3, said the 50 men engaged at that end had wires up 75 miles from Atlin, and had spanned the Nakeena with 2 wires. That chasm is 700 ft. high, & 2 heavy cables had to be strung to get supplies across. The report said the Teslin trail would be reached in 10 days. Mr. Charleson says that after Teslin is passed very rapid progress will be made to Telegraph Creek, but the Ashcroft end will be completed to Hazelton before the men on the Atlin end can reach there, though he believes that the circuit will be completed at Hazelton quite within the specified time. There are about 800 miles of country yet to cover.
