

# THE CASCARA SAGRADA FAMINE.

The consumption of cascara sagrada has been so large that there is at present a great dearth of the genuine bark. Even the inferior varieties adulterated with spurious barks which are offered in the open market, have greatly advanced in price, and advices from the habitat of cascara sagrada state positively that no more of the genuine bark will be obtainable until next fall. The undoubted result of this scarcity will be to flood the market with many inferior and medicinally inert preparations of the drug.

At this juncture it gives us pleasure to state that we have never relied for our supplies of cascara sagrada on the inferior article offered in the market, but in accordance with our usual methods take every precaution to obtain supplies from reliable sources.

We have now on hand a large and ample stock of the genuine best quality

## RHAMNUS PURSHIANA.

We shall not, however, take advantage of the market and raise our price, but shall continue to supply only

The Highest Quality Preparations of the Drug at our Regular Price.

We believe physicians, in view of the facts stated, and of our special knowledge of cascara sagrada, obtained by long and careful study of its properties and manufacture, will see the propriety of specifying only cascara sagrada of our manufacture. Send for our Working Bulletin and Monograph on Rhamnus Purshiana.
