Calendar for 1904.

Maud Humphrey, the celebrated painter of babies, conceived this beautiful and interesting subject, wherein are most artistically and winsomely grouped Babies of every Land and Clime.

In this Calendar the types and national characteristics are reproduced with great care and fidelity; in both dress and features are shown all the delicate coloring and artistic effects so charming in the original painting.

The illustration herewith gives but a faint idea of the beauty and cuteness of the Calendar itself. This Calendar will delight every recipient. It makes a rich and decorative Art Panel, size 10x30 inches, ready for hanging.

The edition is limited; order early. Sent to any address on receipt of 10 cents in coin or stamps. It is worth more in any art collection or home.
