DISTRESS IN ENGLAND.—The reports from the manufacturing districts are still of a sid character. The working of short time, and the entire stoppage of many mills, continue, with but little alteration. The number of cotton mills in Lancashire is 920, employing 170,000 hands. 200 mills are now entirely closed, while the number of hands in full work is only about 48,000; on short time, 87,000; and the number unemployed is 35,000. In Man-chester alone, the number unemployed is now 12,000. Their distress is represented as very

To these immense numbers of unemployed men must be added other thousands lingering about un-finished and suspended railway works. Their condition altogether is most distressing, and is attracting general attention. That something must be immediately done for the relief of these unemployed and starving thousands, is generally admitted.

CHOLERA .- Reports respecting the appearance of this disease at Falmouth have been officially contradicted. There has been one or more cases of that disease in Paris, but no reason appears for supposing them to have been caused by importation or to belong to an epidemic.

TAPPING A LEADEN HORSE. - For some time back It has been observed that the statue of George 11., at the end of the parade, has been in an inclining position, with an evident tendency to fall over. Accordingly it was deemed desirable to examine into its condition, when, in consequence of some of the lead on which it rested having corroded, it was considered necessary to place an iron bar under it to prop it up. When performing the operation it was ascertained that the interior of the horse had become quite full of water, which had gradually oozed through a small hole behind the saddle, the weight of which greatly encangered the safety of the statue, and it became apparent that the process of tapping should be undergone to remove the water. Accordingly preparations are making for that purpose, and in a few days we may expect to see the leaden horse of the statue of George II. operated upon for a dropsy. As soon as this is completed, if is in contemplation to brouze the statue, and make it more ornamental to that part of the city, than it has he in heretofore.— Cork Southern Reporter.

CAPABILITY OF LUNATICS.—At Crichton, in the neighbourhood of Dumfries, there is a lunatic asylum, in which a periodical is printed and published, and which is said to have contained some excellent pieces of portry. The work of the compositor, and he press-work are done by inmates of the asyluin; the articles are written by inmates; and the editor

VALUE OF THE WIND.—A landowner, lately claimed compensation from one of the East Anglian railway companies, on the ground that two windmills belonging to him, the nearest of which was 150 yards from the railway, would be deprived of a portion of their motive power, by an embankment 18 feet high. The demand was submitted to arbitration, and the claimant was awarded £1,000 for loss

DEVONFORT, Oct. 24. A Casemated Battery, on an extensive scale, is about to be erected on the ordnance grounds at Eastern King, in the parish of East Stonehouse, better known as the Long-room-Hill. Tenders for the completion of the work will be delivered in a few days and the whole is to be executed within twenty months. The battery will occupy a prominent position, and will contain accommodation for a co pany of artillery .- The half-yearly inspection of the 14th Regiment took place on Saturday, on the parade-ground at Mount Wise, by Major-Gen.

Hon. H. Murray - Decomport, Oct. 24. ITALY.—The people of Piedmont manifest the greatest enthusiasm at the reforms recently made by the King in the administration of the state. His Majesty's journey from Turin to Genoa was like one

continued triumph.

Letters from Rome of the 28th ult. state as follows :- " There is no doubt now that the Cardinal Secretary of State has sent in his resignation, and Pius IX. has seemingly accepted it. Different cardinals are spoken of as his successor. Cardinal Baluffi is the favourite candidate. The Papal Nuncio at the Court of the Tuileries, Monsignor Fornari, is also mentioned. The appointment of M. Savelli to the post of Governor of Rome has not given satisfaction, as he is a man of weak character.

BUFFALO, Dec. 21st, 81, P. M. RAUROAD DIFASTER.—The cars which left this city this morning, for Niagara Falls, ran off the track when they had proceeded only about 45 miles on their way. One car, containing about 45 pas-sengers, fell from an embankment some 12 feet high, and striking upon its top, was wholly destroyed. Of the passengers, one was killed, and 15 others wounded, some of them very seriously. One of these latter was Judge Porter, an aged man, and an old resident at Niagara Falls.—Morning Chroni-

Horning Affain .- Abraham Tagg, a Sergeant of the XXth Regiment, received his trial before the Supreme Court yesterday, for an assault committed in August last, upon a young woman, with an intent to main and disfigure. The offence was clearly proved, and the Jury found the prisoner guilty. When the verdict was brought in he guilty. When the verdict was violation handed a letter to a Non-commissioned Officer near and inflicted two terrible wounds upon his throat. Several medical gentlemen were promptly on the spot, and having dressed his wounds, expressed hopes that they would not prove fatal. They, however, considered the case doubtful.—Morning Post, Halifax. Dec. 3.

RAPID TRAVELLING .- Mr. Caldwell, mail conractor, who arrived in town on Thursday morning last with the letter portion of the Express Mail from Halifax, drove his stage from the Bend of Petticodiac to this City, a distance of one hundred miles, in nine hours and three quarters, including five stoppages-once for supper.-The time actually occupied in driving was a little over eight hours, being at the rate of twelve miles an hour! This, considering the state of the roads, is one of the greatest feats of the kind that has ever been performed in this Province, and says much for the quality of Mr. Caldwell's horses, and his determination to perform his part of the service expeditiously .- St. John N. B. Courier, Dec. 11.

PORTLAND, N. B .- Another outrage was committed on the 2nd instant—three of the Police were stabled by a man who was noisy and insolent and created a disturbance, and whom they were taking to the station-house. One of the wounded men died of the injuries received. The principal actor in the murder has made his escape; several of the persons who aided and abetted were taken into

SEIZURE OF A MONTREAL EXPRESS AT BUR-LINGTON .- In order to have the benefit of a somewhat later conveyance of letters to reach the Mail Steamer at Boston, a Private Express was dispatched from Montreal subsequently to the departure of the mail via Quebec for Halifax, to proceed by Highgate and Burlington to Boston and mail the letters there. The United States Post Muster General having heard of this intended accommodation, gave instructions to the PostMaster at Montpelier, to watch the arrival of the Express, and have the person, in charge of the same arrested and safely held for trial, on the charge of infraction of Post Office regulations. This has been done, notwithstanding the postage for the letters conveyed by the Express was tendered to the PostMaster at Highgate; and thus the writers of those letters are put to the great inconvenience and risk arising from the detention of their letters-to gratify the spite of the American government. The instructions are drawn up in the style lately remarked upon by us; we give the introduction :

" Sir,-The course pursued by the British Government in persisting to cause all matter conveyed to their shores in the U. S. line of Mail Steamers to be charged with double postage, notwithstanding our carnest but friendly remonstrances, and in a spirit so very different from the liberal provision which we had made for conveying their mails over our routes between the Mother Country and her Provinces on this continent, has, as you are aware, compelled us to avail ourselves of the privilege mutually reserved in the late postal arrangements between the two countries, to terminate the arrangements."

What would people in England think of the head of a great department addressing to his subordinate such a newspaper article by way of complaint of what a foreign government has been doing! Our neighbours cannot possibly be aware how mean their government comes to look, when it resorts to such arts to stir up evil passion in the populace for whose reading such papers while professing to be official

instruction to a public officer—are drawn up.

From the Montreal Gazette we learn that the Express agent arrived in Montreal on Saturday last, with the whole of the letters, &c., which had been entrusted to his charge. The American government, however, did not release him, until the very heavy bail, \$2,000, had been exacted for his appearance on the 24th May next.

QUEBEC ELECTION.—Four candidates were known, at the beginning of the week, to desire the honour of representing the city of Quebec in the Provincial Parliament: Messrs. Aylwin, Chabot, Ryland, and James Dean. The latter gentleman had been fixed upon by the commercial interest as a fit person to represent the city : but he withdrew on Tuesday morning; Mr. Ryland appeared in the Parliament buildings, but withdrew from the field after addressing the electors. Messrs. AyLWIN and CHABOT being the only candidates then remaining, were, therefore, by the returning officer, Archibald Campbell, Esq., declared "duly elected."

SEVERE ACCIDENT .- A labourer in the employ of the Gas Works Company, Andrew Henderson by name, was severely injured on Tuesday morning by the fall of a wall, outside Palace Gate. The injuries are not considered dangerous.

Some of the debentures in favour of the sufferers by the fires at Quebec in the year 1845, have come down from Montreal; they are regular engagements from the Provincial Government to pay to the sufferers the amount loaned to each; which are payable to bearer, in twelve years from the first December instant, hearing interest at six per cent, payable half-yearly.—Communicated.—Mercury.

On the 1st of January, and on the 29th of the same, a mail steamer will leave Liverpool for New York, to call at Halifax on her voyage out and home; which, together with the steamer from Liverpool to Boston as usual, will complete the twice-a-month communication : this will continue till May, when the communication will commence four times a month, till December again. On each voyage out and home, these steamers will touch at Halifax, thus giving to

FIRE DEDENTURES .- The commissioners for loans to the sufferers by the Quebec fires have received from government 100 debentures, alphabetically arranged, and extending to the letter C. inclusive, igned by the new Receiver General, Mr. Bruneau. We find, by an advertisement in Tuesday's Mercury, that the Quebec Provident Bank will make loans, to a limited amount, on such debentures. Persons who have inquired at the Bank are informed, we are told, that the Bank is willing to advance 50 per cent upon the value of the Debentures, at 6 per cent interest per annum for the period of six months; the borrower to have the right of repaying the loan and claiming his Debenture, at any time previous to the end of the 6 months, paying interest for the time he has enjoyed the loan; the Bank to have the right of selling the Debenture on the borrower's account, at the expiration of the six months, if the loan should not be repaid. This cannot fail to be a great accommodation to such holders of Debentures as could not immediately dispose of them otherwise than at a great loss, while, within the six months, they may expect to be able to raise money upon them upon favourable terms.
