Furniture Co., Preston, Ont.**
Office, School, Church and Lodge Furniture.

Combination Union Valve Elbow

Patented January 30, 1900

For Hot Water

Is more elegant in design than a Valve or an Elbow.
It is quick opening (Qr. turn) and adjustable to either
end of the radiator. It has a true curved, full sized
water way which reduces friction. It is neatly and
compactly made of valve metal and packed ready to
use. It has rough body, with finished trimmings
and is nickel plated all over.

Operated with the foot. Costs no more than a
valve. Every one warranted.
