

The first step in the process of...  
 identifying the problem is to...  
 determine the scope of the...  
 problem and the resources...  
 available to solve it.

Once the scope of the problem...  
 has been determined, the next...  
 step is to identify the...  
 causes of the problem.

The causes of the problem...  
 can be identified by...  
 analyzing the data and...  
 identifying the factors...

After the causes of the...  
 problem have been identified,...  
 the next step is to...  
 develop a plan to solve...

The plan to solve the...  
 problem should be...  
 based on the...  
 causes of the problem...

Once the plan...  
 has been developed,...  
 the next step is to...  
 implement the plan.

The implementation...  
 of the plan should...  
 be based on...  
 the plan to solve...

After the...  
 plan has been...  
 implemented,...  
 the final step is...
