

APPENDIX I.

LIST OF LEPIDOPTERA COLLECTED IN THE SOUTHERN PART OF KEEWATIN DISTRICT.

BY DR. R. BELL.

The following Lepidoptera were collected in 1883 while exploring the country from Wabigoon Lake to Red Lake, by way of Lonely Lake, which adjoins on the west that explored in 1886. The species were determined by Major H. H. Lyman of Montreal, with the exception of the last two, which were named by the Rev. George D. Hulst of Brooklyn, at Major Lyman's request:—

1. *Pieris napi*, Esper., var. *oleracea-aestiva*, Harris.
2. *Argynnis polaris*, Boisd.
3. *Grapta Progne*, Cram.
4. *Limenitis Arthemis*, Drury.
5. *Panphila metacomet*, Harris.
6. *Callimorpha Lecontei*, Boisd.
7. *Euprepia Americana*, Harris.
8. *Apamea nictitans*, Bkh.
9. *Heliophila pallens*, Linn.
10. *Chorodes transversata*, Drury.
11. *Metrocampa margaritata*, Linn., var. *perlata*, Guen.
12. *Sicya macularia*, Harris.
