Many to Hear From. Of 880 municipalities in the province he central committee has heard from only 180 as yet. Many of them, or course, are very small places and their givings will be largely represented in those of larger municipalities nearby, but also included are such places as Guelph, Windsor, Cornwall, Kingston and even Hamilton have not yet made full returns, and they expect to turn in over \$100,000. Windsor does not start its campaign until after November and Guelp's starts on Monday next. It is also a fact that many of the municipalities which already have made returns report "more to come." Premier Hearst announced yesterday that the government for its share of giving paid all the expenses of the central committee, which amounted to about \$7000. This was done with a view to anticipating any feeling which might arise that a portion of the givings would be eaten up by the exof conducting the campaign. J. W. Woods, president of the Re. Cross committee, said yesterday that while the large individual donations expected did not come in, it is mos encouraging to have so many smaller The central committee issued re

Rejection of Terms Offered Understood to Be Based on Contention That Expeditionary Army is Inadequate - Situation in Serbia Acute.

ONDON, Oct. 22.-Greece has declined for the present the allies offer to her of Cyprus and other concessions, territorial and financial, in return for her adherence to the Serbo-Greek treaty of alliance, which would mean her military aid to assist in meeting the Bulgarian and Austro-German attacks against her former

The reply of Greece to the offer which reached the foreign office tonight, is a lengthy one, and, while it night, is a lengthy one, and, while it has not been made public, there is reason to believe that the Hellenic kingdom bases its decision not to join the allies on the ground that the Anglo-French force landed at Salopikl is not, in the Greek Government's opinion, strong enough for the task allotted to it.

May Change Attitude.

While Greece's refusal to the offers is definite so far as the present is concerned, it is felt by London commentators that a material strengthening of the entente allied contingent

ed to the Greeks and Roumanians their ability to do so, or until the operations had reached a stage which would assure them that their countries would not be overrun by the forces of the central powers or their Turkish and Balkan allies.

Situation Admittedly Serious.

There is no inclination here or in the capitals of the other members of the quadruple entente powers to minimize the seriousness of the situation

mize the seriousness of the situation of Serbia. The Austro-German and Bulgarian campaign is developing slowly, but the plans are now fairly slowly, but the plans are now fairly clear. The Austro-German centre is advancing down the Moravia Valley from Semendria, while the Bulgarans have got across this valley to the south and command the Belgrade-Nish-Saloniki railway. The Austro-Germans have three other forces engaged—one in the northwest near Shabatz, one at Belgrade, and, the third, which has not yet crossed the Danube, about Orsova. Danube, about Orsova.

The Bulgars also have other armies

moving across the frontier, near Zai-tar, Pirot and Nish, and further south Vardar River. It is this latter force the Anglo-French troops landed at Saloniki will probably first encounter.

Back Where It Started

The war started in Serbia by the ssassination of the Archduke of Austria. and it is now back there. It is really a near east war. The Balkan peoples, the Turks, the Greeks, Italy, Austria-Hungary, are concerned. There's a polymany for years, especially of the kaiser, is to dominate the near east, to control of the eastern end of the Mediterranean

The real fight is not over Belgium and France, but over that ancient country, the seat of so many empires, the storied and that borders on the Mediterranear Sea beyond the peninsula of Italy. Egypt s within this coveted zone. If the near east were "settled" and
