Canada Patent For Sale.

SAW + MILL + DOG

NO. 30,065; DATED OCTOBER 30th, 1888.

IT is the Simplest and most Effective Dog made. Can be sold on a profit of 250 per cent. and be much cheaper than any other first-class Dog. Other patents pending, including Duplex, which is novel in simplicity. It will sell very cheap.

Read this Letter: DEAR SIR.—Having had 15 years experience throughout the State of Michigan in the mill business, and having used all makes of Dogs, I do not hesitate in pronouncing yours superior to K—, C—, or R—'s which are the best out. Its durability, ease and simplicity of operation, makes it the quickest Dog of the upright kind I ever saw. The draw-up of the point will be appreciated by all sawyers in drawing up a log: square against the knee.

Yours truly, R. H. KNIGHT, Sawyer, Burton Lumber Co., Baton Rouge

MONTREAL, QUE.

My Lever Hoop Cutter

Is an Iron Machine on timbers, capable of cutting from 75 to 100 hoops a minute. Makes the tap while cutting. I also make Pointer, for pointing planks before they are cut. Planer for finishing hoops, and Coiler for coiling, all simple and substantial. Mill owners whose supply of merchantable timber is becoming scarce, will find this set of Machinery a great addition to their business, as it works that useless stuff, Swamp Elm, into an article the demand for which is almost unlimited—A BARREL HOOP.
