

THE McEACHREN HEATING
AND VENTILATING COMPANY.

Toronto, May 6th, 1896.

The McEachren Heating and Ventilating Co.

Gentlemen,—Your No. 2 Heater gave entire satisfaction last winter, being easily managed, free from dust, very economical in fuel, and, above all, free from that unpleasant dry atmosphere usually found where heating by hot air furnaces is in use. In fact, we never had a comfortable house all through before.

Yours respectfully,
JOHN J. COWAN,
202 Crawford St.

Rochester, N. Y., May 11th, 1897.

The McEachren Heating and Ventilating Co.

Dear Sirs,—Yours of May 8th received. Our "Little Wonder" No. 3 has proved itself a very efficient and complete heater, fulfilling our expectations. The fire is still burning. One of its excellent qualities is its ability to hold a low fire, just taking the chill and dampness from the rooms. We have burned less than 6½ tons of coal heating a twelve room house. There has been considerable enquiry about the heater here.

Respectfully yours,
GEO. A. BENTON.

Toronto, May 1st, 1897.

The McEachren Heating and Ventilating Co.

The hot water boiler (Little Wonder) you put in my house last fall has given me entire satisfaction. It is very simple and easily seen to. My boy or girl of eleven and twelve years of age can see to it. If time and space would permit I could fill a dozen letters about the good qualities of your heating system.

I remain, yours respectfully,
ISAAC BULGER,
29 Henry St., Toronto.
