Hastings to Examine Deer Park-Good Feeling About Mines Down in Montreal.

RAMBLER - CARIBOO DIVIDEND

inery for Okanagan-Two On-

Two features on the local mining marke yesterday were Golden Star and Hammond Reef. Both these Canadian issues sold 'up several point's above Saturday's prices.

Mr. Blue's Notification. Ontario Government's notice calling for a for the sale of stock in foreign mpanies not registered in Onright to buy any stock, just the same as any other chattel or property. The Min ing Exchange will take up the question and will probably wait upon the Ontark Government in a body. They will urg that in any case the registration fee required (from \$250 up) is excessive, and will like ly suggest a compromise, under which.

"Following the proposal contained in the annual report, the directors have contracted with the Jenckes Machine Company of Sherbrooke, Que., for 30 additional stamps, frue vanners, crushers, serial rope tramway, etc., and a portion of the machinery has already been shipped. The directors have been most fortunate in being able to purchase in the immediate vicinity of the mine all the necessary lumber and timber which will be required for the additional buildings and dams, thereby effecting a great saving in cost.

"The contract for the installation of the electric power has been let to the Canadian General Electric Company, and it is fully expected that the 40 stamps, driven by electric power, will be in full operation trushing over 100 tons a day by Sept. 1 hext.

"A block of 50,000 shares of the treasury stock has been sold at 50 cents a share, and it is the intention of the directors to sell no further treasury stock until a much higher price can be obtained, while the whole of the promoter's stock is held whole of the promoter's stock is he

making this announcement to the share-holders, as it so fully confirms the state-ments made at the annual meeting as to the future prospects of the company."

A telegram received in the city yesterday stated that the notices of a dividend on Rambier-Carlboo were mailed in the west on Saturday.

Good News From Smuggler.

Great satisfaction was expressed by the directors of the Snuggler Company upon the receipt of the report of J.H. Campbell, the company's engineer, at Fairriew, which arrived here on Saturday last. Although the receipt of the report of J.H. Campbell, the company's engineer, at Fairriew, which arrived here on Saturday last. Although the will have a strength and the receipt of the report of J.H. Campbell, the company's engineer, at Fairriew, which arrived here on Saturday last. Although the will have a strength and the receipt of the short time, and his recommendations will be discussed at a special general meeting of the shareholders, which has been called for March S. No don't his report will have a strength enline effect upon the effect upon the strength enline effect upon the effect

Platinam in Yakon Sands.

In a report to the State Department Consul McCook at Dawson City announces the discovery of platinum among the sands of the Yukon creeks. He says:

"Black sand is found in almost every stream in the Yukon territory, and, while considered a good indication of gold in more or less quantity, has been always a nuisance to washers. On account of its great specific gravity it remains in the sluice boxes with the gold, and even handpanning will not always separate it from the precious metal it accompanies. During the clean-up many tons of this sand are thrown out, yet the analysis of 12 pounds taken from near the mouth of the Hootalinqua would tend to show a distinct value for this supposedly by-product. The dredging company, of which Capt. Jack Crawford is the resident head, has obtained considerably over 100 miles of rivers for gold dredging, part of which is a long stretch of the Hootalinqua, near its mouth. In a test last summer fine gold was sluiced in paying quantities, but it is not of that gold we wish to speak. In washing a cubic yard and a half of gravel the short sluice boxes became badly congested with black sand. The sand and gold dust were taken up and the gold carefully removed. The sand was not thrown away, as is usual, but brought to Dawson, Dr. Willis E. Everette, 2 Platinum in Yukon Sands.

NOW IS THE TIME TO BUY GOLDEN STAR

It is sure to reach the \$1.00 point in a few days. O. 41 bound soon to recover from present cut rate prices. ALICE A" is truly a wonderful mine, and will very soon eclipse anything on the market. Arrangements have just been completed for the erection of a 50-Stamp Mill. which will be the largest plant in the country.

This is the Homestake mine of Canada.

Mfr. J. Hugo Ross of Fox & Ross paid a flying visit to Montreal on Saturday. He says Montreal people have made a lot of money out of mines, and they are very hopeful of the future. They are backing Payne for a big advance, and also believe in Big Three. Something, Mr. Ross thinks, will soon be done about Monte Cristo.

Hastings to Look After Deer Park.

The directors of the Deer Park Gold Mining Company have engaged the services of J. B. Hastings, the superintendent of the War Eagle, to make a thorough examination of the Deer Park, and report on the same as soon as possible. Mr. Hastings, it is understood, begins the examination to-day.

Plant for Hammond Reef.

The Hammond Gold Reef Mining Company has sent the following notice to its shareholders:

"Following the proposal contained in the annual report, the directors have contracted with the Jenckes Machine Comtained with the Jenckes Machine Comtained in the contract of the Market M to the 148,000 part of a grain, showe most surprising result, a result which bound to revolutionize sluleing methods practiced to-day in river dredging. In ton of the non-metallic black sand the is \$102 in gold and 96 ounces of plating some iridium and a trace of tin. I platinum, at \$8 per ounce, would amon in value to \$768, making the total value a ton of the sand \$870."—St. Louis Gloudent of the sand \$870."

The above are some of the stocks in which I am dealing on commission at the present time. I invite the visitor meaning business to call upon me for a chat concerning them. I shall have pleasure in a plying by letter to the outside enquirer. One word in passing, I DETEST POSTCARDS. To my way of thinking they bespeak men of small calibre of mind, although I well remember that the late Mr. Gladstone made prolific use of this manner of replying to his multitudinous correspondents. But then there was some excuse for him, for he was an exceptionally busy man. You may take it, as a general rule, that the man using postcards is a close and small man, and the chances are he is bothering other brokers at the time of writing you, in the hope that he may be anie to purchase his stock (ahem! 100 share lot!) at about 1-16th of a cent cheaper than he can purchase from you. 12 ADELAIDE E.
