RUTS IN A MAN'S BRAIN

on the Physical Effects of

Made by Sounds—A Clever Lecture on the Physical Effects of Ordinary Things.

Dr. McIlwraith lectured last night in St. James'-square Presbyterian Church, under the auspices of the Young People's Association, on "Physical Effects of Ordinary Things." Solomon and other Biblical writers recognized these effects.

The influence of sound was very great; in fact, in cities it was a fact that ruts were worn in a man's brain by off-recurring and regular noises, such as that made by the trolley car. In one instance a gentleman moving from a car thoroughfare woke up every morning at the time of the first car and could not get to sleep again. These city sounds were especially pernicious to the sick. In one case the cars irritated a patient, then a sleighing party "scourge" went past; shortly after the students came home from the theatre; then the cats came out, resulting in the recovery of the sick man being retarded for several days.

Children should never be subjected to noise liable to shock, the continued talking to them by mothers being more or less harmful.

But No Vote Taken.

The Laurier and North Toronto Liberal Clubs held an interesting club debate in McBean's Hall last night, the subject for discussion being, "Resolved, That Street Railway and other like franchises should be controlled by the municipality."

The principal speakers of the evening were Dr. Adams of the North Toronto Clubwho took the affirmative side of the question, and W. R. P. Parker, who took the negative. Several others participated in the debate, but in view of the wide range of opinion expressed the president thought it better not to take a vote on the question.

Her lood, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous products of fermented, half-digested food.

Stuart's Dyspepsia Tablets is the only remedy designed especially for the cure of stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure. They increase flesh by digesting flesh forming-foods.

A whole package, taken at one time, would not hurt one, but would simply be a waste of good material.

Over six thousand men and women in the State of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

MAKES A SIGNED CONFESSION

Rather See His Children Dead Than Wife's Relations.

McPherson, Kansas, March 23.—John Moore, the Hutchinson murderer, to-day made a signed statement of his horrible crime. Moore murdered his five children with a hatchet and knife, and then burned the house over their heads. He and his wife had quarrelled and he claims they were about to separate. In the statement Moore says: "I had been feeling pretty bad for the past two or three days. The children were all in bed asleep. I turned the lamp down and went to bed. I then had one of my worst spells, and my head hurt me awfully, and everything seemed ficating before me, and the next thing I remember after this was in trying to get out of the house. I have a recoilection of going through a struggle like a dream that I half remember. All the recoilection I have about this is that I would rather see my children dead than to leave them in the hands of my wife's people. It was like a dream to me that I do not recoilect using the knife or hatchet."

Her Nerve Well.

Bridgeport, Conn., March 23.—At the close of the third day of the trial of Nancy A. Guilford, the midwife, charged with murder in the second degree, in causing the death of Emma Gill, the state is still engaged in endeavoring to prove the fact that the particular charge alleged has been committed.

The witnesses introduced by the state today testified chiefly to the disposition of the various packages,—containing the dismembered body of Emma Gill, after they were found, and the subsequent identification of the body as that of the Southington of the southingto

A HUNDRED REASONS

Can be given why Stuart's Dyspepsia Tablets are the best and most effectual cure for every form of indigestion.

They are in the tablet form, which retains their good qualities indefinitely, while liquid preparations become stale and useless with age.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to take.

After each meal dissolve one or two of them in the mouth, and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.
