Frank, N.W.T., April 30.—(Special.)—
After traveling from Calgary as far After traveling from Calgary as far Government's Instructions to Frank, N.W.T., April 30.-(Special.)as possible on the special train, William Pearce, Inspector Douglas and ten members of the Northwest Mounted Police arrived at the scene of the disaster at 4 o'clock this morning. Tho ped, the party promptly started over the against German importations into Can-American Federation of Labor it was pitch dark when the train stopmass of rocks thrown up by the explosion, or whatever it was that caused of limestone had fallen or been thrown.

Months to Clear Railway Line. At 6 o'clock, after two hours' hard work, Frank was reached. One end of the town, which numbered about 600 souls, was buried under 100 feet of rock, which filled in the river and covered the railway for nearly two miles. It will take months to clear the line, and the C.P.R. will probably build by another route or build a new line over

Citizens Say "Explosion." Several eye witnesses of the phenometeral occurrence were seen, and gave graphic accounts of the catastrophe. Nearly all agree that a gas explosion or a volcanic eruption took place be-fore the side of the mountain fell away which filled up the valley for mearly two miles long by a mile and a half wide. Citizens also declare that frequent explosions took place yesterday morning after the great slide, that smoke and gas were believed forth, and that they saw great rocks thrown high

pany, in maich H. L. Frank of Butte porter of or before April 10, 1903.

Gebo, general manager of the company. Three hundred men were employed last subject to surtax, may be certified by exporters (for entry for duty in Canada out about one hundred foreigners.

International Organization.

The longshoremen will be taken formally under the wing of the international organization to morrow, and thereafter they will draw strike 12 yrong the funds of the international organization.

S3 Persons Killed.

Eighty-three persons are known to have been killed, and the number is growing.

A miraculous escape was that of Sam Ennis and family, whose house was rolled ove three times, but the dimmates escaped with bruises. The railway contractor's camp of Pupore & McVeigh, was inted, and all the occupants killed. Three girls of the family of Alex. Leitch, formerly of killed. Seventeen were rescued alive, while their mothers and father and three brothers were instantly killed. Seventeen were were rescued from the mine. Twelve bodies have to many and the general tariff, an additional duty amounting to one-third of the duty under the general tariff on the mine. They will draw strike jay from the funds of the international union. Up to the present the men have been getting along on what money they managed to save during the summer. The funds of the local union are small, and there has been a steady drain on them since the opening of the strike, so that it has been impossible to pay the men anything.

Magnitude of the international union. Up to the present the men have been getting along on what money they managed to save during the summer. The funds of the local union are small, and there has been a steady drain on them since the opening of the strike, so that it has been impossible in pay the men anything.

OF SEVEN.

TWO unknown Welsh miners.
CHARLES MINNIE, foreman, and merous than usual. DAVE JOHNSTON.

JACOB TOMMIAN JACOB COREY.

NINE unknown miners. SIX unknown Russian Poles. This is only a partial list of the killed. A meeting will be held this evening to complete the list.

Caused by Rockslide.

William Pearce, Chief Inspector of Surveys, who is here looking after the situation for the Department of the Interior, interviewed by your correspondent, said: "The disaster was cause by a rock slide merely." River is Obliterated.

All the miners except two escaped. The slide extended fan-shaped. and crossed the valley to the opposite hill, about 400 feet above the valley, and one and one quarter miles from the base of Turtle Mountain. The river is toof Turtle Mountain. The river is totally obliterated for over a mile, in
some places covered by rocks 150 feet
deep. The river has ceased to rise,
and is now running thru the rock as
fast as it comes down. While the
stream is low, there is no danger. What
would happen in time of flood is not
certain. It is an awful and grand sight
and must be seen to be realized.

No Doubt of Cause. To-day's developments leave no room for doubt as to the character of the force which caused yesterday's terrible disaster here. Geologist William Pearce reached here this morning by special train, to represent the Domin-

ARE MORE SENSATIONS COMING?

The Conservative members of the legislature met in caucus Wednesday, but very little of what was done trickled thru to the ears of the public. There is an impression generally that the present calm denotes the conservation of a storm and that Mr. White wie followers the approach of a storm, and that Mr. Whitney's followers are but waitmost favorable opportunity to spring other disclosures of a I sepsational nature. These have been talked of for weeks, and some of the opposition were anxious to let everything go without respect to the investigation now pending, but the opinion of the majority is that it would be wise to take one thing at a time. The recent episode in Buffalo is one of the topics likely to be discussed after the Gamey enquiry.

Mayor Urquhart and Corporation Counsel Fullerton returned from Ottawa yesterday morning, where they were looking after the city's interests in respect to the proposed telephone bill. The Mayor is of the opinion that the Railway Committee will approve of the principle of Mr. Maclean's bill. He thinks there is no doubt that the city's right to control the streets will be conceded, but there is some doubt on the Dominion claims to have lost \$1400 thru an unfortunate deal, and came over to this country to dispose of some of their jewels, in order to meet the mortgage to the streets will be conceded, but there is some doubt or government's power to grant to municipalities the right the property of the Bell Company for the public benefit.

The chief difficulty which would be encountered, she government's power to grant to municipalities the right to expropriate

The chief difficulty which would be encountered, should more than one company be established, would be that of the facilities for exchanges and communications of the wires of the different concerns. These inter-Enquiry made last night elicited the changes will have to be provided for in the bill if it is to be made

vho figure prominently in the Gamey charges yesterday followed each other into the witness box and solemnly swore that they took no part in the shameful proceeding in which the nember for Manitoulin alleges he and Hon, J. R. Stratton were the princtpals. The names of Elgin C. Myers. private secretary to the Minister, and Chas, H. Chase, the Premier's messenger, are already well-known wher-It was Myers, according to the in-

> side, between Bank and Lyon-streets, and Ernest street, on the south side, between Bell and Turner-streets. I have therefore to request that the Council will appoint the Engineer or other officer to direct and supervise the work. I am, gentlemen,

Impudence of the Monopoly, less over ruled by the City Council he will prevent the Bell Telephone Company from touching the streets, even if And here it may be stated that both it is necessary to have the service of the entire police force. He thinks the time has arrived when it should be that they had no part in the transaction. Neither directly nor indirectly can ride rough shod over a municipal

ed itself inadequate on that occasion. In general the policy of Great Britain pleased him better than the policy of the United States re the tariff.

A. Broder (Dundas) saw no cohesion in the Liberal party. Parts of the alleged stable tariff hung between heaven and earth, and might fall at any moment. It was like a grocer's sugar that had not enough sugar to sweeten the tea and not enough sand for building purposes. To his mind, it was a miracle that what had been called a curse when managed by the Conservatives was hailed as a blessing the policy of the plane of the same distribution. Neither directly nor indirectly corporation.

This latest development on the telephone situation places the result before the public in a plainer light than before. It appears to be one of those cases where a grasping monopoly proposes to trample ruthlessly upon the civic rights and to deny to the corporation will likely be taken in the matter before the Council meets on Monday, but in the meantime there is a strong feeling among the aldermen to stoutly resist the attempt to corporation.

Conservatives was hailed as a blessing they say did they play the role of intermediaries in the affair, neither directly nor indirectly corporation.

This latest development on the telephone situation places the result before the public in a plainer light than before. It appears to be one of those cases where a grasping monopoly proposes to trample ruthlessly upon the civic rights and to deny to the corporation.

This latest development on the telephone situation places the result before the public in a plainer light than before. It appears to be one of those cases where a grasping monopoly proposes to trample ruthlessly upon the civic rights and to deny to the corporation the control of its streets. No action will likely be taken in the meantime there is a strong feeling among the aldermen to stoutly resist the attempt to corporation.
