

"Tell The People To Look For An Extra Choice Display of Beef on Saturday"—Buyer.

Our buyer has notified us that he has made an unusually lucky purchase of choice cattle and that it will arrive in time for Saturday selling. You who would like a tender, juicy roast for Sunday will do well to get here early tomorrow. Buying direct from the farmer and having our own slaughtering plants eliminates the middleman and allows us to sell at the low prices below. Quality first the motto of the big pure food store.

Stewing Lamb . . . 18c. lb.
Hamburg Steak . . . 22c. lb.

Rib Boil of the Very Best Beef, lb. . . 22c
Rump Roast Veal, lb. . . 35c
Loin Roast Veal, lb. . . 35c
Round Steak, nice and tender, lb. . . 37c
Picked Ends Bacon, lb. . . 25c
Pickled Spareribs, 12 1/2 lb. . . 12 1/2c
Blade Rib Roast Beef, lb. . . 30c
Breast Veal, lb. . . 20c

IDOLS, CROWNS AND OTHER ORNAMENTS OF AZTECS DISPLAYED

Collection of 300 Specimens Exhibited At Philadelphia.

FROM FRENCH FAMILY

Was Recently Sold At Paris Because Owners Became Impoverished.

Philadelphia, May 7.—Gold ornaments, idols, crowns, armor and other relics of the Aztecs, which date from the civilization of the Incas, Aztecs and other Mexican and Central and South American peoples are contained in a collection of 300 specimens recently placed on view for the first time in the museum of the University of Pennsylvania. The exhibit was only recently brought to its present completeness by the purchase of objects which had been in possession of a noble French family for generations, but which were sold at Paris because the family was impoverished. Gold was used by the Aztecs and Incas for ornaments, religious emblems and attire. These objects, shipped to Spain by Pizarro, Cortez and others in the sixteenth and seventeenth centuries were melted and coined. This explains the rarity of the original golden objects. A grave recently opened in Colombia proved a rich trove of them. It was apparently the burying place of a princess. Enormous golden ornaments were discovered completely to clothe a modern woman for her appearance in a ballroom. There were, besides a crown, a breast plate, girdle, armlets and various other appendages, rings from a great quantity of jewelry. Aztecs and Incas of amazing beauty are among the objects.

MASS OF RADIUM
A tube of radium generally made use of by physicians is about a shade under an inch in length and about an eighth of an inch in diameter. It contains 100 milligrams of radium bromide. This minute quantity is the product of twelve tons of ore, three tons of hydrochloric, five tons of carbonate of soda, one ton of sulfuric acid, ten tons of coal, burned in the operation of reduction, more than a month of work, and five hundred successive crystallizations.

Mennonites of Manitoba Decide To Join Exodus Into Mississippi Valley

Members of Church After All-Day Conference, State They Will Accompany Saskatchewan Brethren To United States.

PLUM COULEE, Man., May 6.—The Mennonites of Manitoba after an all-day conference held on Tuesday by the members of the Mennonite Church at the village of Rhineland, decided to leave Canada and seek new homes in the state of Mississippi, where they have secured options along with the Mennonites of Saskatchewan, in large tracts of uncultivated land. They hope to be permitted to have their own schools conducted under the direction of their own church at which German is the only language and the Bible lesson book. Preparations are being made by them to move after this year's crops have been harvested and delegates have left for the Mennonite settlements near Swift Current and north of Saskatoon to advise them of the difficulty of their compatriots in Manitoba.

RETAIL STORE CLERKS DISSATISFIED AT ACTION OF RETAIL MERCHANTS

Plan Big Mass Meeting of Public Protest—Want Shorter Hours.
WINDSOR, May 6.—Although all stores in Walkerville and Windsor were closed this afternoon, members of the Retail Store Clerks' Union are dissatisfied with the action of the Retail Merchants' Association in dealing with the request of the employees for shorter working hours, and at a meeting attended by between 300 and 400 members of the union, plans were completed for the holding of a big public mass meeting to advise them of the border will be invited to hear the grievances of the clerks. President E. J. Flannery and Secretary John F. McKay, of the trades and labor council, were present, and promised the support of organized labor in the Border Cities to the campaign. A committee from the central labor organization will be appointed to arbitrate with the merchants.

BRANTFORD LABOR MEN APPEAL FOR PLAYGROUNDS

Plumbers' Employers Agree To Increased Pay and Eight-Hour Day.

BRANTFORD, May 6.—The Trades and Labor Council has appealed to the city council for supervised playgrounds for the kids. Two kids were conducted last year under the auspices of the city council and were wonderfully successful in their efforts in which they were placed. The ultimate objective was to have six such playgrounds at strategic spots throughout the city. WILL BE NO STRIKE.

There will be no strike of journeymen plumbers having agreed to a wage of 55 cents an hour for an eight-hour day. Only the street railways and the electricians are still negotiating. **SHORTAGE OF HOUSES.** Single men cannot be housed for district farms, according to the local employment office, while married men, several of whom are waiting to be housed, cannot be provided with homes by the farmers who are after help, owing to a shortage of hired men's houses.

FIVE CALVES, 17 PIGS, BARN AND STABLES ARE DESTROYED BY FIRE

Children Playing With Matches Believed Responsible for Blaze.

STRATFORD, May 6.—Fire this morning destroyed the fine bank barn and stables, together with a straw shed on the farm of Roy Henry of Warwick, a few miles from the city. Besides the buildings, five calves, seven pigs, just ready for shipment, several tons of hay, a large quantity of grain and farm implements were burned. All horses and cattle were saved. Mr. Henry was in the field when the fire started. Children are believed to be responsible.

BURGERS BUSY. Burgers have notified their field from Stratford to Mitchell, where the store of the Whyte Packing Company was broken into and \$40 taken. Four other attempts were made without success.

The Vickers guns, allotted to the Stratford batteries, Machine Gun Company, have arrived and will be in readiness for Friday night's parade at the armories, when instruction on the guns will be commenced.

CANNOT GET OIL. The city is up against it for crude oil for dust laying purposes. City Engineer A. B. Manson states that it is impossible to secure fulfillment of orders from the States.

The new addition to the Kindel Bed company plant is nearing completion and should be ready for occupation in a short time. The addition is 175 by 80 feet, three stories and basement in plan.

SEEKING HER SON. Mayor Stevenson has received a request from Mrs. E. P. Crosby, Kent, England, for information regarding her son, Sidney, aged 22, last heard of at Stratford or Paris. Eight craps-shooters donated \$20 and \$25 costs each to the city coffers in police court today.

CANADIAN CLUB OF NEW YORK MAY BE MADE FOR MEN ONLY

Some Members Urge More Men's Activities.

HAD SUCCESSFUL YEAR

Many Prominent Canadians Addressed Members in Season Just Past.

New York, May 6.—(By Canadian Press).—The annual meeting of the Canadian Club of New York will be held tomorrow evening in the club rooms in the Belmont Hotel. The club has had a successful year both from the social and financial standpoint. The reports to be presented tomorrow night will show an increase in membership and a widening of the sphere of activities of the club during the past twelve months. A number of prominent Canadians, including Gen. Sir Arthur Currie, delivered addresses under the auspices of the club, and the increased interest of New Yorkers in Canada and Canadian affairs was reflected in the large attendance at these events.

What is declared to be the only problem which officials of the Canadian Club have had to worry them will be thrashed out at tomorrow night's meeting. Ladies have very liberal privileges in connection with the club under the present rules. There are special parlors for members' wives and also a small dining-room, where they may hold luncheon parties. The majority of the social functions conducted by the club are participated in by the ladies. Some of the members take the view that the club should be more of a man's institution. They favor more "smokers" and fewer dances, and declare some of the ladies do not stay put in the rooms allotted to them but wander into the men's department; yes, even into the sacred precincts of the card room, so that a man may not give vent to a good old-fashioned Canadian cuss in his own club without danger of being overheard by some member of the fair sex. It is said that these, and similar hardships, will be reviewed by the "men only" section of the membership at tomorrow night's meeting. The champions of the ladies will argue for the retention of the present privileges for members' wives, and an interesting debate is in prospect.

Arthur Knowlson, the present president of the club, and Douglas R. Henderson, are on the slate for the presidency. There will also be contests for all of the other offices.

EXPECT TO REACH OBJECTIVE ON FRIDAY

KITCHENER, May 6.—At the final luncheon of the Y. M. C. A. campaign today it was announced that the canvassers had brought in a total of \$148,745. The objective is \$175,000, and it was stated that it is expected when the final returns are reported tomorrow morning that the objective will have been realized.

PUBLIC MARKETS TO SELL FOOD ARE BEING INCREASED IN JAPAN

Fifty More Established To Bring Down Prices.

Tokio, May 4.—Fifty more public markets to sell food and other necessities will be established here and in the suburbs by the Tokyo prefecture. The number of public markets opened last year to adjust the price of commodities having shown a slump in prices of stocks occurred today on the Tokyo exchange. The drop was most noticeable in the price of rice and silk and declined, due to it is believed, to the tightness of money market. For the past week prices of various rice, have had an average decline of 6 per cent.

HOTELKEEPER FINED \$200 AND COSTS FOR SELLING BEER OVER 2 1/2

Defence Claims Beer Was Bought as 2 1/2 Per Cent Varsity.

GALT, May 6.—Charles Schmalz, proprietor of the Queen's Hotel, Preston, was this afternoon fined \$200 and costs by magistrate J. R. Blake, for having sold beer over 2 1/2 per cent strength. Information was laid by Inspector Beckett, who took samples of beer from the Queen's Hotel, and on having an analysis made found they were over strength. The defence claimed that the beer was purchased for 2 1/2 per cent variety from the Hamilton Brewing Association, and was sold for the same. This is the third case of this kind in this county within two weeks.

The staff of the local telephone office this evening held an enjoyable and successful dance at the city hall, Skinner's orchestra of London providing the music.

PRESENTED WITH PURSE

Rev. C. G. Farquharson, pastor of the Presbyterian Church at Brantford, who has accepted a call to Newbury, was presented with a purse of gold by his congregation.

The death occurred early this morning of William I. Murray of Cambridge street, aged 67. He was born at Weston, had lived in Plattsville 22 years and came here three years ago. His wife and one daughter survive.

WOULD PROBE ALL CAMPAIGN EXPENSES

WASHINGTON, May 6.—Investigation of all presidential campaign expenditures, Republican and Democrat was proposed in a resolution introduced today by Senator Borah, Republican, Idaho.

DUKE OF ABRUZZI ON INVESTIGATING TRIP IN AFRICAN COLONY

No Longer Interested in the Arctic Exploration.

DEVELOPS AGRICULTURE

Making Effort To Provide a Source of Income and Food for Italy.

Rome, May 4.—Arctic exploration and shooting the savage polar bear have no allurements at present for the Duke of the Abruzzi, who is now engaged in the equally scientific if less hazardous task of investigating the commercial and agricultural possibilities of the Benadir Colony, East Africa, with a view to making it a source of income for Italy, and even eventually of rendering that country independent of other nations for her supplies of cotton and cereals.

The duke, in addition, intends to explore the sources of the Uebi Sebel River, which, rising in the plateau of Hamar, toward Abyssinia, passes through the Italian colonies to the sea, and, it is believed, can easily be rendered navigable for small boats, besides being invaluable as a source of irrigation for the extensive agricultural enterprises which the duke hopes to initiate in Benadir.

The first news has just arrived of the expedition which started last December from Mogadiscio. An exhaustive study has already been made of the winds, the climate and the rainfall of the country. Engineer Agostinelli, who is accompanying the expedition, and who has done considerable work on the rivers and canals of the Lower Nile, considers that it will be comparatively easy to utilize the waters of the Uebi Sebel for a system of canals, to irrigate that part of the colony which now suffers from drought, which will more than quadruple its productive power.

The Duke of the Abruzzi, with the experts who have accompanied him, are setting up two big experimental farms, where it will be demonstrated what immense harvests of cotton, dourra, sugar and coffee can be obtained in this country through irrigation, a system of intensive culture, and the use of modern agricultural machines.

The ex-German cargo boat, now called the Carlo Pisacane, which carried a large shipment of dourra from the colony, a grain which resembles maize and can be used, together with ordinary flour, for bread. It has also been proved that the breeding of cattle in Benadir can be greatly increased so that supplies can be sent to Italy of meat and hides.

All this work is being done, it is announced, entirely at the expense of the duke, who desires that Italy's colonies should be developed, and hopes that similar work may be started in Libya and Cyrenaica.

TO ENCOURAGE PRODUCTION

Berlin, May 7.—The Prussian Diet has passed a bill for the cultivation of waste lands by the formation of associations for improvements to the soil. The object is to enable more people to live on the land and grow food.

ENGLISH PROFESSOR LIVES FOR SIX DAYS IN SEALED CABINET

Experiment To Calculate the Amount of Oxygen in Blood.

Cambridge, Eng., May 4.—Joseph Barcroft, a reader of physiology at King's College here, has lived for six days in a hermetically sealed glass box.

The experiment arose out of a 30-year-old controversy as to whether it is possible to calculate the amount of oxygen in the blood from a knowledge of the amount of oxygen in the breath. The test was also made to demonstrate whether it was necessary that air should have oxygen apparatus when flying at great heights. It proved that oxygen was necessary to flying men, but it did not show to what height they could fly with safety.

While in the box Barcroft kept a record of his sensations and made scientific observations. He said he suffered from sleeplessness, but otherwise did not experience much inconvenience except the last day when the atmosphere became extremely rarified. He then had headaches and nausea. He was watched continually while in the box. He took food and slept in two small compartments fitted up with wicker chairs, a table, a small bed, a bicycle on which he exercised every morning.

EXPECT JAPANESE TO ENTER MEXICO IN LARGER NUMBERS

Tokio, May 4.—Indications of an increased Japanese population in Mexico are pointed out by the newspapers here as a result of the proposed re-establishment on April 1 of the postal money order system between Japan and that country. The American designation of dollars and cents will be used, and the amount of a single order will be limited to not more than \$100.

AutoStrop Razor —sharpens itself

EXPERIENCE shows that only a sharp blade can give a perfect shave, also that a blade cannot remain sharp without stropping.

Couple these facts with the further fact that the AutoStrop Razor is the only safety razor that sharpens itself, and you will be in no doubt as to which safety razor to use.

Any dealer will demonstrate the AutoStrop Razor to you, guarantee satisfaction or refund of purchase price.

Only \$5.00—complete with strop and twelve blades in an attractive assortment of cases to suit any purpose.

AutoStrop Safety Razor Co., Limited
AutoStrop Building, Toronto, Canada
