pecial Cable to The Toronto World. LONDON, June 28.—Despite the oc cupation of commanding positions in he Trentino by the retreating Austrians the Italians have made further considerable advances and they have dislodged the enemy from many important defences. In the Lagarina valley they captured trenches near Malga Sugna, between the Posina and the Astico they captured Monte Giamondo, north of Fusine, and Monte Caviajo, and cavalry detachments pushed on to Pedescala. On the Asiago plateau they occupied the south-ern sides of the Assa valley and reached the southern slopes of Monte Ras-ca, Monte Interroto and Monte Mosca, Monte Interroto and Monte Mosciagh. These strong points were held in force by the rear guards of the enemy. Farther south, after carrying Monte Colombara the Italians began to approach Gatamarra valley. They also captured some redoubts and trenches near Friekofel on the Upper But. On the Isonzo they made raids and took 353 prisoners and two machine guns.

away patent medicines and nauseous concoctions and take simple fluxated fron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of fron in the blood. Iron is absolutely necessary to enable your blood to change food into enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in the large way.

sequence you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were alling all the while, double their strength and endurance and entirely get rid of all symptoms of dypepsia, liver and other troubles in from ten to fourteen cays' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless.

Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray, while many another has gone to inglorious defeat simply for the lack of iron.—E. Sauer, M. D.

NOTE.—Nuxated Iron, recommended shove by Dr. Sauer, is not a patent medicine nor secret remedy, but one which is well known to drussists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is assily assimilated, does not injure the teeth, make them it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit 2100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent or over in four weeks' time,
