

JARVIS COLLEGIATE IS SHORT OF ROOM

Building Long Condemned, Says Principal, at Opening Exercises.

Jarvis Collegiate will soon have new and far more commodious quarters if between them, Dr. John Noble, the other members of the board of education and the principal of the school, John Jeffrey, can influence the city council to grant funds sufficient for this purpose. In his address to the students at yesterday afternoon's annual commencement exercises the principal pointed out that the school lacked a room to hold half of its 525 day pupils and none large enough to hold its 350 night students. It lacked also anything in the shape of an auditorium, and there was no gymnasium worthy the name, while the stairs were not only rickety, but bid-fashioned, and unsuited to present-day needs. There was absolutely no convenience for science laboratory work, and during the past fifteen years all reports to the provincial department of education and to the board in Toronto had condemned the present building from every point of view.

Two hundred students and friends were present at the ceremony, which was given added interest by the address of Rev. J. Bruce Hunter and instrumentalists by Albert Proctor, a musician of parts, and songs by Miss Mabel Davenant, a sweet singer, member of last year's graduating class. In his address to the students the Rev. Mr. Hunter emphasized the fact that the students had graduated out of the school of text books, instructors and classmates into the greatest of universities, that of life. He asked them to base the structure of this university upon the seven principles fashioned by John Ruskin in his studies upon architecture, truth, obedience, beauty, justice, reason, conscience and imagination in that order. He said that the greatest of all structures, character. Finally he observed that those who were to solve for the province of Canada the most vital problems and thus make it the greatest of all dominions were not the citizens of today, but those of the morrow, the boys and girls of such institutions as Jarvis Collegiate.

A brilliant student. The valedictory was rendered by Miss Margaretta Spence, one of the most brilliant students which Jarvis Collegiate has ever graduated. She traced the history of the past five years during the course of which the present graduating class had run its gamut of service and the arts. Miss Spence, who gained the second Edward Blake scholarship, entered into the University of Toronto, matriculation first in classics, modern languages, mathematics, biology and physics. Other notable graduates were Edward Rotenberg, who gained the eighth Edward Blake proficiency scholarship; John V. Horne, who won the Harold Matthews scholarship; Harry Orestein, who gained the Albert Matthews prize matriculation scholarship; Robert Temple, who gained the centenary athletic prize; Miss Frieda Shaw the Chase prize in English; Luis Epstein the cup and medal for general proficiency in cadet work; Nat Krieshoff the cup for the best section of cadets, and K. Burnham, S. Davis, A. Track and H. Gorbach the cadet athletic prizes.

Many notable men and women were present, and all the members of the faculty, among those present being Dr. John Noble, Dr. Carloline Brown, P. M. Douglas, S. J. Brown, E. C. Beer, M.D.

NUMEROUS LETTERS READ IN ORFORD CASE

The reading of numerous letters occupied the whole of yesterday afternoon at Orford Hall, when the Orford case was resumed before Justice Orde. Mrs. Frederick Orford is suing her husband, a Toronto real estate broker, to recover \$600 a month alimony.

Peter White, K.C., counsel for Mrs. Orford, took upon himself the task of wading thru the correspondence. W. R. Smyth, K.C., is appearing for the defendant. Mrs. Orford was on the witness stand most of the morning, but her evidence in general was scarcely suitable for publication. The further hearing of the case was fixed for Monday next.

Citizens' Mass Meeting AT MASSEY HALL ON Monday, November 29 AT 8 P.M.

Everyone interested in the welfare of Toronto should make it a point to attend this meeting.

All particulars of the Federation for Community Service Campaign will be presented.

Premier E. C. Drury and Rev. W. A. Cameron will speak.

SIR JAMES WOODS, Chairman.

ADMISSION FREE

20,000 PEOPLE ARE NOW TAKING ASPROLAX

New Scientific Discovery Is Rapidly Becoming Sensation of the Drug Trade Throughout Canada.

BREAKS UP A COLD BY REMOVING CAUSE

Thousands Using It With Gratifying Results—Great Superiority Over Ordinary Remedies Clearly Demonstrated.

Remarkable as it may seem, over 20,000 people in Toronto and vicinity are now taking Apsrolax, the new scientific treatment for colds, which is rapidly becoming the sensation of the drug trade throughout Canada.

The great superiority of Apsrolax over the ordinary remedies heretofore prescribed has been clearly demonstrated, and people everywhere have been quick to recognize it as a preparation of remarkable merit.

The Lyman Brothers Drug Co., Ltd., have just placed their third order for one hundred gross, or 14,400 bottles, to supply the drug trade in this immediate territory, and it is with difficulty that the manufacturers have been able to supply the large and rapidly growing demand.

REQUEST SPECIAL SPRACKLIN TRIAL

Government Not Likely to Grant Application of Minister's Council.

The request was made to the Ontario government yesterday by R. L. Spracklin, M.L.A., counsel for Rev. J. O. L. Spracklin, who is charged with selling a Sandwich hotel-keeper, that a special session of the assembly be held to try his client. The request, it is understood, did not meet with any particular enthusiasm when, among other things, the cost of summoning juries, counsel and judge was considered. Further, as far as could be learned yesterday there is no precedent in Ontario for granting such a request. The attorney-general declined to say anything about Mr. Spracklin's visit. It was explained yesterday that Rev. J. O. L. Spracklin was not the appointee of Attorney-General Raney, provincial Secretary Nixon, when the license department was under his jurisdiction, selected him for the position.

DEATH OCCURS OF ROBERT J. VILLIERS

Another old resident of Toronto has passed away in the person of Mr. Robert J. Villiers, 1022 Broadview avenue, who died on Friday, Nov. 25, 1920, following a protracted illness, due to cancer. Mr. Villiers was born in Toronto in 1850, and was city agent for the Merchants Fire Insurance Co., with which he had been connected since its incorporation. He is survived by his brother, Wm. Villiers, of 214 Berkeley street. The funeral will take place from the home of his brother on Monday, Nov. 29, at 2:30 p.m., to Mount Pleasant Cemetery.

BUILDING PERMITS ISSUED.

The city architect's department yesterday issued the following permits: J. E. Marra, addition to dwelling, 113 Balaam avenue, \$3,000; J. J. Knight, brick dwelling, 238 East Eglington avenue, \$4,000; Dr. Lorrie Cook, store, dwelling and garage, west side of Glen road, opposite Beaumont road, \$15,000, and Canadian National Railway, addition to drive shed, Derby street, corner Erin street, \$5,000.

CHARGE IS THEFT.

James Bruce, 19 years of age, and no home, was arrested at 8:20 last night by Detective Alexander of Police Station No. 2, West Toronto, and charged with the theft of an overcoat from Abrams Crompton, 47 Frejama avenue. The coat was taken from the Moore Hall, 234 West Dundas street, on the evening of the 23rd. Bruce had the coat on when arrested, and it was practically ruined from sleeping in sheds and cars.

date territory, and it is with difficulty that the manufacturers have been able to supply the large and rapidly growing demand.

The phenomenal success of the preparation can be readily explained by the fact that it is a real specific and breaks up a cold by removing the cause, while the great majority of the present day remedies relieve the symptoms only. Thousands of people who have used Apsrolax state that it is almost magical in its effect, and are recommending it to their friends.

Apsrolax is a combination treatment, and acts as an antipyretic, which reduces the fever; an expectorant, which loosens the phlegm, relieves the congestion and stops the cough; a laxative which opens the bowels, and an antiseptic which retards germ growth and prevents the spread of the infection.

It is delightful to take, and produces no unpleasant after-effects whatever. Even children take it readily, and it acts on all, both old and young, with the same gratifying results. If you are suffering from a cold, go to your nearest drug store and get a bottle of Apsrolax. Open it on the spot; take one teaspoonful, repeat the dose in one hour and again in two hours. If by the time you have taken the third dose you are not cured and delighted, take the bottle back and your money will be refunded without question.

REQUEST JUDICIAL SEAT AT COCHRANE

Northern Ontario Suggestion Made to Public Service Commission.

Among recommendations suggested to W. D. Gregory, chairman of the public service commission, yesterday afternoon, to further the development of the new territory ranging from the boundary of Quebec, 340 miles west to the town of Grant in Northern Ontario, is the formation of a judicial seat at Cochrane. Both Malcolm Lang, M. L. A., and John M. Greer, the former from South Porcupine, the latter from Cochrane, made the recommendations, and they were submitted entirely irrespective of political considerations. They pointed out that the present population of this new area, and the investments which the judicial business for Timiskaming was done within the proposed new area. At present it was necessary, said Mr. Greer, for litigants to go to Haliburton for judicial purposes. They further asked that the relief granted by the late Sir James Whitney, but stayed because of the expense of the war, be now granted. It was noteworthy, they said, that during the past few years the population of the proposed new area had tripled and investments had been dug in to the extent of millions of dollars. As evidence of the rapid and increasing growth of the territory were the varied industries, chief among which was the pulp mill now capable of turning out a hundred tons of ground wood, sulphite and paper, and which would within a very short time turn out easily 500 tons a day.

The representatives asked the commission to consider the feasibility of having the present district judge at Haliburton holding four notary commissions a year at Cochrane, the centre of the new district, and of having the supreme court hold two sittings a year in the proposed new judicial centre.

Injunction Asked Against Importing British Planes

New York, Nov. 26.—Counsel for the Wright Aeronautical Corporation applied to Federal Judge Hand today for an injunction restraining Handley Page, Limited, of England, from bringing into the United States 10,000 airplanes and 34,000 engines made abroad for war purposes. The attorney for the United States corporation declared the influx of "British government surplus war junk" would ruin the business of clients and other airplane manufacturers of the United States. Decision was reserved.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and flatters is caused by a lack of sulphur in the hair. Our grandmother made a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful gray shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyneth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or your brush with it and draw this thru your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyneth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

MANY WORKERS FOR COMMUNITY DRIVE

Fifteen Hundred Toronto Citizens Offer Services in Campaign.

Headquarters of the campaign for the Federation for Community Service are beginning to put on a very business-like appearance in preparation for the four-day drive of next week. The old Salvation Army Hotel, southwest corner King and Church streets, has been transformed, placards announcing the coming big work, face the pedestrian as he passes the window, and the information bureau with telephone and attendant meets the visitor as he enters. Upstairs the offices are filled with the hum of men and women and the click of typewriters, details being yet in process of evolution.

When The World called yesterday, District B, was receiving instructions from its chairman, Guy R. Roach, and its women-president, Miss D. McCarron. The general chairman, Mrs. Adam Balch, was also on hand getting acquainted with the workers. Mrs. H. D. Warren has consented to act as chairman of the special sub-committee of the women's section. George Howell, head of the organizing committee, stated that in every division except that in which the financial and wholesale area is situated, parallel teams of men and women would co-operate according to instructions.

Fifteen hundred of Toronto's citizens, both men and women, have placed their services at the disposal of the organization committee, and these men and women will call upon Toronto citizens on Tuesday, Wednesday, Thursday and Friday of next week. They are doing this work entirely from a sense of duty in a good cause. They are absenting themselves from their business, giving their time and energy for the benefit of all Toronto citizens. Some of the men most active in the campaign will be away from their offices for from one to three days, and will go all along the line, from the employ who whose employer is good enough to let him off for a day, or a half a day to help in this good work.

The Federation for Community Service was organized to relieve these organizations of financial responsibility, and thus enable them to devote their entire energies to the work of relieving the distressed and afflicted. Forty-seven of these organizations are members of the federation. Two million more people need membership, which will, without doubt, be granted, and others have the matter under consideration.

As to the amount of contribution, the federation says to the public: Do not forget that, while business may not be as good as we would like to have it, yet, for this very reason, they will be more people needing assistance, and consequently more money required to help them. Last year the budgets of some of the organizations were so pared considerably that they were unable to carry on their work. This year the budgets of all of the organizations will be required. A new fund of \$450,000 will be required. The Argonauts will be granted, and Toronto gave this afternoon goes to the campaign.

ANOTHER DIAGONAL ROAD STRIP GOES

Works Committee Abandons Land Running to Don Mills Road.

The committee on works yesterday threw another piece of the diagonal road system of the city into the discard when they accepted the suggestion of commissioners that the diagonal running from Coxwell avenue to the north end of Green road at the north end of Green road avenue be abandoned. Recently the diagonal running from Fulton, same point on Don Mills road, was abandoned on the recommendation of the city surveyor and now the railway board will be asked to cancel the portion of the diagonal on the ground that it would be a detriment of land in such a way as to depreciate their value. Both these diagonal roads lead in the general direction leading to Leaside, which the Toronto Ratepayers' Association is advocating and the plan cancellation is likely to meet with opposition when it comes before council.

Commissioners Forman and Harris and City Solicitor Johnston, who recommended the amendment of the city plan, write to the committee as follows: "Sheet No. 18 as originally approved by council on Oct. 15, 1913, made provision for a diagonal road connecting the northerly extension of Coxwell avenue with the southerly end of Don Mills road. Further investigation reveals that this road, which was designed to be 86 feet in width, would pass thru small holdings of about five acres in such a manner as to very seriously depreciate the value of the land for development purposes. It then becomes a question whether this road when laid out will be of sufficient value and importance for the purposes to justify the cancellation of the small holdings above referred to. After careful consideration your officials have come to the conclusion that this diagonal road could well be eliminated from the city plan, since it would provide means of communication very little superior to the regular development of the property in conformity with property boundaries.

"We beg to submit herewith blue print of sheet 18 showing development as proposed, and indicating this diagonal road, and ask that your council will approve the same and authorize its inclusion as part of the city's general plan to be submitted to the railway board."

The recommendation was adopted without comment.

Overcoat Sale!

Down Come Prices

Every man's Overcoat in stock in Dineen Store is reduced in price. Wonderful bargains today—including the finest class of imported English coats. The following prices will bring men from everywhere to take advantage of the reductions. Come in through the day. Store closes at 6.

WELL-KNOWN TORONTO DOCTOR PASSES AWAY

John B. Hall Had Practiced in the City Forty Years—Was Over Eighty.

Dr. John R. Hall, M.D., M.C.P.S., a well-known Toronto citizen, died at his home, 323 Jarvis street, shortly after noon yesterday. He had only been ill a short time, and was following his practice ten days before the end came. He carried on his profession in the city for over 40 years and made a specialty of children's diseases and troubles, kindness and gentleness characterizing all his actions.

Born in Lincoln, England, 44 years ago, the son of a doctor, Dr. Hall was brought as a child to Cleveland, Ohio. He entered the Medical College at Oberlin, Ohio, and took his medical degree in 1860, and practiced in Cleveland, Ohio, for six years. In 1866 he removed to St. Paul, Minnesota. Dr. Hall served during the whole of the American War as a surgeon. Coming to Toronto in 1876, he bought the corner of Jarvis and Carlton streets, where he had lived ever since. His great hobby was the breeding of horses. He was instrumental in establishing the American-Arab breed of horses, having stables both at Toronto and at Oyster Bay, Long Island. He was an adherent of the Church of England.

Surviving are three sons, Henry C., Cleve V., of New York, and Charles C., of Toronto, and two sisters, Mrs. B. T. Carter and Mrs. Alice B. Clark, of Los Angeles.

LECTURE ON EDUCATION.

The people of Toronto will have a rare opportunity for hearing a brilliant lecture on education at 8 p.m. today, when the Hon. P. C. Claxton of Washington, commissioner of education for the whole of the United States, will speak on "Education, the Basis of a Nation's Development and Financial Stability," in University Convocation Hall. Those who have heard Dr. Claxton on his last visit to Toronto will be glad to hear him again. Dr. Claxton is recognized as one of the most eloquent speakers of the United States.

VETCRAFT WORKMEN GIVE COLLEAGUE PRESENT

An interesting presentation took place at the Vetracraft workshop, 200 College street, on Thursday evening, when the disabled soldiers of that institution gave Norman L. Burnette an address and ebony walking cane on the occasion of his retirement from the staff of the D.S.C.R. to take up other work. C. Snell made the presentation and alluded to the many good qualities of Mr. Burnette, who suitably replied.

QUIT ME KID

Take a Gl Back H

No man of regularity can flushing the a well-know uric acid, when they become strain, get a the waste an then we get tism, headac ousness, dizz urinary disc kidneys.
