Any farmer who has not at this time fully prepared his land by manuring and plowing, and finished the majority of the work noted in our last month's number, may consider his season as lost, for no industry can now retrieve him unless the season be backward.

To such as have been more industrious, we would advise a careful reading of our work for last month, and after completing the work there noted, then to proceed with the following, if not anticipated from an early spring.

Sis — A Mr. Thomas Clark, a Settler at Lake George, was for a considerable time seriously afflicted with a Complaint of the Liver, together with the Gravel. His medical attendants, after trying all their skill, candidly told him cont his case was hopeless, and any furthur efforts uscless in this situation, and when experting every day would terminate his existence. A friend recommended him to try Holloway's Pulls, and as a forform hope he did so, the first gave him considerable releif, he therefore persevered in aking them according to the directions, and is now restored to health. He will feel great pheasure in confirming his statement, or even make an affiliativit to the same effect, should it be required.
