SALMON SEASON JUST CLOSE WAS GOOD ONE

Something About the Local and Visiting Sportsmen and the Luck They Had on Their Fishing Trips--Hon. E. A. Hitchcock's Big Catch.

What has proved one of the finest seasons for salmon fishing that this province has ever known closed on Tuesday last September 15, and the fishermen who wandered about the coast in search of the younger, and smaller grise are thoroughly satisfied with the success attending their efforts. And they might well be satisfied for the catches made, not on paper, but with line and fly were chronicled them to a sublimely would at once be named Annanias.

But the catches were really in the nature of record breakers. All the favorite streams and resorts seemed to be more prolific than ever before and although monster fish were reported as not plentiful yet the average fish was heavier than in previous years.

Among the St. John fishermen who have been successful in their quest for salmon this year was James F. Robertson. Mr. Robertson spent the month of July in his comfortable camp on the Upper Miramichi, a tributary of the Restigouche. Mr. Robertson, who is also an ardent fisherman, has had a most successful season. He has taken a total of 128 fish.

These returned satisfied, S. A. Jones, F. W. Fraser and Alexander McMillan spent two weeks there and returned with sixty old salmon and grise.

One of the most successful visitors of the season on the Metepoula was Hon. E. A. Hitchcock, secretary of the Interior in the cabinet of "Strenuous Teddy." Mr. Hitchcock with two friends visited there early in July and after three weeks fishing the aggregate catch numbered 128 fish.

The Tobique Salmon Club on the Tobique River, which is composed mostly of Americans, principally residents of Philadelphia, had a successful season. Some twenty rods were fishing the club's limits and there were no disappointed ones.

Mr. Brown was most enthusiastic over his trip. "One day," he said, "His Lordship Bishop Dunn, of Quebec, was invited into camp and dined with two fellow sportsmen--Mr. Coleman and Rev. Mr. Doory. The bishop was surprised that day when he saw Mr. Brown's boatmen bring home his three salmon and one grise from the forenoon's fishing."

TEDDY WILL TRY IT AGAIN

Roosevelt to Make Another Effort to Secure A PERMANENT PEACE

He will Entertain Russian and Japanese Envoys at Oyster Bay, Where He will Make Strong Try to Bring Them to Terms.

PORTSMOUTH, Aug. 18--At midnight Assistant Secretary Peirce was hurriedly called to the Hotel Westmouth where a long message was awaiting him from the president. He immediately wrote a lengthy reply. Later he was called to the telegraph instrument and for half an hour carried on a conversation by telegraph with the president who was at the other end of the wire at Oyster Bay.

At 12:30 a. m. the telegraphic conversation with the president ceased and Mr. Peirce left the hotel in his automobile. He said he was going home but beyond that declined to make any statement. He can tell you nothing," he said to all the anxious inquirers of the newspaper men.

The Associated Press has reason to believe that the purpose of the president's conversation with Mr. Peirce was to arrange for one of the Russians to go to Oyster Bay. The president is understood to be already in communication with the Japanese through Prince Kasako. Mr. Roosevelt is undoubtedly expected to make a last effort to induce the warring countries to compromise.

DR. McLEOD HOME WILL KEEP IT

Rev. Joseph McLeod of Fredericton Returns From World's Baptist Congress in London.

Rev. Dr. Joseph McLeod of Fredericton, N. B., returned home yesterday from the Baptist World's Congress in London. He was accompanied by his wife and two children. Dr. McLeod was in London for a period of six weeks, attending the congress which was held at the Crystal Palace. He was elected to the position of vice-president of the congress.

INSPECTOR CARTER HOLDS VERY PRONOUNCED VIEWS

St. John: Could Provide for Modern Commercial Education, Manual Training and Household Science at Comparatively Small Outlay.

It is a notable fact that among all who are up to the present time have been approached on the subject of manual training not a single dissenting voice has been raised, but on the contrary everyone favors it most enthusiastically, and would welcome its introduction in the public schools of St. John.

The subject has been talked of more or less for some time past, and at a meeting under the auspices of the Fabian League, held here on the 13th of January last, Inspector W. B. Carter read an interesting paper on "Modern Education," in which he referred to manual training. Mr. Carter in introducing his subject spoke of education as "the chief business of the state," and referred to the position of the countries of the world today as being governed by their expenditure of money for common school education.

Manual training schools had now been established all over the world, and he spoke of the work in this connection done by Sir William Macdonald throughout Canada. St. John was now the only city of any importance in New Brunswick that did not make any provision for manual training, and in this instance, Halifax was leading the way in the maritime provinces with a fine building devoted entirely to manual training and domestic science.

FELL FROM CAR; WAS BADLY HURT

Jeremiah Drake, of the Customs House, Had a Serious Accident Last Night.

Signal Station Master Jeremiah Drake, who was hurt last night while getting off his car, is recovering from his injuries. The accident occurred on the street in front of the Customs House. Drake was driving his car when it slipped on a patch of ice and overturned.

Drake was taken to the hospital where he is being treated for his injuries. He is expected to make a full recovery. The accident occurred at approximately 10:30 p.m. last night.

VERY GOOD IN AUGUST

St. John Hotel Men Say Tourist Traffic HAS PICKED UP

June and July Were Bad Months Compared With Other Years, but the Present Month is Well Up to the Mark.

Tourist travel for August has thus far proven a success for the hotels of St. John. The month has been a very good one for the hotels, and the present month is well up to the mark.

The hotels of St. John are reporting a steady increase in tourist traffic. This is due to the fact that the weather is very good and the scenery is beautiful.

FANATICAL DOUKHOBORS AND THEIR LATEST MARCH

Further Particulars of the Pilgrimage of the Thirty-two Who Sought to Imitate Adam and Eve with the Fig Leaf Eliminated.

WINNIPEG, Aug. 18--An special correspondent of the Free Press writes from Yorkton: "The latest example of Doukhorbism is in some respects the most peculiar. The facts are briefly these: Under the leadership of some men, who have already given the authorities trouble, a band of men, women and children, 18 men, 16 women and 5 children, collected from various villages north and north-east of Yorkton, marched to within two miles of the town, drawing a wagon loaded with rough provisions. At the ford of the Little White and some two miles from the town, the whole party discolored and made a bonfire of their clothes, burning the wagon at the same time. They then proceeded with the intention of marching in a state of nature through the town. Word was sent in by telephone to the police and Sergeant Junger, acting with commendable dispatch, sent constables to arrest the movement.

WEDDINGS

Haining--McCallum. A quiet wedding took place at St. Mary's rectory yesterday, when Miss L. McCallum, daughter of James McCallum, late of St. John, was married to Le Roy Haining of Fredericton. The ceremony was performed by the rector, Rev. Dr. W. O. Raymond.

U. S. OFFICIAL DEAD

PORTLAND, Ore., Aug. 19--Milton Brown of Buffalo, N. Y., chief, special agent of the United States treasury exhibit at the Lewis and Clark exposition died last night in this city of typhoid fever. Mr. Brown had been employed in the same capacity at the exposition at Buffalo, Charleston and St. Louis.

THE CROCKER HORSES

"For extreme intelligence the London public, and some of the notable manifestations supplied by Mr. Crocker's extraordinary enterprise, that has hitherto been achieved by members of their race, being extraordinary and in no sense monotonous."--London Globe.

ST. PETERSBURG, Aug. 19--(Special)

The announcement of "the solidarity of the people with the emperor" has been received with great joy, and the explosion of bombs. The people are tickled to death, and the emperor may be before long.

The Times New Reporter.

Admiral Glasgow applied this morning for an injunction to prevent the profane use of the name of Wun Lung by a troupe of vagrant players at the opera house. He says it is a scandalous outrage, and if he had his way the man la would be h-d-l-o-w.

"I observe," said Mr. James Jones this morning, "that some property owned by Thomas W. Lawson of Boston is advertised for sale in that city for non-payment of taxes. Hereafter I shall have a personal interest in the career of millions. I find that we have some things in common. I have myself had a similar experience, and a kindred aversion to taxes."

The mayor and aldermen have received another shock. What they supposed was a dry lake in the line of the waterworks extension turns out to be an old sock.

PORTSMOUTH, N. H., Aug. 19--(Special)--Sawie old chief, President Roosevelt is getting restless, and his sent for his hunting suit and his bear gun. There will be something doing if the peace negotiators fuss around these diables much longer.

Ald. Christie has revised his estimate of the cost of the waterworks extension. He now believes it will cost half a million to get the job started.

Mr. Peter Binks was highly pleased yesterday afternoon when he emerged from the private car of the minister of railways.
