Extract of a Letter dated Cornwallis, August 4.

"The crops in the Western Counties have greatly improved in app-arance since the late showers. The crops of hay is scarcely medium. Wheat is remarkably good; oats, rye, barley, potatoes and all kinds of garden vegetables promise well. It is remarked in King's County that the potatoes were never known before to carry so many blossoms and balls. An abundant harvest may be expected.—Halifar Times.

The Caops and The France Accounts.

expected.—Halifax Times.

THE CROPS AND THE FISHERIES.—Accounts from all parts of the country speak in the most flattering terms of the appearance of the crops. This summer, no doubt, will prove a favourable one to the Agriculturist. Large catches of Codfish, Haddock, and Salmon, have been taken at Cape North, Inganish. St. Anns, and round the Western sections of this Island. This is truly gratifying news to the people of Cape Breton generally.—Sydney, C. B. Spirit of the Times.

in mew to the people of Cape Breton generally.—
Sydney, C. B. Spiril of the Times.

Montreal, Aug. 7th.—A most distressing accident occurred on Lake Ontario, about three miles from Port Credit, on Thursday week. The schooner Rover, Hinds master, sailed from Toronto on Wednesday with a cargo of salt, for Port Dalhousie, and having on board beside, the master, his wife and child, and a man and a boy. By some accident the schooner went down, and all but the master met a watery grave.—Herald.

We learn from the Banner that the Free Church Congregation recently organised in Toronto, have sent a call to Dr. Burns of Paisley, offering him a salary of £400 Cy. per annum and £100 to defray his expenses in coming to Canada. The sum of £280 has already been subscribed towards building a Church in Toronto. The xeal and experience of Dr. Burns would be of much service to "The Presbyterian Church in Canada."—Montreal Herald.

From the Halifax Post, August 17.

Closing of Ties Old Cemetery.—The old Constery of St. Paul's has closed its gates against the entrance of the dead.—Those who sleep within its walls will repose in silence, without another of papinion of the tomb being added to their number. This city of the Dead is shut in from the world, and to those who have friends reposing there, it is a melancholy thought that there will be a broad line of demarcation drawn between the dust of the departed, and the kindred bodies of the living when these last shall seek their mother earth.

How many thousands sleep within the portals of that Cemetery—each owning a peculiar history—each having had a life to pass through, with its ten thousand vicissitudes, to brighten, becloud and chequer it! No boundary of nature—no artificial distinction—has excluded any of the human family from this final home. People of all gegs, all eight of the security and where the wise and the fool have been gathered together by the grin Leveller of all distinctions, and the dust of all mingle in confussion. Solema commentary on the pride and vain glory o
