

POOR DOCUMENT

NOV 30 1920

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, DECEMBER 30, 1920

MRS. CLARA MARKLEY, of Kansas City, Mo., who says from the way Tanlac has brought back her health and strength after five years' suffering it seems like it was made specially for her case.

"I don't know what I would have done without Tanlac, for when I began taking this grand medicine I felt so weak, tired and worn out I was hardly able to do my housework and could not after the children. I suffered for five years with the worst kind of stomach trouble and nervous indigestion and only weighed 110 pounds.

"I had no appetite and nothing would eat seemed to agree with me. My food always seemed to sour on my stomach, and I suffered nearly all the time with terrible headaches and severe pains across my back. In fact, I just had to drop myself around."

"I doctored and doctored and took all kinds of medicine, but just kept getting worse all the time. Finally I got so bad off I had to get relief, and I would get no rest or sleep at night.

"I had seen so many ads in the papers about Tanlac that I got to believe in it. I had only taken a bottle or two until I could notice that I was gaining back my strength. I kept on taking it and got so I could eat and digest anything I wanted to eat. It not only gave me an appetite, but I got so I could sleep good at night and felt rested and refreshed when I got up in the morning.

"It looked like Tanlac was made specially for my case. I have gained twelve pounds in flesh and am able to do all my housework, washing and ironing, and I stand it just fine, and am in better general health than I have been for five years.

"I never intended to be without Tanlac in the house as long as it is possible to get it, as I consider it the best medicine I have ever taken."

The above statement was made by Mrs. Clara Markley, No. 819 S. Sixth Street, Kansas City, Mo., a well-known and highly respected resident of that city.

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro by G. W. McKay, Beaver Harbor; C. V. Parsons, Highland; John F. Meagher, Debevoise, O. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station; and by the leading druggists in every town. (Advt.)

Cause of Early Old Age

The celebrated Dr. Michenoff, an authority on early old age, says that it is "caused by poisons generated in the intestines." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound. 10

But Got a Very Peculiar Reply When He Asked War Office Reason for Medal Award.

London, Dec. 15.—(By Mail Canadian Associated Press)—During the war and for some time after it closed, the king made a point of summoning to his presence all those who had been awarded special decorations for good service. In course of time the recipients became so numerous that it was impossible that every award should be made by the sovereign in person, and instructions were issued that only the higher decorations would be given by the king, the remainder being forwarded in the usual manner.

The Times says it now appears, from letters it has received on the subject, that the authorities have gone to the other extreme, and while the lesser decorations are sent out by registered post enclosed in suitable cases, they sometimes arrive at their destinations unaccompanied by any communication whatever. Although the registered parcel is doubtless addressed to the right person, there is occasionally nothing to fix the actual ownership of the decoration, since some give no clue to the owner's name or regiment.

From Nottingham there comes an account of how Sergeant Harry Cameron, awarded the Military Medal, and not being sure what it was for, sent an inquiry to the records at Woolwich Dockyard. A typewritten reply was received stating that no particulars had been given, but written on the paper in red ink were the words: "It was probably issued with the ration." Lord Henry Cavendish-Bentinck, member for South Nottingham, addressed a question to Sir Archibald Williamson, who denied that the officer in charge of the records had made such an assertion; but Lord Henry offered to produce the original document, and the matter is being further investigated. It has since been discovered that the medal was conferred on Camm for carrying a wounded comrade under heavy fire and keeping a battery supplied with ammunition during the offensive from Valenciennes to Mons.

FISH CANNING INDUSTRY

Canning as a means of preserving food was first invented as the result of a note offered by Napoleon for the same method of preserving food for his troops. In 1865 canning of fish was started in the Pacific coast and since then it has been opened up at New Westminster. Year by year new canneries were established, and were successful in finding a market for their output. At the present time there are approximately 500 canneries in operation in Canada. Besides salmon, many other sea foods are canned such as sardines, herring, pilchard, mackerel, haddock and lobsters. The value of the output of these canneries in 1918 amounted to more than \$20,000,000, the capital invested in fish canning establishments being approximately \$30,000,000.

MONCTON PAPER ON THE TORTURES OF RHEUMATISM

Happily Stopped When He Began to Take "Fruit-a-lives"

8 Ottawa St., Hull, P. Q.

"For a year, I suffered with Rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again.

"One day while lying in bed, I read about 'Fruit-a-lives' the great fruit medicine; and it seemed just what I needed, so I decided to try it.

"The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."

It is worth of note that being in a central location, Moncton would perhaps be the most logical center for the holding of a maritime meet. Either Moncton or Amherst would be suitable, providing proper accommodations could be provided. Mayhap it would be better to stage the meet in Halifax this winter and next winter in St. John or vice versa.

HARDWARE NIGHT AT THE Y. M. C. A.

The staffs of W. H. Thorne & Co. Ltd., and T. McAvity & Sons, Ltd. held their annual sports night at the Y. M. C. A. last evening, and the McAvity aggregation won out taking four of the seven events.

The programme started with a basket ball game, which Thorne's won by a score of 19 to 14. The lineup was as follows:

McAvity's—Evans and Hoyt, forwards; Treat centre; Thorne and Naves, defence.

Thorne's—Williams and Burns, forwards; Willett centre; Bustin and Laskey defence.

The game was exciting from start to finish and although McAvity's had a good lead in the first half, thanks to Treat who played a brilliant game, they could not overcome the excellent playing of the old timers, Willett and Bustin of Thorne's.

The next event was a one string bowling match between the a.m., with the following results:

McAvity—Foshey 102, Turner 87, Lett 88, Hoyt 85, Harrison 80. Total 488.

Thorne's—Cooper 78, Gill 54, Cox 66, Lindsay 79, Bailey 79. Total 351.

McAvity's had a good crowd of loyal supporters headed by a West St. John young lady, and they certainly played havoc with the Thorne crowd especially Gill.

The "Pippins" from McAvity's put it all over the Thorne "Peaches" with the following result:

Thorne Misses McAvity Misses Mitchell 76 Stevens 77 Morrison 80 Lewis 42 Foster 24 Malloy 77 O'Brien 78 Irvine 59

With a score of 864 the McAvity young ladies think they are fully qualified to challenge the Thorne's male quintette who rolled 851.

In the tug-of-war the Thorne team although much heavier than McAvity's could not pull through with the result they only by a very narrow margin.

Then came the relay race between the young ladies, which was won by McAvity's. Again the young ladies from West St. John excelled probably by reason of the training they have running after the ferry boats, etc.

The men's relay went to Thorne's. One of the young men from McAvity's went with such speed his "running pump" came off, while another neglected to oil his joints before running.

This left honors even and in the swimming event excitement ran high, Thorne's expected to win this event but did not count on the "Dark horse" from McAvity's, Bryant, who got quite a lead on his opponent and practically won the race for them. Burton tried hard but could not cut down this lead. In the second
