Good Thing.

Among the most charming of this season's crop of debutantes in Washington were the twins of a San Francisco man who spends his winters at the National Capital.

One day at the Metropolitan Club a certain member was approached by a friend, who whispered confidentially—"I understand that you are practically engaged to one of those ravishing twins?"

The other member smilingly admitted the soft impeachment.

"How can you tell them apart?" asked the friend.

"I don't try to," said the other.—Lippincott's Magazine.

Among those who attended the closing exercises for the provincial school for the deaf, held yesterday afternoon, were Hon. R. J. Ritchie, Postmaster Sears, R. B. Emerson, and Rev. W. H. Sampson. The programme consisted of class work exhibition and reflected much credit on the principal, Joseph Keating. Prizes presented by the Women's Canadian Club were distributed to the successful pupils. The percentage made by the pupils was 97, the highest on record. Last year's class numbered eighteen boys and seventeen girls.

WHEAT CROP PROSPECTS AND MATTER OF PRICES

(Bradstreet's)

Now that the winter-wheat crop, usually two-thirds of this country's production, is measurably safe from damage except that of a wet, stormy harvest, and the spring wheat crop has been favored with an exceptionally favorable start, the prospects of a total crop for the United States well in excess of 800,000,000 bushels are very favorable. Naturally, with such an immense yield—137,000,000 bushels larger than the record crop of 1913—the problem of what to do with the surplus over domestic needs receives more attention. For instance, the enormous crop might prove a doubtful blessing if it were to be uncalled for on our lands and the price, in consequence fell to unprofitable levels. Touching this side of the case, however, the natives at hand are reassuring, and if the crop proves, as it probably will, a record-breaker, there seem to be fairly good prospects that demand too will prove of unparalleled size. Three weeks ago we noted in these columns that the total wheat crops of the three largest early producers, Argentina, Australia and India, had fallen below expectations and below last year's yield, as follows:

	1914	1913
Argentina	118,000,000	108,000,000
Australia	114,000,000	95,000,000
India	815,000,000	369,000,000
Total	1,047,000,000	632,000,000

In St. Luke's church, Annapolis, N. S., yesterday morning, Miss Georgie Kathleen, daughter of S. Riley of the D. A. R., was married to Arthur A. Kirkpatrick of Gasperaux, N. B. The ceremony was performed by Rev. Dr. Howe, Mr. and Mrs. Kirkpatrick will reside in Annapolis.
