## Every Man in America Can Save Money by Buying Clothes Now

By J. R. HAMILTON

Former Advertising Manager Wanamaker's, Philadelphia

ALL OVER America Clearance sales for men are as definitely fixed as the Holidays in the calendar, or the phases of the Moon.

Stores that deal with Women are obliged to be clearing their stocks all the time, but Men's Stores have reduced their Clearances to two definite periods of the year, Winter and Summer.

This difference is due to the fact that Women's Styles change more rapidly and more definitely than Men's. In stores that deal with Women, buyers are obliged to watch every moment of the time lest they find themselves with unsalable merchandise on hand.

But with men's stores the question of Clearances is not so much a matter of style as it is a matter of Season, and of quantity.

The overcoat you buy today at low price will probably be just as good next Winter as it is this Winter. The Merchant doesn't cut the price on account of style, but merely on account of quantity.

This article is written because when you look over your advertising in this paper today, as you undoubtedly will, you will find so much staple merchandise at cut price. So many shoes and overcoats, so much good haberdashery that you will find it hard to believe this price cutting is real.

But if you will stop to consider the Laws of Merchandise you will see how necessary it is, and you will not question its reality.

Every buyer in every store is allowed just so much money for the purchase of each season's stock.

Every merchant allows himself just so much money for the purchase of each season's stock.

If a buyer is allowed \$30,000 for the Spring Season, and if he has \$15,000 in a Winter's Stock, you will very readily see that he will not be able to offer you the quantity and the assortment two months from now that you will expect from him.

Therefore, he finds it of actual value to him to sell his present stock at even below his actual cost, and so have the capital for buying a new stock for your coming Spring needs.

And that is why in the Advertising in this paper, and only in the Advertising, will you find the big bargains in Staple Merchandise that you are looking for.

Now this article is written for Thinking Men, and its object is to show you the immense value of Clearance Sales in the saving of money.

If you don't read the advertising, naturally you will not know what is going on. But if you do read it you may feel sure that these remarkable bargains which are now being offered all over America are exceedingly vital, both to the Merchants interest and to yours.

## APPROACH CLOSELY TO THE SINGLE TAX

(Canadian Finance)

As practically all of the western cities have made big strides toward the single tax, comparison of taxation values with previous years is exceedingly difficult. The amount of rateable assessment has, however, increased very largely. The figures for Winnipeg gave a total of \$2,899,770, an increase of \$1,578,840 on land, which is assessed at full value; \$2,899,770, with land assessed at full value and buildings 20 per cent. Regina gives a total of \$5,099,942, an increase of \$1,026,790, with land assessed at full value and buildings 20 per cent.
