## ROSSLAND.

Rossland Miner, The Monita company held a special meeting yesterday to arrange for nesuming work in the mipe. It was decided grim shaft, near the west end of the is reported to average about \$30 to the War Eagle, and continue the sinking of ton machinery will be begun to-day.

New strikes on the Sunset No. 2 are looking very fine. A shaft has been started on the hanging wall of the veinuncovered last week, and is now down about 10 feet, the ore being left on the footwall. The ore is very rich in copper. Repeated assays show it to run to over 20 per cent. The solid ore appears to be about 12 inches wide, although it widening at the bottom. The last find is 200 feet south of the one made enthal are president and secretary. last week. The ore body here seems A ledge of about eight feet of g be between three and four feet wide. No shots have yet been put in, but the vein has been stripped for 20 feet, and the showing is magnificent. It is one of the best ever seen in the camp. There is some copper in the ore, but not so much

as the first find made. The article in yesterday morning's Miner on the O. K. mine has had the effect of bringing out certain facts which of the most favorably situated will be of some interest, and perhaps of east of Golden is the Sunday, some value, to the shareholders of the company. It now appears that J. L. ail, and was recently bonded Warner resigned the management of the property more than a week ago, and that silver, 81 per cent. lead and 5 ager in his place. Things have not been ore is high grade peacock copper. cent. of copper per ton. The mine running in a satisfactory manner at the der bond and work will be vigor- mine for some time. Several of the very forcibly expressed their dissatisfaction with the was things were being conducted. The result was J. L. Warner handed in his resignation as manager As the board of directors had several vais since he located these claims cancies a reorganization of the board foilowed, with the result that there is a new deal all around. Mr. Goodhue, the new manager, came up from Spokane on Wednesday. He called at the Miner of offer to sink a shaft on the property in fice vesterday and made the following statement about the O. K. mine and mill: "It is true," he said, "the mine and mill have been closed down this week. We are getting ready to run through some I. X. L. ore, about 40 tons I think, and the mill will be in full blast again on Monday. In the meantime I am getting acquainted with everything about both mill and mine. I have not vet been in the mine, but I had a long talk with Mr. Newman, formerly superintendent, and I know pretty well what the situation is there. It mine will come out all right we can soon open up some bodies, and that we shall soon be running

on our own ore again." A. B. Clabon is organizing a party to go to the summit of Red mountain Jubilee day, June 22, and build a big bonfire. Similar bonfire parties are being organized all over the British Em-

Rossland, June 8.—Father Lemay, cent, lead. The find is about a mile properties in question were on the same partment of agriculture, was in town rather suddenly this afternoon at 4. F. Olsen, Captain Hayward and J. T. should be returned for the plantiff, Lendrun are interested. The claims are

Seven new strikes have been recently creek, and several outlays have left Ainsworth for that locality. The assays in some instances are very high.

Recent reports from the lower Duncan are to the effect that several promising claims have recently been located on Glacier creek, which empties into the Duncan two or three miles below Houser lake. John Westerleng and Albert John son have recorded the Queen of the West and Little Johnny, and show some rich specimens of ore taken from the surface croppings. D. Cosguff and John Havard, with their partners, have also located groups of claims, which have ledges from eighteen to twenty feet in width.

The width westerleng and Albert John the ledge.

FORT STEELE.

Frank Hogan, treasurer of the Sullivan group in the Fort Steeke country, expects to leave today to push the work on that property during the absence of Col. Ridpath, the manager. The locating a number of claims along the ledge. can two or three miles below Houser er Rivers. The end was most peaceful,

It is likely that the government up. will meet their wishes.

Thomas Brown, of Pilot Bay, was in Nelson this week on his way to Fort the country between Fort Steele and Kootenay lake, in the interests of an Eastern Canadian syndicate. "Tom" is of the opinion that the district along the west branch of the St. Mary's river will receive a great deal of attention this spring. The mineral deposits of the district were first made known by Henry Rose and his partners, who are said to Prospecting is fairly easy as the country is high and it is easy to get abpass, and on the Fort Steele trail waiting for the snow to leave.

## GRAND FORKS.

Grand Forks Miner. Scott Greening, of Los Angeles, Cal., and Capt. J. C. Carter, late of Montesana, Wash., went up the North Fork last Monday on a prospecting trip. Mr. Greening represents California money which will handle any properties which he may secure, and Mr. Carter, it is understood, is also in a position to negotiate for cash upon his recommendation. Mrs. John A. Manly, wife of the mayor, had a narrow escape from death by poisoning yesterday. She took a taspoonful of phenacetine to cure headache when half a teaspoonful would

have been the proper dose. Dr. Hep second shot fired in developing the find worth was immediately summoned and he succeeded in counteracting the effect Sheppard and Thompson have located of the drug. Mrs. Manly was for a a remarkably fine prospect about six time in a critical condition, but has now H. Wenhoff, an expert from Berlin, representing large amounts of German

men doing development work on the Im- capital, has been in the district for the large stockholders from Seattle paid a perial claim, siutated near Porcupine past two or three weeks examining our erties. He has gone as far as Camp McKinney, taking in Greenwood, Deadwood, Copper, Skylark, Wellington, White's, Long Lake and all the important camps in that directions. This week he has been up the North Fork looking at the Pathfinder, Volcanic, and other well known properties. So far as can be ide betwen Wild Horse Creek and Koolearned he is extremely well pleased with tenay lake. The owners have refused an the mineral showings of this section, and it is more than probable that his report will result in the investment of considerable German capital in our

The district affording the latest excitement in mining matters is that surrounding Canyon creek, a tributary of Kettle river, which joins the main stream about 30 miles above Rock creek. Prospectors found there surface croppings of very rich free-milling ore. The development work on the Monitor, a claim in that district, however, disclosed the fact that the free milling ore turned to base at 12 feet from the surface. The base ore is f good quality, and Canyon creek is likely to prove an important mining dis-

KAMLOOPS. Kamloops, June 7.-At the Assizes here today Leitch pleaded guilty to the robbery of the Fort Steele mail, after a trial of four hours and a half. He was sentenced to ten years in the peniten-

the Break William State State VANCOUVER. Mr. W. D. Haywood has just received long letter from his brother, ex-Sergt. Haywood, who is now in route to the Yukon. The letter was dated from Lake Bennett and was sent down the coast by means of an Indian. In it Mr. Haywood stated that the whole party except one person were in the best of health. and they had now covered the worst part of the trip. In many places the country was fearfully rough and traveling was only accomplished with difficulty.

A, Von Musberg was sentenced in police court to four months' imprisonment. for receiving stolen property from boy burglars. Six boys, were arraigned on the charge of burglary. Willie Olson was proved to be the ringleader, and he was sentenced to thirty days' imprisonment, trouble again, or are seen associating to-

#### NEW WESTMINSTER.

The steamer Courser has been chartered by the Dominion overnment for three months, and will be used in connection with the survey of the river and the observations which are being taken citor, has moved down from Anaconda regarding the rise and fall of the water.

to Midway, and opened up his office in Development work will bear hidway, and opened up his office in Development work will begin in ear-building adjoining the Midway nest on the Golden Bars claim, on Pitt Lake, this week. The company have let The prospects for an abundant crop a contract to Mr. D. Menzies, of Vanthe Okanagan district is not of the couver, to run a 6x6 crosscut tunnel into brightest just at present, although the the mountain for fifty feet, as a starter, showers of the past few days have fresh- and the work will begin on Wednesday. The reports from all parts of the dis grain has made little progress, and if trict on the banks of the Fraser are that good heavy rains are not experienced the water in the river is gradually fallsoon a shortage of crops must invariably ing and the general opinion is that all result. Fall, wheat, too, is in nearly danger of a flood has now passed. The every instance thin and patchy, and gives farmers in the low lying districts are promise of being anything but a full now sowing seeds on their lands, as they are satisfied that there is no fear of losing their crop. This should be very gratifying news to the merchants and others who are interested in the well do-The French syndicate represented by ing of the farmers and will show up the and which have no doubt done a lot of

The owners of the Goldfinch claim harm.

Were the first in the district to take ad Next Saturday the first shipment of ore from the Harrison Lake mining disabout sixty tons of Providence ore. The ore has been all sacked, and will be brought to this city on the steamer Transfer. It will then be reshipped to the steamer Rithet, for Victoria, and from there forwarded by asother steamer to the smelter at Tacoma. As the Providence mine is the pioneer on Harproperties are to be extensively develop- rison Lake, where the number of mining claims is now legion, it is hoped that this slipment will be but the first of many, and assaying well was uncovered on the and that the smelter returns will give fresh impetus to the development of the mining properties not only on Harrison but on Pitt Lake, and in other parts of this district. The result of this and similar shipments from the other camps will largely influence those who are interested in the establishment of a smelter at this city.

## EIGHTY-FOUR HOURS AWAKE.

The question was recently put to scientists how long a lormal subject may be deprived of sleep. Experiments in this members of the Paris Society of Physicians volunteered to submit to the test. All three remained three days and four nights without sleep, but then the experiment was abandoned, for by the state of prostration of one of the three i seemed dangerous to continue. It is pepainful to the watchers than the third With all three the pulse became slower. and with one the temperature almost de creased. The rapidity of preception was plainly diminished and the time of re-action was longer than it would have been under ordinary circumstances. One good night's rest or eight hours' sleep caused all these symptoms of ill-feeling to absolutely disappear.

## A HEALED HERALD.

Phinks Rhematism is Born of the Lower Regions, but Proclaims South Ameriican Rheumetic Cure a Heaven-Sent Healer.

more effect on me than water on a duck's back. I was persuaded to try South American Rheumatic Cure, I folthey travelled both day and night without rest.

Most encouraging reports have been received during the week from Kimberley camp. A number of claim owners are doing assessment work with the result that large bodies of promising looking ore are being discovered. The Comet; owned by Messrs. McCurrach.

South American Rheumatic Ours. I followed the directions closely, and in a very short time this wonderful remedy effected a complete cure, and there has not been the slightest hint of a return of the disease. It is a sure remedy, and I delight to hereld the goodness also over the lands?
