CUBA HAS MANY TROUBLES

BUT WILL COME OUT O. K.

Several Questions of a More or Less Serious Nature Have to Be Solved by the Government, But There is No Reason for Anxiety

HAVANA, Sept. 29.—The small band of rebels which has been traversing the country about Mayari, in Santiago province, has according to late despatches, again exchanged shots with the pursuing rurales. The latter are close on the heels of the bandits. While there are signs of unrest in various parts of the island, the opinion prevails here that no serious disturbance is likely.
In commenting on the situation the Diario De La Marina, says: "A combination of circumstances, circumstances having no link one with the other appears to make the situation at first sight more serious than it really is. Each one of the problems that at present confront the administration—the yellow fever epidemic, the conspiracy of Parra, Miret and Ducas, the extensive bands of outlaws in the country and the railway strike—is of an alarming character, but except for the tendency of the strike to become general and stop railway communication throughout the island, these events are of no great importance in themselves."
The yellow fever has not spread and there appears no danger of a general epidemic, as cases are comparatively few up to the present time. The conspiracy was a very ridiculous one and even if it had succeeded in inducing some fools to take the field it would have been nipped in the bud. The Mayari band of outlaws cannot be considered of more importance than many other previous bands of Guerrillas which have occasionally appeared in Cuba.
"There is no reason, therefore, for extraordinary alarm, or for believing Cuba is on the brink of an abyss."
"Even the strikers have not as yet committed any act of vengeance. If their disagreement with the railway companies is not settled other men will be called shortly to the field. Most of the strikers resort to force will be punished according to law. The situation, for all these reasons, is not so grave and the Government has ample means to cope with it."
"Chertigos may soon become a trouble is coming in that vicinity. Most strike and others plan to strike soon. It is reported also that political trouble is coming in that vicinity. Most persons think that the railroad and other strikes offer more prospects of serious trouble than the threatened revolution."
The lighter men of Havana harbor will probably strike today and the stevedores in a few days.
"Governor Mazon has determined to deal with outlaws and insurgents with a strong hand. The orders of the Bureau, it is stated, are to capture, kill or drive them into the ocean."

SUNBURY COUNTY ELECTIONS

PROMISE TO BE EXCITING

FREDERICTON, N. B., Sept. 29.—Sunbury county election is a question takes place tomorrow, and the feeling in that county over the general contests is very warm. There are elections in all the parishes except Sheffield and Maudslowe, and in Sheffield where it was intended to allow the old councillors, Tabor and Burpee to be elected by acclamation. Mr. Burpee failed to file his nomination papers, with the result that another election will have to be held in this parish.
Maugerville elects Councilors Perley and Banks by acclamation, but in each of the other parishes there are four applicants for honors.

BETTER PAY FOR THE

TEACHERS THIS YEAR

Dr. Inch Says the Scheme Will go into Effect at Once.

Brass Plates from Nelson's "Victory" for Every School in the Province—A New Book on Weeds

Dr. Inch, chief superintendent of education, arrived in the city this morning in communication with the school teachers with the additional grants to the school teachers would commence this afternoon. The act giving the increased subsidy to New Brunswick has been passed by the British Parliament and will go into effect at once. This means that the U. N. B. will also get the additional grant of \$5,000 for this year.
Dr. Inch also stated that he had been notified that every school in Canada would be presented with a brass shield made from the broken parts of Lord Nelson's flagship Victory. Towards aiding giving these shields, Lord Strathcona had given a thousand pounds. Dr. Inch is expecting word in a few days describing the conditions in which these shields are to be given the different schools. The doctor has also been notified that the Dominion Department of Agriculture have issued an excellent book showing and picturing all the different weeds of Canada. One of these books will be given to each High and Superior school in the province.

TOO GREAT PROSPERITY

CAUSES MONEY TIGHTNESS

G. A. Bogart, of the Dominion

Bank, Thinks the Banks are Adopting a Wise Policy

—More British Capital Coming This Way

WINNIPEG, Man., Sept. 29.—"Don't look for any easy money until next summer at least," said Mr. C. A. Bogart, general manager of the Dominion Bank.
"What do you think is the cause of the money stringency?" Mr. Bogart was asked.
"Over prosperity, and there is not enough money in Canada. We have a wonderful country here and we want new money to develop it. I think the Canadian banks are adopting a very wise policy in endeavoring to restrict speculation of over description and looking after the legitimate wants of the legitimate borrowers. Just now they are and have been making every effort to get the crop moved quickly or get it out of the country and get the money back. It's money we want and there is no doubt people can do a great deal to assist the banks in getting the crops out. Last year a great many things kept us back. The season opened late and the strike of the longshoremen in Montreal delayed it a good deal."
"What do you think of the crop?" asked the reporter.
"Now that's where I want to interview you," remarked the general manager. "From what we hear down east there is not going to be so large a crop as last year and not as good a quality. I should say it will be about 75 per cent. of last year."
Mr. Bogart also said that European capital was turning gradually more and more to Canadian investments.
"It was in Europe early in the year and everywhere you hear of Canada and its prospects. All we have to do is to be patient yet a little while and everything is going to come."
Mr. Bogart is on a quick trip of inspection through the west. He will be away from the east only about three weeks.

GORKERY WILL CASE

IN PROBATE COURT

One of the Heirs Wants Admission of a Lost Will or Administration of the Estate.

The Corkery Will Case—
In the estate of Johanna, widow of Joshua Corkery, an application was made by Mrs. Annie Mullin, the only daughter of the deceased, for the probate of a lost will or falling that for administration of her mother's estate.
Joshua Corkery left an estate entered by the executors at \$20,000 real and \$20,000 personal property. The real estate was chiefly situated in the city and county of St. John, but a portion of it was also situated in Woodstock. By his will Joshua Corkery gave his daughter Annie a legacy of \$4,000 and a freehold lot known as the Scoles property on Main street, St. John. All the rest of the real estate situated in St. John he left to his widow Johanna for life and after her death to his sons Michael and David, who were appointed executors.
Michael Corkery died in 1882, leaving David Corkery as sole executor.
The Woodstock property was left to his son Joshua for life and after his death to the sons Michael and David Mullin, remaindermen. The personal property of \$20,000 was divided among the children, also a legacy of \$1,000 to Joshua Corkery.
The terms of the will the executors were given the management of the real estate in St. John. Mrs. Johanna Corkery died on June 28th, 1907. It is claimed she made a will after the death of her husband by which she gave her son Joshua's children a legacy of \$600 and left all the rest of her estate to her daughter, Mrs. Mullin. This will cannot be found and the application to the probate court is for the purpose of establishing this will as a lost will.
This morning the evidence of David Corkery was taken. He was called on the part of the petitioner and was examined by Mr. Mullin. Beyond stating that he remembered that E. R. Gregory, who was then a lawyer practicing in the North End, was called in about 1880, and that a man named James Dunlop, roadmaster, was also present and that there was some talk of his mother making a will, he denied all further knowledge of the will, stating that he had never seen it. He was being cross-examined by Mr. Wilson when the court adjourned until Friday next at eleven o'clock.
That part of the will of Joshua Corkery which gave the management of the real estate in St. John to his executors, and which directed that "all monies in the hands of the executors derivable through the management and control of the said property as well as all monies paid to the widow from the proceeds of rents and management and control of the property and unused by her at the time of her death or invested by her in any manner should become the absolute property of the sons, David and Michael" is claimed on the part of the petitioner to be an attempt on the part of the testator to limit the life estate which he gave to his wife. As a result of this it is claimed that the executors of Joshua Corkery are liable to account to their mother's estate for the rents and profits of these properties. In addition to this claim there is also a claim put forward in the petition that Johanna Corkery is entitled to the real estate of the deceased son Michael, she having survived him and he not having made a valid testamentary disposition as it is alleged. The personal position as it is alleged. The personal property of Mrs. Corkery as sworn to at the sum of \$200.
Daniel Mullin, K. C., appears for the petitioner. Mrs. Annie Mullin, M. G. Toed, K. C., appears on behalf of Joshua Corkery, A. A. Wilson, K. C., and George V. McInnes, K. C., represent David Corkery.

LED A DOUBLE LIFE

Jekyll and Hyde Phase in a Sensational Murder Trial in North Carolina

RALEIGH, N. C., Sept. 29.—A murder trial of widespread interest is scheduled to begin here today, when Dr. Thomas L. Rowland, and his second wife, the widow of Charles R. Strange, a locomotive engineer, are to face the charge of having murdered Mr. Strange by poison so that they might wed. Effort will be made to prove that Dr. Rowland was a "Dr. Jekyll and Mr. Hyde" and that his appearance while secretly making a study of deadly poisons and plotting murders. He was even arrested on a charge of having poisoned his own child in order to get some money, but he was let go because the chemists could find no trace of poison in the test which they made.
In the present case Dr. Rowland is alleged to have used morphine, a rare and deadly vegetable poison.
Judge Benjamin F. Long is to preside at the trial, while prominent counsel will appear on each side of the case.

MANS BODY FOUND NEAR

A LINE LIQUOR STORE

MANS BODY FOUND NEAR
WOODSTOCK, N. B., Sept. 29.—The body of an unknown man was found early this morning in a barn a few rods from the line store liquor joints. The remains were brought here. Coroner Hay has empaneled a jury. The dead man is of sandy complexion, about five feet six, probable age 20, no whiskers, remaining features with no other marks of identification. He wore laborer's clothes and the supposition is that he died from the effects of a drunken debauch.

FINED \$200 FOR POOL SELLING

P. J. McGuire left for Boston on a business trip this morning. While away Mr. McGuire will visit the Brockton Fair.
