

NEW CANADA PLANNING BIG CELEBRATION

To Observe the Tercenary of Beginning of Chartered Commerce.

FESTIVITIES WILL
LAST SIX MONTHS

Opens with Religious Service on March 22—Musical Festival as Form of Peace Celebration.

New York, Mar. 2.—It is announced as definitely decided that New York city will go ahead and celebrate this year. Notwithstanding that such large projects as international celebrations of one hundred years of peace between English speaking peoples and the centenary of the Panama Canal and numerous lesser ones have been launched, New York proposes to commemorate the fact that the chartered commerce of this port, and, in fact, practically that of the North American continent began 300 years ago. Combined in this celebration, which will continue for six months, will be features to commemorate numerous phases of the whole country's progress including the practical completion of the canal and the peace century.

Although the public has not yet been aroused to the celebration pitch, the date of commencement of festivities is almost at hand. The opening date is Friday, March 27, when the programme calls for a "great universal religious service of praise and thanksgiving for the blessings of three centuries of progress," and another large mass meeting at which the keynote of the long celebration to follow shall be sounded. The date of March 27 is the 300th anniversary of granting of the first general charter for regular commerce with what is now New York by the States General of the United Netherlands.

During April and May the celebration will be confined to commemorative exercises in the public schools and higher institutions of learning, including a comparative exhibition of commercial education in American and foreign cities, and with the hope entertained by the Tercenary Committee that impetus will be given to scholarships for the exchange of commercial students with foreign schools. During June, July and August it is proposed to hold a series of exhibitions of the material resources of the various states of the union. There will probably be four or five separate exhibitions, each representing a group of states, such as the Eastern, Northern, Southern and Western States. The contrast between the material resources of the various states, and the early voyagers who believed that some watery might be found to China and today when the practical completion of the Panama Canal will be the basis of exercises which will be held in the fall. The holding of a Pan American Congress in New York, with discussion of the trade relations of the American republics is a part of that programme.

The celebration will assume another broad phase during the week of September 14 with a musical festival on a large scale to commemorate the Centennial of Peace between the English speaking peoples.

The latter part of September will be given over to a series of parades. There will be a pageant of States, in which every State will be represented by a float representing its history or its resources, a merchants' and manufacturers' parade in which all the business houses of New York will be represented, an automobile parade, a pageant of cities, and a unique naval parade which will not only include the United States and foreign navies, but from passenger and merchant ships in the harbor, as well.

The last named parade will be held in conjunction with the laying of a corner stone of a permanent memorial of some kind, suggestions for which have been made, and will be a public affair of unusual size, or an industrial museum.

Interpersed in the programme are arrangements for various local features, including celebrations at all of the cities along the Erie Canal, the Hudson river and the southern tier of counties in New York State.

The celebration will close on October 11th, the 300th anniversary of the granting of the first special charter for trading to New Netherlands. The date falls on a Sunday and will be given over to religious observance of the anniversary.

The committee having arrangements in hand is headed by Cornelius Vanderbilt as president; Herman Ridder as first vice-president; and Edward H. Hall as secretary, and includes as members more than a hundred prominent citizens of the city and state.

FUNERALS.

Many friends attended the funeral of Miss Mary Brown, which was held yesterday morning from her late residence, 619 Main street. The body was taken to St. Peter's church where solemn high mass of requiem was celebrated by Rev. Simon Grogan, C.S.S.R., assisted by Rev. J. H. Borman, C.S.S.R. as deacon, and Rev. J. J. Walsh, D.D.S.R., sub-deacon. Six nephews acted as pall-bearers. Interment was in the Catholic cemetery.

The funeral of Edwin Horne was held yesterday afternoon from his late residence, 24 Main street. Services were conducted by Rev. J. A. McKelgan and Rev. G. A. Kurling. Interment was in Fairview cemetery. The funeral of Mrs. John Dunlevy was held yesterday afternoon from her late residence, 63 Erin street, to the cathedral. The burial service was

Fatality of Whooping Cough

Many parents think lightly of whooping cough, and treat it as a necessary evil, not giving the child what it has any special attention. The seriousness of whooping cough was emphasized by the Medical Health Officer in Toronto a few months ago, when he reported fourteen deaths during the month—four whooping cough, and only ten from scarlet fever, typhoid fever and measles combined.

So many people write to us about the alleged cure of whooping cough by the use of Dr. Chase's Syrup of Licenced and Turpentine that we can recommend it with the greatest confidence.

It loosens the cough, aids expectoration, and by its soothing influence prevents the terrible paroxysms of coughing which are so distressing to witness, and which wear away the strength of the child. By using this treatment the disease is held in check, cured in a few weeks, instead of months. Look for the portrait and signature of A. W. Chase, M. D., on the bottle you buy. There are many imitations.

THE ROCK FALL IN LONG REACH NEWS

Section Broke Away Sending Thousands of Bricks through Roof of Adjoining Building.

At 5 o'clock yesterday morning a section of a four store brick wall of the Ten Eyck Hall, 131 Union street, was blown down by the stress of weather. The section of the hotel from which the brick wall crashed away in the eastern end toward Charlotte street. The guests in that part of the building were given a terrifying fright when the loud crash followed the falling away of the wall and the thousands of falling brick precipitated down from the fourth story and fell on the roof of a small structure which is used as a kitchen for the chambers for analysing work. The tornado of brick broke through the roof of the lower structure and also through the skylight. The brick demolished the stove and the furniture in the room and badly wrecked the building.

The Paddock building is the former office of the late Dr. E. E. Paddock of the family of Dr. E. E. Paddock in the residence adjoining the building upon the roof of which the bricks fell.

It is a fortunate thing that the accident did not occur while Mr. Paddock was working in his laboratory, as the place where he is accustomed to set his instruments and his own work table are under the skylight through which the shower of bricks came hurtling with such force as to demolish a stove beyond recognition.

W. T. Ball, proprietor of the Ten Eyck Hall, has been located in the building seven years. Yesterday morning he said that the brick casement had fallen probably because the iron clutches which were inserted in the wooden back and project between the brick had rusted away leaving the brick work without support. The wooden back, of course, kept the bricks beating into the rooms of the hotel.

Thomas Nagle, owner of the building, said that he had made arrangements with Messrs. E. Mooney & Sons to have the wall repaired as soon as the weather cleared off. The building was covered with fire insurance, but of course, that afforded no protection to the owner of the hotel or to the Paddock family, as it also was covered only by fire insurance. Mr. Nagle said the building was erected in 1877, but had come into his possession only about two years ago. It was previously owned by the estate of Anne Ferguson.

The building was inspected yesterday morning by the police, the firemen, and by the building inspector, J. Carleton. The portion from which the wall collapsed appears to be a

**WAS TROUBLED WITH
Weak and Dizzy Spells.**

Heart Would Beat Something Awful.

Those feelings of weakness, those dizzy spells which come and go from time to time, are warnings that must not go unheeded. They indicate an extremely weakened condition of the heart and a diseased state of the nerves. One dizzy spell may pass off, but eventually they will come frequently, and at the same time more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills before their case becomes hopeless, for they will find that the pills will give to its usual strength, and making the nerves firm and steady.

Mrs. Len. Kinney, Moose Mountain, N.B., writes: "I was troubled with weak and dizzy spells and my heart would beat something awful. I got so I had those spells every day. I got so I would try and rest, and then I would feel better, but nothing did me any good until I got Milburn's Heart and Nerve Pills. I can safely say they did me more good than anything I ever took, for I feel like a very different woman. My friends often ask me what I have been taking, and I always say Milburn's Heart and Nerve Pills. I tell my friends who say their heart troubles them, to take your pills."

Price, 50 cents per box; or 8 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
