

SIR GEO. FOSTER VICE-PRESIDENT OF THE LEAGUE

Hon. C. J. Doherty Complains of Translation of One of His Speeches.

EXPLORER NANSEN TELLS OF PRISONERS

Terrible Position of War Prisoners in Russia is Pictured in Vivid Language.

Geneva, Nov. 18.—It was announced by the League of Nations today that Sir George Foster, Canadian Minister of Trade and Commerce, was elected a vice president of the League of Nations at the first ballot, it was announced by President Hymans this afternoon.

Victim of Translation It developed today that Hon. C. J. Doherty, Canadian Minister of Justice, was one of the most active of the delegates to the assembly, had become a victim of one of the high speed translations made during the assembly's proceedings which sometimes become misinterpretations. The translator made a mistake in the translation of a speech by Lord Robert Cecil and he hoped the committee would take up their work in the spirit which animated Lord Robert's remarks. The explorer gave a vivid picture of the situation of the war prisoners in Russia, their privations and sufferings, with out the aid of the International Red Cross, he said, little could have been done toward the repatriation of the prisoners. He said also that he would not be doing his full duty if he did not render thanks to the German government for co-operation in the task. The Bolshevik government likewise, he said, did what it could to help.

Case of the Russians About 130,000 prisoners had been repatriated during the summer, Dr. Nansen announced. About half of these were Russians returned from France and Germany and half the subjects of Central European states returned from Russia. Dr. Nansen appealed to the League so profit by the lessons he had learned in contact with the incalculable sufferings of the war prisoners, and prevent a recurrence of the great tragedy that had been enacted.

COURT OF APPEAL RESUMES SESSION Judgments Will be Delivered Today in Number of Cases.

Frederickton, Nov. 18.—In the Court of Appeal this morning's argument was held in the crown case reserved of the King vs. Vanbeskirk et al, a Mon-

SCIENCE PROVES THE DANGER OF BLEEDING GUMS Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhoea (a disease of the gums) often suffer from other ills, such as rheumatism, anemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Pyorrhoea germs which breed in pockets about the teeth.

Four out of five people over forty have Pyorrhoea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Pyorrhoea germs. Guard your health and your teeth. Keep Pyorrhoea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhoea—or check its progress—if used in time, and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean. Use the 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

Christie Woodworking Co., Ltd. 100 BRIM ST. Re-opening of The Seamen's Institute. Hon. C. C. Ballantyne Sends Appreciation of Work of St. John Branch. Hon. C. C. Ballantyne, Minister of Marine and Fisheries, who was invited to address the opening meeting for the season of 1920-21 of the Seamen's Institute, on Monday evening next, has written to the president of the New Brunswick Division of the Navy League that he finds himself unable to accept. "I appreciate, however, most fully," he says, "the splendid work your branch is doing and note with pleasure that the Navy League is affiliated with the Seamen's Institute and the good work that you are doing in the latter organization also. Please accept for yourself and convey to your members my best wishes for the continued success of both the Navy League and the Seamen's Institute." A varied and excellent programme has been prepared for opening night. In addition to the programme of entertainment the superintendent of the institute, Mr. Brindle, is arranging for a public inspection of the improvements that have been made to the institute since last season. These embrace the construction of galleries on the northern side of the amusement hall, which will increase the seating capacity very considerably; an emergency exit on the eastern side of the main floor to be used in case of fire; enlargement of the dormitories; renovation of all the rooms; improved lavatories; extension of the heating system, and the repainting and re-decoration of the entire interior of the institute. These improvements and additions will greatly add to the efficiency and attractiveness of the institute. Patrons of the institute will be glad to know that the young women's organization, which have been so helpful in the past, will continue their cooperative efforts this winter. Last season considerably over thirty thousand seamen took advantage of the institute rooms. Even a larger number is expected this season.
