THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., JUNE 16, 1900

is just this sort of stuff which the Tory papers serve up to their readers daily: but down in Quebec they attack the premier from the very opposite direction. There Sir Wilfrid is assailed because he did sing the national anthem.

"The government plan obviously is to exclude, if at all possible, the prosecution in these dreadful cases, and to shut them in these dreadful cases, and to shut them off for months, and perhaps for years. As the St. John Telegraph intimates, the commission will be sent on a fishing ex-cursion for a twelvemonth, and mean-while the government can have its gen-eral election. The people are not going to stand this triffing from Sir Wilfrid Laurier."--[Mail and Empire. This journal said nothing so silly or

unfounded. What we said was that the commission would get to work at once-the very opposite to what the Mail and Empire charges.

"In Sir Wilfrid's speech promising the commission, he stated that the judges would be appointed from the highest courts in the land. Two of them are judges of the high courts of Ontario. The third does not fill the bill. Judge MacTavish is a county court judge, a recent appointment by the Laurier gov-ernment. In the election of 1896 and afterwards he was an active commainer afterwards he was an active campaigner and campaign manager for his party."--[The Sub.

Our contemporary is in error respecting Judge MacTavish. He was a Liberal, but took no part of any prominence in campaign work. Would the Sun seriously ad vance the proposition that a judge who had once taken an active part in politics could not be expected to act impartially

The Sun yesterday published a gleeful article on the new Manttoba franchise bill, in which there is an educationa clause which is intended to exclude from the voters' list the Doukhobors, Galicians and other recent immigrants. The educational test excludes from being voters all persons not British subjects by birth and who have not resided in the Dominion of Canada for at least seven years, or who are unable to read "The Manitoba Act" in English, German, French, Swedish or Icelandic. I can easily, understand from the contour of the country that bounds this lake that storms were easily tempted to make these waters their playground. This lake, in Christ's time, lay in a scene of great luxuriance; the surrounding hills, terrac-ed, sloped, groved; so many hang-ing gardens of beauty. Take God for your portion, God for your guide, God for your help; then all is well; all is well for a time; all shall be well forever. Blessed is that man who puts in the Lord his trust. He shall never be donfounded.

But my subject also impresses me with the fact that, when people start to follow Christ they must not expect smooth sailing. These disciples got into the small boats, and I have no doubt they said: "What a beau-tiful day this is! How delightful is sailing in this boat! And as for the waves under the keel of the boat. why, they only make the motion of not smooth sailing. So you have found it; so I have found it.

Did you ever notice the end of the Spain, Portugal, Italy, Hungary and it is difficult to see on what principle the ex-clusion is based. wheat, and the only way to get rid of the chaff is to throw all the wheat overboard!" Now, that is a great deal wiser than the talk of many Christians who want to throw overboard all the thousands and tens of thousands of souls who are the subjects of revivals. Throw all overboard because they are brought into the kingdom of God through great revivals, because there is a peck of chaff, a quart of chaff, a pint

of chaff! I say, let them stay until the last day. The Lord will divide the chaff from the wheat. Do not be afraid of a great revival. Oh, that such gales from heaven might sweep through all our church Oh, for such days as Richard Baxter saw in England and Robert McCheyne saw in Dundee! Oh, for such days as Jonathan Edwards saw in Northampton! I have often heard my father tell of the fact that in the early part of this century there broke out a revibal at Somerville, N.J., and some people were very much agitated about it. They said, "You are go-ing to bring too many people into the church at once," and they sent down to New Brunswick to get John Livingston to stop the revival. Well, there was no better soul in all the world then John Livingston. He

went and looked at the revival. They wanted him to stop it. stood in the pulpit on the Lord's day and looked over the solemn auditory, and he said: "This, brethern, is in reality the work of God. Beware how you stop it." And he was an old man, leaning heavily on his staff—a very old man. And he lifted that staff and took hold of the small end of the staff and began to let it fall slowly through between the finger and the thumb, and he said : "Oh, thou impenitent, thou art fall-ing now — falling from life, falling

away from peace and heaven, falling as 'certainly as that cane is falling through my hand—falling certainly, though perhaps falling slowly!" and the cane kept on falling through John Livingston's hand, The religious emotion in the audience was overpowering, and men saw a type of their doom as the cane kept falling and falling, until the knob of the cane struck Mr. Livingston's hand, he clasped it stoutly and said, "But the grace of God can stop you as I stopped that cane," and then there was gladness all through the house at the fact of pardon and peace and salvation. "Well," said the people after the service, "I guess

you had better send Livingston home. He is making the revival worse." Oh, for gales from heaven to sweep all the continents! The danger of the church of God is not in revivals.

St. Thomas was struck through with a spear. They did not find following spear. They did not find following Christ smooth sailing. Oh, how they were all tossed in the tempest! John Huss in a fire; Hugh McKail in the hour of martyrdom; the Albigenses, the Waldenses, the Scotch Covenanters—did they find it smooth sailing? But why go into history when we can draw from our own memory illustrations of the truth of what I say?

My subject also impresses me with the fact that good people sometimes get frightened. In the tones of these disciples as they rushed into the back part of the boat I find they are frightened almost to death. They say, "Master, carest thou not that we perish?" They had no reason to be frightened, for Christ was in the boat. I suppose if we had been there we would have been just as much frightened. Perhaps more. In all are going to founder. The church is going to perish. She is going down." Oh, how many good people are affrighted by iniquity in our day and think the church of Jesus Christ is going to be overthrown and are just as much affrighted as were the disciples of my text! Don't worry, don't fret, as though iniquity were going to triumph dover righteous-ness. A lion goes into a cavern to sleep. He lies down with his shaggy ness. The large boat trembles like thread after gossamer thread until the whole front of the cavern is covered with the spider's web, and the the hounds: Agreat patches of foam are flung into the air; the sails of the vessel loosen and in the strong wind crack their pistols; the smaller boats, like petrels, poise on the cliffs of the waves and then plunge. is in the back part of the boat. On, how tired he looks! What sad dreams he must have! Look at his countenance; he must be thinking of the cross to come. Look at him; he is a man—bone of our bone, flesh of our flesh. Tired, he falls asleep; he is a man. But then L find Christ at the prow of the boat; I hear him say, "Peace, be still," and I see the over the incident. say, 'Peace, be still,' and I see the storm kneeling at his feet and the tempests' folding their wings in his presence; he is a God. If I have sorrow and trouble and want sympathy, I go and kneel down at the back part of the boat and say: "O

Christ, weary One of Gennesaret, sympathize with all my sorrow! Man Nazareth! Man of the Cross!" A Man a Man! But if I want to conquer my spiritual foes, if I want to get the victory over sin, death and hell, I come to the front of the boat, and I kneel down, and I say, "O Lord Jesus Christ, thou who didst hush the tempest, hush all my grief, hush all my temptation, hush all my

I learn once more from this subject I learn once more from this subject that Christ can hush a tempest. It did seem as if everything must go to ruin. The disciples had given up the idea of managing the ship; the crew were entirely demoralized; yet Christ rises, and the storm crouches at his fect. Oh, yes, Christ can hush the tempest! You have had trouble. Perhaps it was the little child taken away from you--the sweetest child of the household, the one who asked the most curious, questions and stood around you with the greatest fond-ness, and the space cut down through your bleeding heart. Perhaps it was an only son, and your heart has ever since been like a desolated castle; the owls of the night hooting among the fallen arches and the crumbling stair-ways. Upon motion of Dr. Caven the report was adopted. Rev. C. B. Pitblado reported for the college at Winnipeg. During the year Dr. Patrick, of Dundee, Scotland, had been appointed principal and he has en-tered upon his work with a good will. He and Professor Kilpatrick, lately appoint-ed, have instilled new life into the insti-

ed, have institued new life into the insti-tution, and already their influence is be-ing felt. Dr. Pitblado spoke upon the im-portance of the work in the west and of the relation in which the college stood to that work. Dr. Robertson, in second-ing a motion for the adoption of the re-port aread upon the sect to come to the port, urged upon the east to come to the help of the west in this matter. They

had promised to support the work and must not fail to fulfil that promise. The men of the west must be trained for the work in that wide country.
