

CRYPTOQUOTE

Here's how to do it:

OXRUT OILZY
is
HENRY HICKS

One letter simply stands for another. In the sample O is used for the two Hs, X for the E, Z for the K, etc.
This week:

J BCJKP XKD XQ BCD GJIIDNB WVXGHDSN XK
BCJN TMSWZN JN MWMBCL LXZ TMK CDHW
NXHD BCJN OJBC HJBBHD XV KX DQQXVB.
WDBDV SMTP, NTJDND VDW

Answer to last week:

"There is simply a frustration with the administration and the way things have been delayed since last fall, but I think in the end we will all get together."

—Dean Gray

Silly Snaps

Jim Stacey's entry was chosen as the winner of last week's contest. (It was also the only non sexist quip submitted)

For next week we give you Bobby Sampson. We've been accused of putting words in his mouth all year. Now we'd like to give you a chance!

DON'T MISS "THE CHOIR" IN CONCERT AT THE MISTY MOON SHOW BAR
Bar Open 8 p.m. to 3 a.m. 7 Nights A Week

Warning for women

DENVER (CPS-CUP)—Birth control pill users in the United States will receive a strongly-worded caution with their prescription as a result of U.S. Food and Drug Administration regulations effective in April.

A brochure warns women who smoke that they risk "serious adverse effects on the heart and blood vessels," and advises smokers to use another type of contraception.

The leaflet, to be dispensed each time a prescription for the pill is filled, also warns of potential hazards of liver tumours, heart attacks in women more than 40 years old and damage to the fetus if the pill is taken during pregnancy.

FDA commissioner Donald Kennedy has said that women who both smoke and use the pill are 10 times more likely to die of a heart attack or other circulatory disorder than women who neither smoke nor take the pill.

The regulations also require manufacturers of the pill to incorporate the new warnings in information given to doctors.
