# 20<sup>th</sup> excalibur

October 9, 1986 marks the 20th anniversary of *Excalibur*. There will be a special commemorative issue on this day and we are planning a reunion for all *Excalibur* alumni and guests on Saturday, October 11, 1986.

The evening begins at the *Excalibur* offices (111 Central Square) with a Wine and Cheese Open House at 7 p.m. A buffet will follow at the "newly renovated" Grad Lounge at 8 p.m.

There will be a nominal charge of \$15.00 per person.

This is one anniversary celebration you won't want to miss!

Year at *Excalibur*: \_\_\_\_\_

Cheque enclosed \$ \_\_\_\_\_

Please return this portion with a cheque by September 25th

**MATHEMATICIANS!!  
INCLUDING AMATEURS!!**  
Is this FLT proof by William Shipman too big to fit Fermat's margin? Fermat proved his so-called Last Theorem,  $a^n + b^n = c^n$ ,  $n > 2$ , for  $n=4$ , ( $a, b, c$  and  $n$  are positive integers), leaving proof necessary only where  $n$  is odd. - Proof follows: If  $c = a+x$ , then  $c^n = (a+x)^n = a^n + f(a, x, n) + x^n$ . If  $a^n + b^n = c^n$ , then  $b^n = f(a, x, n) + x^n$ ,  $b^n > x^n$ ,  $b > x$ ,  $a > b > c$ .  $a^n < c^n$ ,  $a < c$ ;  $b^n < c^n$ ,  $b < c$ ,  $a > b < 2c$ . Let  $a$  and  $b$  be positive integers. Since  $a > b > c$  but  $2c$ , if  $c$  were also a positive integer, then  $c/a > b$  and  $a/b < c$ , meaning  $a > b > a/b > b$ . But where  $n$  is odd,  $a > b/a > b^n$ , when  $a$  and  $b$  are positive integers. Therefore  $c$  cannot be a positive integer. After 349 years FLT is trivially proven, Copyright © August, 1986, by William Shipman, 177 Santamonica Blvd., Scarborough, Ont., M1L 4H7, Phone 416 266 3792.

### APPLICANTS TO ONTARIO MEDICAL SCHOOLS

Applications for all Ontario medical schools must be received at the Ontario Medical School Application Service (O.M.S.A.S.) on or before November 1, 1986. For applications write to:

O.M.S.A.S.  
P.O. Box 1328  
Guelph, Ontario  
N1H 7P4

### LET US PREPARE YOU FOR THE SEPT. 27, 1986 LSAT OR THE OCT. 18, 1986 GMAT

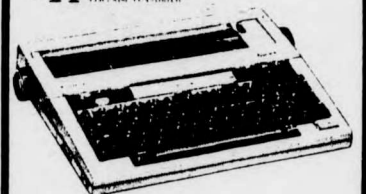

- Each course consists of 20 hours instruction for only \$155 or 32 hours for only \$220
- Courses are tax deductible
- Complete review of each section of each test
- Extensive home study materials
- Your course may be repeated at no additional charge

Classes for the September 27 LSAT  
20 hour course Sept. 19, 20, 21/86  
32 hour course Sept. 6, 7, 20, 21/86

Classes for the Oct. 18 GMAT  
20 hour course Oct. 10, 11, 12/86  
32 hour course Oct. 4, 5, 11, 12/86

### Canon PRESENTS Typestar

#### 3 MODELS TO REACH FOR!

**TYPESTAR 5R:** a lightweight portable typewriter featuring auto centering, double-size type, on screen one line correction memory, 2 typesyles and an RS 232 interface to hook up as a computer printer. Regular: \$359.95 Sale: \$287.95

**TYPESTAR 5:** advanced - featuring auto centering, indenting, decimal tabs, a 2K memory and 6 typesyles in all! Fully portable, too! Regular: \$479.95 Sale: \$349.95

**TYPESTAR 7:** the latest Typestar, features a 6K internal memory, 4K RAM cassettes serial and parallel interfaces plus 6 typesyles to choose from. Regular: \$529.95 Sale: \$425.95

We also carry the full line of supplies and options for your Typestar typewriter!

See us as well for low prices on Sharp and S.C.M. typewriters.

Purchase any Canon product and play Canon Scratch & Win \$10,000 in total prizes to be won.

## RENT FOR

# LESS

NEW 20" Remote Control Model  
**\$27**  
A MONTH

NEW COLOUR TV'S FROM 19<sup>00</sup> mo.

NEW VCR'S FROM 25<sup>00</sup> mo.

NEW MICROWAVES FROM 17<sup>00</sup> mo.

NEW REFRIGERATORS FROM 18<sup>00</sup> mo.

### THINK IT OVER... IT PAYS TO RENT.

Now you can rent for less at Citizen Electronic Rentals. Rent a new Colour TV, a new VCR, a new Microwave or a new Refrigerator on a convenient 8 month agreement and you will also receive free service, free installation and delivery within 24 hours. Savings and service, as simple as that. That's why people are switching to Citizen Electronic Rentals.
