Foster child Young trio needs security

An unsettled past has left its mark on this outgoing trio.

John, a sturdy 11-year-old, is very protective of his younger sisters. When not acting as the father-figure, he enjoys exploring the neighborhood on his bike.

Frail best describes nine-year-old Debbie. Debbie has had a heart condition which has left her with both physical and emotional scars. Debbie requires medication and frequent rest periods. Although a worrier, she is friendly and eager to help.

Six-year-old Tina is a mischievous and delightful bundle of energy. Warm and loving, Tina enjoys frequent hugs and is very talkative.

An active couple with a secure relationship, who can provide firm and understanding guidance would help this trio in healing their scars.

The Children's Aid Society will provide a daily rate of \$8.47 per child for their care, clothing and allowance.

Interested parties are asked to call 791-5151.

Two insect pests that can destroy the beauty of your lawn are the chinch bug and the sod webworm. The chinch bug sucks the juices from the grass plants until they collapse and die. The sod webworm feeds on leaves and stems by chewing. For effective control The Weed Man will identify your insect problem and apply proper treatment.
