## G. M. BOSNELL OPTOMETRIST

2143 Danforth Ave.

GR. 1179 (By Appointment only)

Day after day, while we at home go our ways in safety and comfort, our kith and kin give to the utmost of their strength, their courage and their skill, that right may triumph over might, and justice over tyranny.

All that is fine and true, all the humanity in our hearts, urges us to help our men who are far from home and in daily peril of their lives.

The war in Europe has been long. Now it is approaching a crisis. To regard the struggle as being nearly over is but wishful thinking and—dangerous. The worst, the most costly battles, in blood and treasure, are yet to come.

Into the maw of war must be poured incredible quantities of weapons and supplies—replacing losses — building reserves. The cost in money is and will be terrific.... The life of every Canadian on the home front is being defended on the fighting front: the help of every Canadian here is needed to help those who are there.

If you want to hasten the end of the war; if you want our boys back home; if you want the taint of human slavery eradicated from the world, root and branch, put every dollar you can in the new Victory Bonds now.
