CAMBRIDGE, MASS.

April 8, 1907.

Dear Mr. King:

I have your letter of April 2 and the very interesting documents accompanying it. I heard also very pleasant things about you from President Eliot, on his return from Canada, and am glad on every account that we number you among our alumni.

I should be more glad if you could see your way to the preparation of a thesis, as to which the only problem for you must be that of finding the time to do it. No subject so large as that of the History of the Labor Movement in Canada need be undertaken. A smaller section would suffice. <sup>But</sup> if you find the leisure for the larger task, it would be a feather in your cap, and in ours too.

Very sincerely yours,

*F. W. Tausig*
