

Sadlier's New Altar Goods

The Very Latest for Altar Illumination

SADLIER'S LETTER & EMBLEM CANDLE HOLDER :

Nicely finished in Gold Bronze, and can be used with either candles or cups.

Above cuts give a faint idea of the latest invention for enhancing the beauty of the Altar. "SADLIER'S LETTER AND EMBLEM CANDLE HOLDER" is a frame work of metal nicely finished in gold bronze bearing brass sockets so arranged as to receive candles or illuminating cups and forming letters which can be grouped in appropriate mottoes, as "GLORIA," "COR JESU," "ALLELUIA," etc., etc. We have them in the form of emblems, such as heart, cross and anchor. Each letter and emblem, with one or two exceptions, is arranged to receive from ten to fifteen candles, which, when illuminated, will present an effect which is at once beautiful and grand. When used with "SADLIER'S ILLUMINATING GLASS CUPS" the effect of the beautiful blended colors is beyond description. Heretofore these emblems and mottoes have been built up by numerous candlesticks properly arranged, entailing a great amount of labor and waste of candles. "SADLIER'S LETTER AND EMBLEM CANDLE HOLDER" stands on an angle, and the sockets are so arranged as to hold the candles upright.

The illuminating cups will give the most beautiful effect, but candles can also be used, and, when they are used, we would recommend the use of stearic candles only, and none larger than 6s short. The remnants of stearic candles can also be utilized, providing they are all cut to one length before being placed in the socket, so as to preserve the symmetry of design.

In using the emblems we would suggest that one be placed at both sides of the altar, and, if desired, one can be placed in the centre. In forming a motto like "GLORIA" the letters GLO can be placed on the gospel-side and the RIA on the epistle-side of the altar.

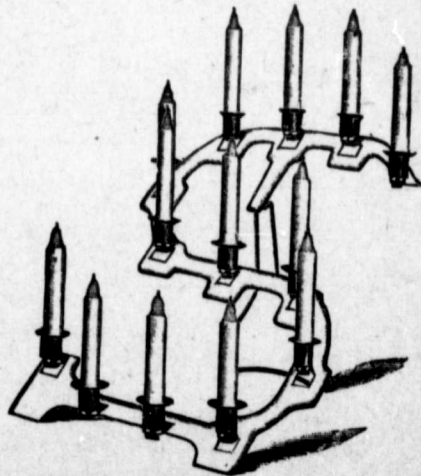

PRICES: Letters, \$1.00 each; Heart, Cross and Anchor, \$1.25 each
