Jersey Interests Progressing

Jersey cattle interests are sharing in the progress that characterizes all phases of the dairy industry. About 30 admirers of this breed gathered at the annual meeting in Toronto on Feb. 7th. The report of the secretary, Mr. R. Reid, of Bidart, Ont., showed that registrations in 1912 numbered 8,295 as against 7,715 in 1911. The financial statement showed a balance on hand of \$1,669.14 as compared with \$1,540.16 a year ago. The first volume of the new year book is now in the hands of the printers.

Jersey men feel that their breed does not get a fair show, in that the price of their milk is not in proportion to high testing milk, the superior quality of their product does not receive the price consideration that it deserves. In the case of milk for export, the price paid in New York is demanded in Toronto is slightly over three per cent, while the milk from the Jersey will test any of the other breeds.

The members believe that if city milk were paid for on quality it would be a decided boost for their breed. A deputation consisting of J. J. Ferguson, J. W. McCallum, Snelgrove, and F. L. Green, Greenwood, was appointed to interview the authorities of the Provincial Legislature, to bring a case before the court standard for city consumption.

CHANGE R.O.P. STANDARDS
A resolution was drafted asking for a meeting of representatives of the various dairy breeds to rearrange the rules governing Record of Performance. A committee appointed to see to the carrying out of this resolution consisted of B. A. Bull, J. McCulloch, Jas. Baggs and

R. Reid. Among other things Jersey men believe that no cow should be registered in National Record of Performance unless she gives milk testing up to three per cent. fat, the amount required by the commercial trade.

The board of directors of the Provincial Winter Fair at Guelph came in for some warm criticism. The cutting down of the number of points allowed for butter fat and the increase in the number allotted for volume of milk production, was considered a retrograde step, making as it does for lower quality of milk. The interest that the members take in the advancement of their breed was well illustrated when, in connection with dairy work, the Association decided to give \$25 to the cow that wins the championship at the next Provincial Winter Fair.

Tricks of Horse Traders

The operations of that smooth-tongued, but professional horse "dealer," have left thousands of us sadder but wiser. He has shown us even the simplest of the dealers' "tricks" we would be to-day decidedly more "in pocket."

Farm and Dairy is going to lay bare to its readers all of the common deceptions practiced by these dealers, and readers of Farm and Dairy this week Dr. J. Hugo Reid, Professor of Veterinary Science at the Ohio State University College, commences the first of a series of articles exposing these tricks. The horse trader in our first article deals with one of the most common frauds—Flaming a Roamer.

Watch for these articles. Tell your friends about them.

provided she is a Jersey. Mr. Geo. Laithwaite of Goderich, immediately jumped up and said, "I will give \$25 out of my own pocket for the best Jersey." This announcement was received with hearty applause but no sooner had the applause died away than Mr. A. Reid of Berlin rose and said: "I will give \$50. Such is the spirit of the Jersey men."

On motion of Mr. B. A. Bull it was unanimously decided to raise the membership fees and registration charges of the club, the membership fees being increased to \$5 and the registration fees for non-members to \$2 for animals under two years, and \$4 for animals over two years. Animals belonging to members are to be registered at half price.

The club decided to give \$25 to the leading cows in the four classes competing in the record of performance test.

Mr. David Duncan of Don, was re-elected president of the Club, and the other officers were elected as follows: Directors: Messrs. R. J. Fleming, F. L. Green, H. A. Donson, Ernest Duncan and B. A. Bullock; Vice-Presidents for the various provinces, Messrs. D. O. Bull, Ontario; W. H. Edwards, Quebec; S. Lyon, Ontario; H. S. Pipes, Maritime Provinces, and W. V. Edwards, Alberta.

Mr. R. Reid, of Berlin, Secretary of the club, tendered his resignation, and will shortly leave for the Old Country.

Mr. H. S. Pipes presided at the meeting, owing to the absence of President David Duncan, on account of illness.

The following were recommended to judge Jersey cattle exhibited at the various shows: Canadian National Exhibition, Prof. Van Pelt, Waterloo, Iowa; London Fair, Prof. Archibald, of Ottawa, and E. Silcox; Winnipeg Exhibition, J. L. Clark; Regina Fair, Prof. Hutton.

THE CO-OPERATIVE FLOUR AND FEED CO.

Temporary Offices: 33 Castle Bldg., Ottawa

IMPORTANT INFORMATION FOR FARMERS' CLUBS

This Company has been organized to cater especially for the needs of Farmers' Clubs, in providing for them at absolutely the lowest prices the retailers can obtain direct from the mills.

ALL LINES OF FLOUR AND FEED

By communicating with the Secretary of the above Company, complete information and plans regarding this co-operative selling organization will be furnished. Our services are also at the disposal of farmers in unorganized districts in establishing Farmers' Clubs
