

## Why IDEAL Machines Excel

The "Down-face" principle of the Ideal Concrete Block Machine permits the only practical use of rich facing material with coarse material in back of block. This principle is protected by basic patent. No other machine using it can be legally *made, sold or used*.

### IDEAL CONCRETE MACHINES

(INTERCHANGEABLE)

VARIOUS SIZES

Safe to buy because it is the original and only protected "Down-face" machine. Attachments and accessories will always be obtainable.

Profitable to own, because it produces blocks, not only at lowest cost, but of a uniform excellence of quality that commands highest price. Ideal Concrete Blocks are salable anywhere and everywhere at splendid profits.

Wonderfully rapid and economical to operate, because of its extreme simplicity. Not a wheel, cog, chain or spring in its construction. Magnificent illustrated catalogue of the entire Ideal line, a practical encyclopaedia of cement block manufacture, sent free on application.
