

We don't only say---

that the Smith Concrete Mixer

turns out better mixed concrete than any other machine, that it mixes faster, dumps quicker and lasts longer than any other mixer

We prove it
and the Machine proves it
 every day it is in operation

3000 in use and not one ever known to fail.
 Just think what that means. It is the result
 of better design, better material and
 better workmanship.

No. 1 Smith Mixer on Truck with Engine and Boiler.
