SHIPPING NOTES

Messrs./C. T. Bowring & Co., of London and Ne York, have just-added two fine steamers to the already large fleet that bring ore from Huelva, Spain, to Baltimore. Notwithstanding the war they got the ships overboard and fitted out in British shippards and have them in commission.

General business conditions in St. John, N.B., con tinue satisfactory. There is a great deal of activity 19,937 about the harbor, due to the increased demand for 8,211 lumber in Great Britain. Owing to the scarcity of 10,485 steam tonnage a large number of sailing ships have 40,938 been chartered. Not for twenty years have there 29.860 been so many safting vessels in the harbor as there 11,049 are at present. Between forty and fifty have been 8 832 chartered for this season's loading.

5.158 A new steamship service between New York and Australasian ports will be started with the sailing, on July 1, of the steamer Chalister, 9,700 tons. It is 131.148 proposed to despatch a steamer on the first of each month; the schedule as now arranged, calls for the 132 402 sailing of the Themis on August 1, Tellus on Septem-1,939 ber 1, Wagami, October 1, and Storstad, November 1. x 6,205 All of these vessels are of large capacity and some of them have been used in the St. Lawrence trade.

The American steamship Wicko, which left Phila-85,000 delphia May 27 for Copenhagen, is being detained 60.233 at Kirkwall, Scotland, and the American steamer F. 2.112 J. Lisman, New York May 23 for Rotterdam, is be-Both vessels carry general 17,000 cargoes, that of the F. J. Lisman being consigned to 133,473 the Netherlands Oversea Trust. The cargo of food-26,387 stuffs sezied by the British authorities on board the eral conditions. 3,660 American steamer Joseph W. Fordney and discharged 7.831 at Portishead, has been thrown into the prize court.

The Canada Steamship Lines, Ltd., have word that three of their steamships, the Glenellah, Dunelm and \$1.341.200 Dundee, have arrived in England with valuable cargoes from Canada. Two of these vessels made the journey in twelve days from Montreal, and one of them accomplished the journey in 11 days. May amounted to \$300,054,647, a decrease of \$27,368. Canada Steamship Lines. Limited, have now 25 freighters employed in ocean and gulf service, although only five of these are being operated by themselves directly. Three more will be put on the route

A shipping firm at Seattle has announced that it one round trip voyage at a rate of 11 shippings a month the deadweight ton, a new high record for e in operation.

The strike was brought to a sudden end by Mayor ed the Japanese steamer Gissun Maru at 10 shillings

According to a report of the Rotterdam Chamber of Commerce shipping at that port has been reduced to such an extent that it will probably take all of five years to recover the status it enjoyed at the time of the outbreak of the war. In the chamber's anand points west which carries Standard and Tourist sleeping cars. arriving Winnipeg at 11.05 a.m., the ageond marries of the war. In the chamber's annual report it is pointed out that "during the year ended December 31, last, 15.842 steamers and 284 ageond marries of the war. ping cars, arriving Winnipeg at 11.05 a.m., the ended December 31, last, 15.842 steamers and 284 and morning after, thus enabling passengers to be Winnipeg at a suitable hour. ever, 22,178 steamers and 467 sailing vessels, totall- Manchester Inventor. ever, 22,178 steamers and 497 satisfies vessels, totaling 27,545,475 net registered tons, were cleared in Cape Chatte, 234—Cloudy, north, and out. This is what five months of hostilities did to a commerce that had previously been growing every year by leaps and bounds."

> Two suspicious fires which broke out almost simulthroughly on the British steamship Penlee, on Sat-rday, as she was being loaded at Philadelphia with Cape cargo of oats consigned to the French army, lead day, Fheeda.
>
> Louisburg—Arrived, 10 a.m., yesterday, Olav the police to believe that the blazes were started by incendiaries who are hostile to the Allies. Neithby incendiaries who are nostile to the Ames. Seither of the fires caused any great damage, but they aroused such fears among the crew and 'longshoremen working on the vessel that a detail of police men will guard the steamship until she sails. Agents of Lioyds made an investigation immediately after the blaze, and will report the result. Shipping men say that a number of mysterious fires have been discovered within the past few weeks, in vessels loading food supplies for the armies of the Allies.

ST. LAWRENCE SPECIAL.

Murray Bay, Ste. Irenee, Cap a L'Aigle, Riviere du oup, Cacouna, Bic Rimouski, Metis Beach and othare again to enjoy force the excellent service afforded by the St. Lawrence Special—a solid train of Intercolonial Railway vesti- Head.

Commencing Friday, June 18, the St. Lawrence
Special will leave Bonaventure Union Depot, Montreal, at 8.35 p.m. and will run Mondays, Wednesdays

I a.m., Rosemount. Left up, 3.15 a.m., Sin-Mac and away with train orders and arranges meeting points and side-tracking with a minimum of danger. and Fridays during the season, with special sleeping tow. points), Riviere du Loup and Cacouna and Metis

INVESTIGATE WITHDRAWAL OF PACIFIC MAIL SHIPS

Washington, June 16.- The withdrawal of the Pathe influence of the company toward the at the coming session of Congress.

RAILROAD NOTES

Pennsylvania's order for 155,000 tons of rails will to tal \$4,390,000, and cars ond locomotives recently or-dered total \$77,000,000 dered total \$27,000,000.

Railroads have generally increased summer rates from New York to vacation resorts—such as \$1 on round trip on New York Central to the Ontario lake

New York syndicate, represented by Thomas Bruce, has purchased railroad and coal mining properties in West Virginia valued at \$20,000,000. Sales ncludes the property of Marmet Coal Co. and the enration, and 52 miles of railroad.

Identification was established at the morgue last ight of the man who was killed at the Grand Trunk Railway crossing at Charlevoix street at 10 o'clock on Monday night. The body was identified as that of Arthur Jobin, aged twenty-five years, who lived at 51 Coleraine street, Point St. Charles.

According to reports received by the American Railway Association, the net surplus of idle freight cars on railroads of the United States and Canada on June 1, 1915, was 295.092, compared with 293.803 on May 1, which means a comparative increase for the month of 3,789. The net surplus on June 1, 1914, was 241,802.

Railway Age Gazette computes one-eighth of the railroad mileage of the United States to be in receivers' hands, a total of 30,500 miles. This mileage Feb. ... is slightly greater than the mileage of receivershipped roads on June 30, 1896, although proportionate total nileage is substantially less. Figure as of June 30 1896, was 30,475, or one-sixth of the total mileage Securities of roads now in receiver's hands aggre

Grading gangs are now within fifty miles of Port Nelson, is the report of J. D. McArthur, who has the contract for the Hudson Bay railway. This season will see the grade completed, although all the Steel will not be laid until next spring. Bridge building over the first crossing of the Nelson river has been delayed by the sinking of trestle work near the first approach, but this has now been completed, and the big bridge is now under construction,

At "safety first" conference of New Haven emloyes, Howard Elliott, president said that all rail aid this year on the main line weighed 107 pounds to the yard and that the New York division by the end of this year will be equipped with southern pine creosote ties, screw spikes, and heavier tie-plates. About \$130,000 is to be spent on stone ballast in the Providence division and new signals between Stamford and Woodlawn have been authorized, to cost \$600,000

Late Sunday night the body of Thomas McMullen, aged 80 years, was found, with his head badly crush ed, at the side of the G. T. R. track about a mile and a quarter north of St. Jacobs, Ontario. The deceased a quarter norm of St. Jacobs, Ontario. The deceased vice-president of the Institution of Naval Architecture. was seen at the depot at St. Jacobs on Saturday evening and it is supposed that he had walked up the and well known as a naval designer and author works on the building of warships, died yesterday. had there lain down to sleep too colse to the ralls, and had been struck by train No. 181, wrich runs from Galt to Elmira. The body, however, was not disportant changes in naval designs.

The old procedure of passing a stick from runner to runner is now used to order railroad trains on the Southern Pacific road. It is known as the staff sysem, and for years has controlled the traffic on one of the busiest single track lines in the West. It may compared to a long walk way with self-locking be compared to a long walk way with self-locking gates, at each of which is a gatekeeper with keys. Chicago and Return \$31.00 He gives a key to the first man leaving, who ocks the gate and passes on to the next, where he delivers his key, and gives another and differen one for the next gate. If another pedestrian should arrive at that gate first, he would have to wait until the keyholder arrived to unlock the gate. In tual use this key is called a staff and is issued by electric machines which are located in pairs about three miles apart, each pair having an operator. One machine issues staffs to the trains going into the next block, while the other issues it to the train going into the opposite block. When either machine issues staffs the opposing machine three miles away is ocked, and can issue none till the coming train arrives with the staff. This is then inserted in the vacant place of the machine and unlocks both machines Thus it is impossible to have a collision, the track always being kept clear both ways until the train omes with the missing staff. These staffs are picked up by passing trains in much the same way that mail pouches are caught on the fly, except that the engineer leaves on the crane the staff he has obtained at the previous station. If one train should have to meet another the operator at that station guides the rain of inferior class into a sid means of fixed signals operated at his office. should by mistake set his switch controllers at both special—a solid train of Intercolonial Railway vestiQuebec, 139—Clear, northeast. system has been used in England for years. It is
more costly than the ordinary system, but it does

the same week of 1914. Car mileage figures are 212,174, an increase of 4,446.

...... SCOTCH MERCANTILE SHIP

Decreases Steadily While Naval Work Increases—Out-put on Clyde For May Only 5,040 Tons.

Glasgow, June 2 (by mail).—While practically all the resources of the yards and engine shops are being devoted to the production of naval vessels, mercantile shipbuilding continues to decrease steadily, During May less mercantile work was done than dur ing April and no new contracts were reported to any of the Scottish firms.

The Clyde launches were practically confined The Clyde launches were practically confined to three steamers, the largest of which is only 3,000 tons The Clyde total of 5,040 tons is by a long way the smallest on record for the month, while the for nonths' total of 41 vessels of 119,223 tons is the since 1908, and the second lowest since 1893.

On the east coast of Scotland four fishing ver were launched during May, making the sm for the country of 13 vessels of 5,620 tons. of course, continue very busy, but a larger and larger proportion of the men are being put on naval work How long this will continue depends progress made with the war, but meantime shipbuilding is counting for very little districts.

The following table shows the work for five me all the Scottish areas: Clyde. Clyde. Forth.
Ves. Tons. Ves. Tons. Ves. Tons.
